Templin-Bradley's Garden Guide

For 1935

59th year

NEW GLORIOUS GLEAM HYBRID DOUBLE NASTURTIUMS

Award of Merit for 1935

NEW SCARLET GLEAM DOUBLE NASTURTIUMS

Awarded Gold Medal for 1935

GOLDEN GLEAM
DOUBLE NASTURTIUMS

Awarded Gold Medal for 1933

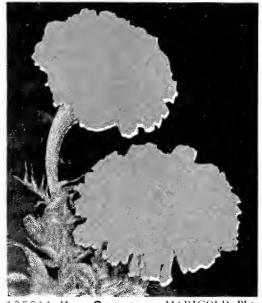

adley's Annual Flower Seed Novelties

²²⁸⁸ Zinnia TEMPLIN-BRADLEY'S LITTLE JEWELS, Pkt. 15c; 1/8 oz. 40c. See pages 20.

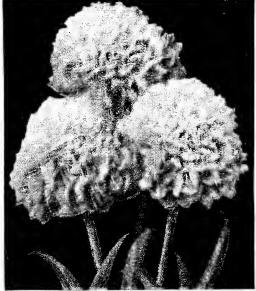

626 Orange Flare Cosmos Blooms in August from seed. Pkt. 25c; 18 oz. 50c. See page 8.

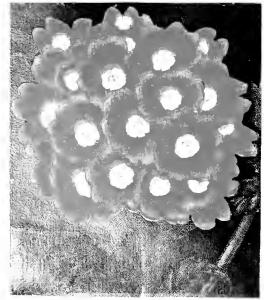

1359 Yellow Supreme. MARIGOLD. Pkt. 25c. See page 8.

2294 Zinnia FANTASY, Mixed Colors. Pkt. 25c. See page 9.

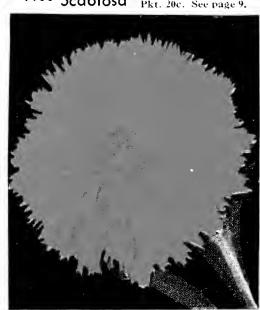

1733 Scabiosa BLUE COCKADE. Pkt. 20c. See page 9.

2070 Verbena DANISH EVEFULL. Pkt. 29c. See page 9.

1375 Royal Scot MARIGOLD. Tall. Pkt. 15c. See page 9.

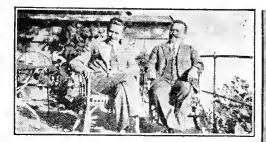

427 Calendula ORANGE SHAGGY. Pkt. 25c. See page 8.

Annual Flower Chart

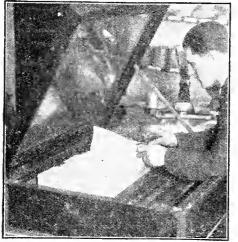

The greatest degree of success with flowers is acquired by knowing the likes and dislikes, the natural habits and the best treatment of each individual variety. We hope this chart will help you to this knowledge.

Floyd Bradley and Ernst Roggli, the Pansy Seed grower in Switzerland.

Templin-Bradley has every facility for serving your garden needs, quickly and accurately.

Electric seed germinators of our own design give us accurate results.

Our own Trial Grounds where type tests are conducted.

Our own Nursery assures you carefully grown plants

A corner in our Secd Department handling 7,500 orders a day in our busy spring season

U.S. Postal clerks, right in our own building cancel stamps and route packages direct to trains.

For Your 1935 Garden

To Our Customers:

It is a pleasure ta send this new catalag to those of you who have been our customers and to new friends wha are asking far copies for the first time.

This year is the 59th since Mr. Templin sent aut his first catalag of seeds and plants and my 23rd in the service of the Templin-Bradley Ca. In the long span of years, we have made a hast of friends because we have never wavered from Mr. Templin's ariginal idea that only the best seeds and plants are warth planting.

Mare and mare people are turning to their garden for recreation, food and healthful exercise and for the beautiful flawers and landscaping effects that only a nice garden can give. Garden Clubs, radio, newspapers and magazines everywhere are bringing peaple ta a realization of the pleasure and profit a garden can give.

It is anly thru the medium of a gaad, camprehensive mail order seed and nursery catalag such as this ane that you can abtain the wide assortment of seeds and plants that you need for your garden. The Templin-Bradley catalag will make your planning and buying easy. You will find especially helpful, the Annual Flawer Seed chart an page 6, the Perennial Seed and Plant chart an page 78 and the new Vegetable Seed Chart an page 42.

You cannot buy equal quality elsewhere for less maney. As you read thru the catalag yau will nate marked price reductions for larger quantities of seeds and plants, thus we pass on ta yau the saving we make in handling larger quantities. It is economy an yaur part when you send us your order far your planting requirements.

All af the seeds and plants we affer have been carefully grawn from tested, parent stack. All af our grawers are men af lang experience, watchful far quality and praductivity. Our test gardens in Medina and here in Cleveland give us further check an the habits and quality.

Lacated as we are, practically in the center of papulatian of the United States. parcel past, express and freight service to every carner of the country is very fast.

aur best wishes for a most successful garden in

Floyd Bradley President

thing in this catalog except where noted, prices include delivery to your mailbox or express office. This means you have no extras when you buy here.

When Do We Deliver? Seed will be shipped as soon as your order is received. Begonias, Cannas, Dahlias, Gladiolus, Summer Flowering Bulbs, will be shipped from here, either with seeds or separately, later, if there is danger of freezing, Perennial Plants, Ferns, Lilies, Mums, Peonies, and Iris, Phlox, Shrubs, Vines, Roses and Small Fruits will be shipped direct from our Painesville Nursery at proper planting time.

When to Order I am sending this catalog to you early enough so you can make up your order with the least amount of rush. We like to have the orders come in as early as possible so we can spread our work over a longer period than if everyone waited until planting time. But if you cannot order early, send your order in any time and we will take good care of it.

How to Order Two order blanks just alike are bound in this book, perforated, so you can tear them out easily. We like to have you use the order blank in ordering because it insures accuracy in filling your order when we receive it. When you are ready, tear out one of the order blanks—print or write your full name and full address in the spaces provided at the top. Then list all the flower and vegetable seeds you need. Do the same with the bulbs, shrubs and plants you wish to order. You will see a column on the order blank, headed "Variety Number." Every variety in the catalog has a number just in front of the name. If you wish, you only need to fill in those numbers on the order blank instead of writing out the names of varieties. We do like to have you use the numbers, even though you use the names, too, for it speeds things up here when we fill your order and helps us to be accurate. A tough, self-addressed envelope is enclosed with the catalog. Use it when you mail us your order. You may pay by Money Order, Check, or if you must send cash or stamps, be sure to register the envelope.

P. A. Bradley Vice-President

The Templin-Bradley Guarantee

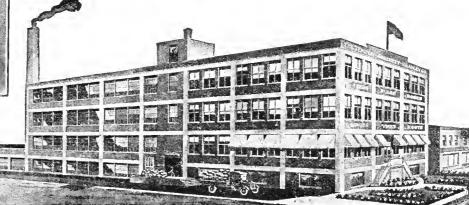

We guarantee the safe arrival of all seeds and plants you order from us, that they will be as represented and in condition to grow satisfactorily if planted and cared for properly.

Any item or items not found to be satisfactory, will be replaced free of charge or we will refund the price you paid us for same. It is agreed that we shall in no case be liable for more than the actual price paid for items found to be unsatisfactory, if any. We do not guarantee fertilizers, insecticides or other manufactured articles.

All-American Gold Medal 1935

All-American Flower Selections For Your 1935 Annual Flower Garden

What the "All-American" Means. For the past three years, the All-American Selections Committee, of the American Seed Trade Association, has been conducting trials of all new varieties of flowers submitted by plant breeders from all over the world. These trials are located in ten widely scattered test gardens from the Atlantic to the Pacific, in the charge of experts. By voting on the merits of each variety in each location, the best possible judgment of merit can be obtained and all articles bearing the name "All-American," in this catalog have passed the test of these judges. We recommend that you try as many of them as you can, for it is the new things in your garden that add so greatly to its interest. Mr. Bradley has worked very closely with members of the Committee, so this project is very close to The Templin-Bradley Co.

Antirrhinum, University of California Rust Proof All-American 1935 Certificate of Merit. The highest award ever given to any flower by the All-American Selections Committee. This rust proof "Snap" is the result of years of intensive work by our growers in conjunction with the University of California. This strain is more than 75% rust proof after being put through the most rigid tests, under conditions that were created in every way to try and produce rust on the plants. If your Snaps have been subject to rust, try this new strain this year and grow wonderful flowers with healthy foliage. Best Antirrhinum Colors Mixed. Pkt. 25c.

427 Calendula, Orange Shaggy All-American 1935 Gold Medal. Orange Shaggy is a very distinct new break in Calendulas. The petals are long and deeply fringed or laciniated. Rows of these long fringed petals overlap each other in a rather irregular fashion and build up a bloom with a shaggy appearance. These blooms have great grace and beauty, the color is deep orange, shading to a lighter orange in the center, giving the flower a two-tone effect, the stems are long, and the plants 18 inches high. See Natural Color on page 2. Pkt. 25c.

Pyramidalis. All-American 1935 Special Mention. The picture at the left shows the fine pyramidal form of this attractive new Celosia which grows 18 to 20 inches tall, carrying large flame-colored plumes on the top of the plant. It is quite branching, each branch having a proportionately sized plume. Every plant grows to the exact size and shape, making it desirable and effective for a border planting. Each plant looks like a "Flame of Fire." Pkt. 25c.

Klondyke. All-American 1935 Gold Medal. Orange Flare is one of the most talked of and admired novelties this year. The color is a vivid orange, and the foliage is a soft light green which gives the plant a mass of gorgeous color. The stems are long and wiry and the plant grows 3 to 4 feet tall. It is much earlier than most Cosmos, trials show it to be in full flower in less than four months after planting, from late July until frost. See Orange Flare in Color on page 2. Pkt. 25c; ½ oz. 50c.

687 Dianthus, Laciniatus Splendens All-American 1935 Special Mention. Free flowering and easily grown, The Dianthus family furnishes us with one of the most popular border plants. This new Laciniatus Splendens is the most striking Dianthus yet produced. The flowers are very large, more than 2 inches in diameter, in a brilliant shade of crimson, with a large boldly contrasting white eye. See cut at left. Pkt. 25c; ½ oz. 45c.

1270 Larkspur, Rosamond All-American 1934 Gold Medal. Also granted an Award of Merit by the Royal Horticultural Society of London. Rosamond is the most distinct Larkspur to be introduced in many years. It is two weeks earlier than other Stock-Flowered varieties. It is of uniform height, and the plants bear good spikes covered with fully double flowers. The color is new, a pure deep, rose self-colored. Individual florets are large and closely placed on the stems. Pkt. 15c; 1/8 oz. 40c.

Double Nasturtiums
See Front Cover for Color

1439 Scarlet Gleam All-American Gold Medal 1935 Scarlet Gleam when grown in a large space

has been likened to a huge fiery carpet. It is the most intense dazzling scarlet, plain petaled, deep throated, with individual petals at least twice the size of ordinary Nasturtiums. The doubleness is caused by an overlapping of the smaller petals toward the center of the flower. Scarlet Gleam is equally useful and beautiful, for both garden use and for cut-flowers. Pkt. 25c; ½ oz. 40c.

1438 Golden Gleam

All-American Gold Medal
1933. This wonderful Nasturtium produces great quantities of beautiful large flowers, often measuring $2\frac{1}{2}$ to 3 inches across. They are so sweet-scented that a bouquet of them will fill a room with fragrance. The plants are vigorous and bushy, with rich green foliage and bloom throughout the summer and fall. For best results, Golden Gleam should not be over watered. Growing a bit dry is preferable. Pkt. 10c; ½ oz. 25c.

1440 Gleam Hybrids

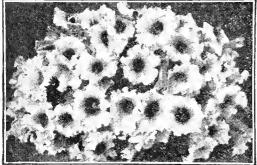

All-American Award of Mer-

scented doubles, of the same type as Golden Gleam and Scarlet Gleam. The habit of growth is the same, with semi-dwarf plants throwing short runners from well rounded, free flowering bushes. The stems are long and the foliage a lovely green. The color range includes an evenly balanced blend of the glorious assortment of brilliant shades of salmon, golden-yellow, orange-scarlet, cerise, cream-yellow, orange, maroon, crimson and many spotted varieties. It is a Glorious Mixture. Pkt. 20c; ½ oz. 30c.

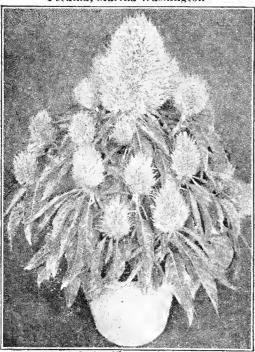

1425 Front Cover Collection Gleam Nasturtiums 1 Pkt. each 50c

Double Gleam Nasturtiums, See Front Cover

Petunia, Martha Washington

Celosia, Flame of Fire

Dianthus, Laciniatis Splendens

And Other 1935 Flower Novelties

All-American Flower Selections Continued

1593 Petunia, Martha Washington

All-American Award of Merit 1935. A ruffled Petunia 9 inches high, a perfect ball, covered with lovely blooms of blush pink, veined with rich wine-red, deepening in the throat to a dark violet. It resembles a Pelargonium. hencethename Martha Washington. Pkt. 25c.

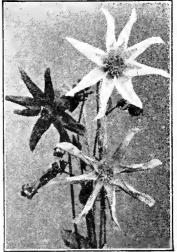

²⁰⁶⁸ Verbena, Violet Bouquet All-American Special Mention 1935. A charming new Petunia of rich violet, tinged with garnet, changing to deeper violet as the flower ages. Cream eye. Flower heads 2½ to 3 inches, individual florets 3/4 inches across. Symmetrical plant, 25 flowers open at a time. Pkt. 15c.

2070 Verbena, "Eyeful" All-American Award of Merit 1935. See this in

Natural Color, page 2. Medium sized flowers of intense scarlet with contrasting white eyes. Very compact growth making it useful for bedding or border plants. It is showy and startling in color, the sparkling red and the great beauty giving it the name "Eyeful." Pkt. 20c; 1/16 oz. 40c.

2294 Zinnia, Fantasy Ali-American Award of Merit 1935. See several blooms in color, page 2. The very informal, shaggy appearing flowers are graceful and interesting, quite different from the usual stiff, formal Zinnias. The rounded, medium sized flowers have the which with a delign to and refusal and refusal are the grant and refusal are the state which with a delign to and refusal are shaggy, ray-like petals which give a delicate and refined appearance. The color range includes the brightest shades of red, yellow and orange, and the pastel shades of pink and cream. Fantasy Mixed Colors. Pkt. 25c; ½ oz. 45c.

²³⁶⁰ All-American Flower Collection. 14 Varieties. Value \$3.05 for \$2.50

Orchid Flowering Dahlia

Other 1935 Flower Novelties

173 Aster, Crego Blue Flame Crego or

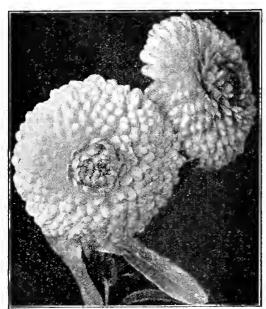

Giant Comet Class. If you are a lover of blue flowers, try this new Aster. It is a bright Navy Blue, distinct from any other dark blue or purple Aster now offered. The flowers are large and double. Pkt. 10c; ½ oz. 35c.

659 Dahlia, Orchid Flowering

A new type of Dahlia, flowers are of a distinctive character and coloring and provide a wonderful range of color. (Picture at right above.) Mixed. Pkt. 15c; ½6 oz. 60c.

Marigold, Royal Scot

Calendula, The Jewell

428 Calendula, The Jewel A real Jewel.

The new variety Jewel is one of the finest introduced in years. The flowers are deep orange in color, rounded shape, with good form and great depth of petals. The plants are semi-dwarf, free flowering and desirable for both bedding and for cut-flower use. Pkt. 20c; 1/8 oz. 40c.

1375 Marigold, Royal Scot Modas the crack Scottish Railway train from which it takes its name. The large, well formed double flowers are produced in abundance on plants from 24 to 30 inches tall. See color plate on page 2. Pkt. 15c; 1/8 oz. 35c.

1599 Petunia, Tyrian Rose The color is a bright Tyrian Rose and the flowers are large, measuring 2½ to 3 inches across, with a creamy throat, making a beautiful combination of color tones. The plants are 12 to 15 inches tall, compact and bloom profusely. Pkt. 15c; $\frac{1}{32}$ oz. 40c.

¹⁶⁹⁸ Rubeckia, Kelvendon Star

A half-hardy Annual and a rampant grower, 3 feet in height and should be planted 18 inches apart. Flowers are of a golden yellow with a rich brown disc, surrounded by shining mahogany. See picture at right. Fine for cut-flowers. Pkt. 25c; 1/16 oz. 40c.

¹⁷³³ Scabiosa, Blue Cockade

See Natural Color on page 2. Received an Award of Merit from the Royal Horticultural Society of London. This outstanding novelty is the purest deep azure blue ever found in any Annual flower. The formation of the flower is far above any existing Scabiosa as it has a much greater depth, almost conical Half-hardy. Height 3 feet. Pkt. 20c; 1/16 oz.

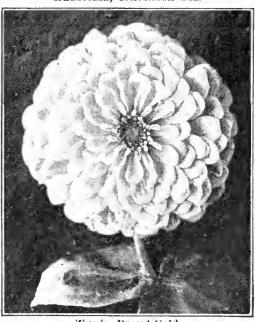

2293 Zinnia, Desert Gold This Desert Gold ert Gold contains all the rich yellow and golden shades of the Crown O'Gold Mixture. Our grower has segregated all the golden flowers and we are able to give you Zinnias that will thrill you with their golden rays. Desert Gold is of the Giant Dahlia Flowered type, the flowers often measuring 5 inches across. Mixed. Pkt. 15c; ½ oz. 40c.

²³⁶¹ Nine Novelties 1 Pkt. each of above 9 kinds \$1.25 1369 Marigold, Mexican Dwf.

Orange Hailing from Mexico, the original home of many of our garden flowers, this handsome new type of Marigold grows 15 to 18 inches tall, and bears large double flowers of a bright orange. The petals are broad, deeply crinkled at ends. The flowers are 4 inches in diameter and so very double that they resemble oranges. Different from African Marigold, being more branching and free flowering. Sown indoors in March, and planted outdoors in May, it will bloom from July until frost. Makes an excellent subject for the mixed border. Pkt. 25c; 1/16 oz. 60c.

Rudbeckia, Kelvendon Star

Zinnia, Desert Gold

Alyssum, Popular Border Plant

Alyssum

The Alyssum is most popular of all for dwarf compact borders and edgings. Quickly in bloom from seed, it is a mass of color all summer. The plants are also useful in porch and window boxes. The flowers have a delicate

21 Sweet White Benthami Maritimum. This is the popular semitrailing sort so nice for boxes and hanging baskets. If planted as a border it spreads out 18 to 24 inches. Flowers white and sweet scented, Pkt. 5c; ½ oz. 15c; oz. 35c.

22 Little Gem Carpet of Snow. The best white, of dwarf neat compact habit, the plants running very uniform. The flowers completely cover the plants. Plants only 6 inches high. Pkt. 10c; 1/4 oz. 25c; oz. 65c.

23 Lilac Queen Like Little Gem except in color, which is a delicate lilac, the color being more pronounced in cool, moist weather. Pkt. 10c; ½ oz. 25c; oz. 65c.

Procumbens or Dwarf Bouquet
A very select, compact sort about 2½ inches high and
12 to 18 inches in diameter. The blooms are thickly
massed almost completely hiding the plant. Fine specimen for rock garden. Pkt. 10c; ¼ oz. 30c; oz. 75c.

25 Lutenscens Creamy yellow flowers on compact plants 6 to 8 inches high. Pkt. 10c; ¼ oz. 30c.

³ Abronia

Umbellata Grandiflora also called Sand Verbena be-eause of its Verbena-like flower heads, fragrant bright rose with white centers. A charming little trailing plant that does very well in poor dry sunny soils or in sunny rock gardens. Pkt. 10c; ¼ oz. 20c.

⁵ Abutilon

Flowering Maple or Chinese Bellflower. A very pretty house plant or summer bedding plant. Grows 3 to 4 ft. tall with very ornamental leaves and lovely bell-shaped flowers. If the seed is started in early spring the plants will bloom the first summer outdoors and ean be taken into the house in the fall for winter bloom. Flnc Mixed Colors Pkt. 20c.

8 Acroclinium Sec Everlastings Page 17.

For Your Garden "The Book of Annuals" by Hottes 180 Pages, 155 Illustrations. Price \$1.60.

9 Adonis, Pheasant's Eye

AESTIVALS, Flos Adonts. R. G. A pretty plant with feathery foliage and rich deep crimson flowers, borne

crimson flowers, borne early in the summer. Seed rather slow to germinate. Start in April sowing directly where plants are to stand. Pkt. 10c; 1/4 oz. 20c.

Ageratum or Floss Flower

An attractive edging plant easily grown and literally covered with bright blooms from midsummer until frost. Foliage is very dark rich green and forms a pleasing contrast to the bright blue flowers.

17 Blue Ball Dwarf compact bush covered with bright clear blue flowers A single plant when in full bloom resembles a big blue ball 10 to 12 inches, tall not as dwarf as Blue Cap. See this flower in natural color on page 24. Pkt. 10c; 18 oz. 35c.

14 Swanley Blue Plants compact and grow 15 to 18 inches high with about same spread, and thickly studded with downy, brightblue flowers. An excellent veriety for cutting. Pkt. 5c; 14 oz. 25c.

18 Imperial Dwarf White Best white flowered Ageratum, very pretty in mixed plantings with the blue. Semi-dwarf plants 15 to 18 inches tall. Pkt. 10c; 14 oz. 30c.

15 Little Blue Star A good real dwarf variety with small blue flowers with rosy tint. Pkt. 10c; 1/8 oz. 40c.

13 Blue Cap The plants are very dwarf, tiny mounds covered with over any other dwarf Ageratum. Only a few inches high like Little Blue Star but has much larger flowers of richer blue. Beautiful for edgings and borders. Pkt. 25c.

Anchusa, Blue Blrd

4300-8 oz. Can of Watch-em-Grow only 50c.

Asparagus Ferns

Asparagus Ferns are not hard to grow from seed, though two years is required before the plants are of good size.

137 Sprengerii Emerald Feather. An exbaskets, window boxes, etc. Pkt. 15c; 100 sceds 30c.

139 Plumosus Nanus Lace Fern. A very and much used for cutting because of the graceful feathery foliage, which remains fresh for a long time. Pkt. 15c; 100 seeds 30c.

Arctotls, Lavender Daisy

Arctotis, Lavender Daisy

Sec Flowers in Color on Page 23

One of the loveliest of Daisies, and one of the most desirable annuals for cut flowers as well as for show in the garden. Arctotis is also called the Blue-Eyed African Daisy but it should not be confused with our Golden African Daisy or Dimorphoteca.

129 Grandis Large, showy, daisy-like flowers of blush white with a central disk of steelblue, while the reverse of the petal is pale lilae. Pkt. 10c; ¼ oz. 20c.

128 Hybrida Mixed One of the most beautiful novelties offered in recent years. The flowers are like Arctotis Grandis in form but come in rich colors, each with dark centers. Shades of pink, rose, yellow, and orange are all present. Excellent for cutting or garden display. Pkt. 10c; 1/8 oz. 40c.

Asparagus Plumosus

Antirrhinum or Snapdragon

Antirrhinum Maximum The Rose

Antirrhinum seed may be sown in late Fall and will give you earlier bloom.

Majestic Antirrhinum

1/8 oz. 25c.

Without doubt the Antirrhinums are among the most desirable flowers for general garden culture. With the glorious new varieties that have been recently introduced, there is little left to be desired in coloring and size of plant and flower spike. "Snaps" are not hard to grow. For earliest blooms start seed inside for later transplanting, but you can have good results by planting seed directly outdoors when soil is warm. The seed is fine, so cover lightly and keep moist. You will have more and finer flowers if you pinch back the tops of the plants when they are 3 or 4 inches high.

Maximum or Giant Type

See Color Plate Page 34.

This new type of Giant Flowering is a great advance over the old Snapdragons. They are magnificent in size and coloring, fully twice the size of the old types and with a color range that defies description. Plants 3 feet tall. Do not fail to include some of these in your garden.

42 Cerberus. Crimson with white tube. **43 The Rose.** The most popular rose-pink.

44 Canary Bird. A fine clear canary yellow,

45 Old Gold. A blending of gold and bronze. 47 Apple Blossom. Delicate pink and white.

48 Cattleya. A rosy lilac.
49 Purple King. Deep glowing garnet purple. 50 Indian Summer. A rich glossy copper color.

51 Snowflake. A pure white variety.

Price, any of above, Pkt. 10c; $\frac{1}{8}$ oz. 35c; Any 5 Pkts. for 40c. 60 Collection. 1 pkt. each of 9 above varieties 70c.

Maximum Mixed A grand color assortment made up from above and others of the best varieties. Pkt. 10c; 1/8 oz. 30c.

New Majestic Antirrhinums

The Majestic Antirrhinums are the very latest development in this popular Annual. The spikes and individual flowers are extra large like the Giant type, but the plants are semi-dwarf and bushy, 18 to 24 inches tall and a mass of color, making a splendid plant for bedding and borders. They bloom profusely and are fine for cut-flowers. You will like the assortment of rich colors we offer you here.

110 Orange King. Rich terra cotta shades and orange

with contrasting yellow lip.

111 Red Chief. Well named. A bright, rich deep scarlet.

112 Twilight. Delicate Apricot, rose and salmon.

113 Eldorado. A very rich tone of deep golden yellow.

114 Rose Marie. A delightful light salmon rose.

115 Majestic Avalanche. A pure white.

Prices any of above Pkt. 15c; 1/16 oz. 45c.

108 Collection. 1 pkt. each of above pkt. 15c; 1/16 oz. 45c. Majestic Mixed. Includes all above colors. Pkt. 15c; 109

Florists Forcing Strains

For forcing into bloom in the greenhouse during the winter, we have made a mixture of the best florists strains available. This mixture contains all the best shades in pink, rose, gold, bronze, yellow and white. These may also be grown out of doors the same as the other typesof Snaps. They produce tall plants and long spikes of large flowers. 123 Florists Mixed Colors. Pkt. 25c; Large Pkt. 75c.

61 Medium, Semi-Dwarf

These are somewhat smaller than the Maximum type both in size of flowers and height of plants. The plants are bushy and compact, about 15 inches tall, very free flowering, bearing long, dense spikes of blooms. We offer you here a mixture of all the best shades and colors available. Medium Mixed. Pkt. 10c; ½ oz. 25c.

Tangerine-Medium A very outstanding new variety in brilliant, fiery orange of great intensity of color. The flowers are freely produced on long spikes. An excellent flower for bedding and for cut-flowers. Pkt. 10c;

117 Rock Hybrids

Early flowering hybridsforming compact little plants suitable for Rock and Alpine Gardens. 8 inches tall, reselected mixed colors of rose, pink, purpleand mauve. Pkt. 15c; 1/16oz. 45c.

Rust-Proof Antirrhinums

After years of collaboration with the University of California, our growers are now producing a strain of rust-proof Antirrhinums which we are offering to you here. These Antirrhinums have been subject to the most rigid tests. Conditions have been created in every possible way to try and produce rust but they have stood the tests and are better than 75% rust proof. Order some of this new strain and enjoy the beautiful flowers with their healthy foliage free from rust.

University of California

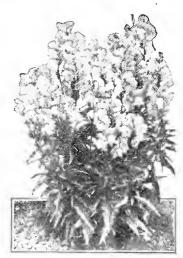

Mixed Rust Proof Antirrhinums This mixture contains a wonderful range of all the most popular colors of Antirrhinums. Pkt. 25c.

Improved Early Flowering

See Snaps in Color on Page 34 University

of California Rust-Proof Mixture on Novelty Page 8

Plant of Medium Antirrhinum

Early-Flowering **Improved**

These beautiful new Snapdragons, while from the tall large flowering group, are so much improved as to be a distinct strain. The plants grow uniformly 2 to 2½ feet tall and they come into bloom 3 weeks earlier than other Snapdragons. In addition, the spikes are exceptionally long and fine, more flowers being open at a time on each spike.

76 Mixed Colors An unusually fine mixture of light pink, deep pink, yellow, scarlet and white. All the colors now available in this type. Pkt. 15c; 1/8 oz. 25c.

Tom Thumb Dwarf

This delightful dwarf variety of Antirrhinum grows only 8 or 9 inches tall and is especially useful for edging or for beds. Very attractive color mixture containing almost every shade known in Snapdragons.

116 Tom Thumb Mixed Pkt. 1/8 oz. 25c.

American Branching Aster

Plant Templin-Bradley Asters

A splendid well balanced mixture of wilt-resistant strains containing all the colors and types listed on these two pages. This mixture should give you a continuous supply of wonderful blooms for cut flowers throughout the entire season. You will enjoy studying the types. Pkt. 10c; ½ 8 oz. 30c.

²⁸⁷Mixed Wilt-Resistant Asters

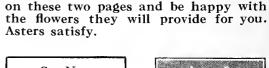

American Branching Asters

Wilt-Resistant

These have been the standard of perfection for a long time. They produce great quantities of attractive large double flowers, long stems. Plants 2½ to 3 ft. tall. Blooming in mid-season, the plants are vigorous and well branched. We offer these in the following colors:

142 Purple 143 Crimson 144 Sensation, Scarlet 145 Coppery Rose 146 Dark Lavender 147 Shell Pink

148 White 141 Mixed Colors Prices on separate colors or Mixed: Pkt. 10c; 1/8 oz. 30c. 150 Collection. 1 pkt. each of 7 colors American Branching,

Asters Satisfy

Do you like to have your garden colorful

in the late summer and early fall when the other annuals are beginning to lose their brilliancy? Then plant plenty of our lovely ASTERS. They come in so many colors and shades and in so many types

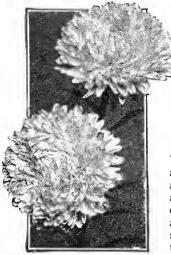

that it is possible to have a real array of beauty. They bloom from July to October, give you a profusion of bloom for the garden and because of their long and

graceful stems, make ideal cut-flowers.

Select several different types and colors

220 Collection. 1 Pkt. each of 5 above colors for 60c.

304 Extra Quality Mixed Asters Very carefully prepared—con-

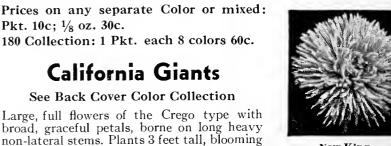

taining all of the separate types we list, and others as well. It will give you a beautiful Aster collection for the price of one packet-types early, midseason and late, and all the colors known to Asters. Plant a quantity of this mixture and see what delights are in store for you. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

Dwarf Bouquet Asters These are little gems of flowers, plants 12 inches high, compact little bushes, covered with flowers in a great variety of colors, each plant a bouquet in itself. Fine border plant. Mixed Colors. Pkt. 10c; ½ oz. 40c.

Surprise Golden Salmon Opens pure salmon-yellow, changes to salmonrose. The blooms resemble the Peony-Flowered Asters, fully double round 3 inches across. Good keeping qualities, making them valuable for bouquets. The plants are long stemmed, fairly tall and are heavy bloomers. Pkt. 15c; ½ oz. 35c.

Peerless Yellow A delicate shade of yellow in beautifully formed flowers of the American branching type. 2 feet tall, good-sized flowers, petals slightly incurved. Pkt. 15c; ½ oz. 40c.

The Templin-Bradley Co., Nationwide Seedsmen and Nurserymen, Cleveland, Ohio

For Beautiful Bouquets

Wilt-Resistant Asters Sure To Succeed

For several years our growers have been working on a strain of Asters resistant to the Fusarium wilt disease which has caused so much trouble to both amateur and professional growers in recent years. The plants may be stricken with the wilt at any stage in their growth and yet no method of control of the disease has been discovered. The only assurance of healthy plants and flowers is to plant the Wilt-Resistant strains of Asters.

We are now satisfied with the results of the intensive work that has been put into producing Wilt-Resistant Strains of Asters and offer you here many of them. In every Aster family, we are dropping the old strains in favor of Wilt-Resistant, just as fast as our work has been completed.

Aster Mam. Peony Flowered Asters In Color on Back Cover

Dwarf Bouquet Asters

Two New Asters

299 Lilliput Flowered Areal dwarf small flowered ed Aster, plants only 15 to 16 inches high, bushy and with medium length stems. Prettily formed, button-like flowers with quilled center petals. This type makes wonderful cut-flowers and are very colorful for the garden border. Mixed colors. Pkt. 10c; ½ oz. 35c.

²⁹¹ Super Giant Los Angeles Thelast word for size and beauty in Asters. The flowers are really like magnificient Chrysanthemums as the illustration below shows. The color is pure shell pink, a favorite shade in Asters. Pkt. 15c; $\frac{1}{16}$ oz. 30c.

Queen of the Market

Wilt-Resistant Asters

Calendula, Scnsation

Calendulas

See Calendulas in Color on pages 2 and 24

If you like a gala atmosphere in your garden, plant Calendulas. They have no rivals for brilliant color and will fill your garden and house with their charming beauty all summer and early fall.

By careful plant has the color and the color

summer and early fall.

By careful plant breeding through the past years, Calendulas have been greatly improved in size and color and we are able to offer you a wonderful selection of varieties in all the gay shades of orange, yellow and lemon. They come in different types too, double, loose and quilled petals.

See Novelty Page 9. Calendula No. 428 The New Jewell—A New Reauty

A new Calendula of vigorous growth and strong stems needing very little disbudding to produce the finest flowers. The blooms are flat and undoubtedly the largest of any Calendula. The color is brilliant orange with a scarlet sheen, and a full yellow center. Pkt. 15c; ½ oz. 25c.

See Sensation in Color on Page 21.

419 Orange King A deep orange with dark center very popular with all who have grown it. A favorite with florists and just as fine for the outdoor garden. Flowers are of very good form, fully double and borne on excellent stems. Excellent for forcing. Pkt. 10c; ½ oz. 20c; oz. 35c.

417 Lemon Queen A beautiful clear lemon yellow. Flowers are large, of excellent form, well rounded fully double and produced on tallstrong stems. Pkt. 10c; ¼ oz. 20c; ½ oz. 35c.

441 Ball's Gold A special florist's strain of Calendula by many considered the finest of all. In color a rich golden yellow lighter than Ball's Orange. Pkt. 15c; 1/8 oz. 10c.

443 Ball's Orange
A companion to Ball's Gold with
same good form and size, but rich
orange in color. Extra longstemmed.
Pkt. 15c; 1/8 oz. 10c.

423 Radio Radio Orange. Distinct from other Calendulas with its quilled or comet petals. The flowers are glowing orange and nearly globe-shaped, showing practically no center until old. Pkt. 10c; ¼ oz. 25c.

⁴²⁴ Radio Golden Beam

A golden yellow form of Radio, Pkt. 15c; 1/8 oz. 25c.

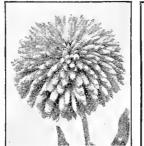

427 Orange Shaggy or Page
All-American
Gold Medal
1935
New Calendula, unusual form, Overlapping petals deeply
fringed. See cut. Deep
orange, shading to
lighter orange in center. Long stems,
Plant 18 inches tall. Pkt. 25c. Also listed on Novelty Page.

⁴²⁵ Chrysantha or Sunshine

Entirely distinct from other Calendula in form of Entrely distinct from other Calendula in form of flower. The flowers are large, of a sunny clear butter-cup yellow with long, loosely arranged petals, giving them the appearance of Chrysanthemuns. The long, stiff stems make them ideal for cut-flowers. Lovely when arranged with a blue flower like Delphiniums or Bachelor Buttons. Pkt. 15c; ¼ oz. 35c.

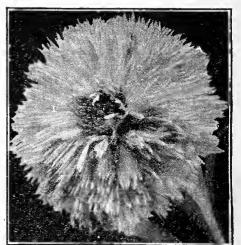

416 Mixed Calendulas An excellent orange, yellow, lemon, and striped varieties that will give you much enjoyment, many beautiful bouquets, and a very bright showy bed in the garden. Pkt. 5c; ½ oz. 20c.

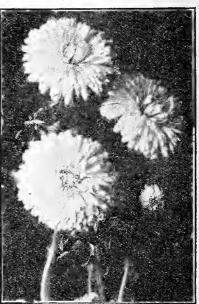

Calendula Radio

426 Pastel Shades of Bedding Mixture

As this mixture is made up of As this mixture is made up of the dwarfer growing types of Calendulas, it is especially adapted for bedding or border use. It contains many new shades of apricot, salmon, cream and white as well as orange and lemon shades. A very attractive mixture. Pkt. 10c; ¼ oz. 30c.

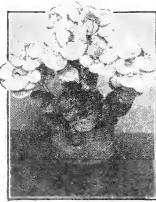

Calendula, Orange Shaggy

Calendula, Chrysantha

401 Cacalia, Tasselflower Paint Brush
A brilliant orange and scarlet flowered annual worthy a place in every garden. While not a large flower its brilliancy of color makes it especially noticeable wherever grown. It is admirable for combining in bouquets and is a splendid rockery subject. The flowers are like small tassels borne on long stems. The plants grow about 18 inches tall and bloom from June to frost. Pkt. 10c; ¼ oz. 25c.

Calendula, Orange King

Cactus From Seed

Growing cactus from seed is a very interesting Growing cactus from seed is a very interesting undertaking. The best soil in which to start these seeds is a thoroughly decomposed sod broken up and screened with an equal amount of sand added. It is most important that good drainage be provided in preparing the pans or pots for the seed. Full cultural directions will be sent with each packet of seed. packet of seed

403 Mixed Varieties We offer a fine many sorts that can be successfully grown with ordinary conditions. Pkt. 25c.

Calceolaria, Slipperwort

Growing Calceolarías from seed is not difficult. Use shallow pans or boxes filled with good garden soil mixed with Peat Moss and some sand. Cover the finer seed very lightly. Water very lightly and keep them only moist. Transplant the small plants into small pots and later into large pots.

404 Dwarf Giant Hybrids They are gorgeous beauties with their odd pouch or pocket shaped flowers, and are indispensable for a complete collection. Our strain produces many of the spotted or "tigred" flowers, and is of compactgrowth, about 1 foot high. Pkt. 35c.

Cacalla Coccinea

Carnations See Dianthus Page 16.

Canterbury Bells

A new strain of this popular biennial flower in which has been developed the ability to bloom in a few months from seed thus making it entirely satisfactory to use as an annual subject. Resembles its biennial parent in flower and plant, except that it grows but 2 to 2½ ft. tall and each plant producing several spikes of bloom.

186 Mixed Colors. Blue shades, rose and pink and pure white. Pkt. 15c.

187 Liberty Bell. Intense violet or deep blue. Pkt. 20c.

188 Angelus Bell. A beautiful art shade of deep rose. Pkt. 20c.

Calliopsis Annual Coreopsis

Calliopsis is one of the finest midsummer annuals to grow in mass planting or in clusters here and there in the garden or border. They are so profuse and continuous blooming that they will furnish much for cutting and still always maintain a wonderful display in the garden.

466 Tall Mixed One of the leading plants for the flower garden, making a very showy border, producing flowers in nearly every shade of yellow, orange, crimson and brown, on long wiry stems, fine for cutting. Pkt. 10c; ¼ oz. 20c.

467 Golden Wave Drummondi. Grows with large flowers golden yellow with brown red ring. Pkt. 10c; 1/4 oz. 25c.

469 Dwarf Drummondi Mixed A fine color mixture of the Dwarf Drummondi type, including yellow, orange, brown, red, crimson, in many shades and color combinations. Pkt. 10c; ¼ oz. 20c.

Calliopsis

Canna, Indian Shot

481 Crozy's Hybrids. Did you know that Cannas will bloom in less than four months from the seed? The colors do not come quite true from seed, but our strain has been selected from the best hybrids. The seed is very hard shelled, so file or nick the coat and soak in warm water a few hours before planting. For quickest results start inside, transplanting out when weather is warm. Pkt. 15c; ¼ oz. 30c.

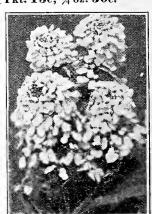

One of the most useful and popular annuals. Completely covered all summer with neat clusters of flowers well suited for bouquets; of dwarf spreading habit making it especially desirable as a border or edging plant. Very easily grown and thrives in nearly any soil, although a sandy loam is most desirable. They bloom profusely and their fragrance especially commends them as cut flowers.

471 Giant Hyacinth
of pure white florets. The most desirable for cut flower use and a very fine variety for use as edging plant. Will grow to 12 or 15 inches in height. Pkt.

10c; ¼ oz. 30c; oz. 75c.

475 Umbellata Mixed.

475 Umbellata Mixed An excellent bedding or border variety of Candytuft of dwarf compact growth. Free flowering in shades of white, lavender, rose and crimson, See Color Plate on Page 5. Pkt. 10c; ½ oz. 25c.

Gt. Hyacinth Candytuft

The Finest Celosias

The Celosias include some of the finest and showiest flowers than can be grown in the outdoor garden. They are easily raised from seed, either planted directly outdoors or started inside for later transplanting. The Celosias make beautiful cut flower bouquets.

Celosia Childsi. Distinct forms of plumed Celosia. Plants average 2 feet in height, branching freely, each shoot bearing beautiful ballshaped flower-heads, resembling a ball of wool.

501 CELOSIA CHILDSI MIXED COL-ORS. Pkt. 10c; ½ oz. 30c.

491 Celosia Cristata Dwarf Large This type forms large heavy combs or heads as illustrated. Our strain is dwarf, 12 to 15 inches, with extra large flowers of crimson, rose or yellow. Pkt. 10c; ½8 oz. 30c.

492 Dwarf Empress Purple Leaved. The provided type of Dwarf Cockscomb. Dark crimson, 15 to 18 inches tall. Pkt. 10c; ½8 oz. 40c.

493 AA: value Tall Contraction.

493 Miracle Tall Cockscomb Tall unbranching stems, 24 to 30 inches tall, bearing immense solid heads or combs of unusual size and coloring. Colors range from creamy white thru yellow, orange, pink, red, scarlet and purple. Extra finc mixed. Pkt. 15c.

Celosia Plumosa

Chinese Woolflower

The plants are of pyramidal form, bearing many graceful feather likeplumes of brilliant reds and yellows, 3 ft. tall. They are easy to grow in any fair garden soil.

514 Flame of Fire Celosia Pyramidalis. This attractive new Celosia grows 18 to 20 inches tall, with pyramidal form, carrying large blaze-colored combs on the top. It is very branching and each branch has a proportionately sized comb. The entire plant looks like a "Flame of fire." Every plant grows to the exact size and shape, making it unusual and desirable for effective planting. Pkt. 25c.

 $\bf 507$ PLUMOSA MIXED, Thompsonil Magnifica. Pkt. $\bf 10e;$ ¼ oz. $\bf 35e.$

⁵¹³ Plumed Knight Celosia

One of the most wonderful flowers ever grown the result of over 20 years of patient toil. Produces waving plumes in dozens of color shades—rose, silvery pink, salmon, red, purple, orange and yellow. Special packets 25c.

Celosla Plumosa

The New Dwarf Feather Celosias

Shown in Color on Page 24.

A new dwarf type of this beautiful flower which grows but 15 to 18 inches tall and produces a mass of brilliant colored feathery plumes. This new type is excellent for bedding or bordering and supplies unlimited quantities of most excellent material for cutting. These attracted more attention and admiration in our trials last summer than any other flower.

summer than any other flower.

511 DWARF FIERY FEATHER. Beautiful plumes of brilliant fiery red. Pkt. 25c.

510 DWARF GOLDEN FEATHER. Large plumes of rich golden yellow. Pkt. 25c.

512 Mixed Colors. Pkt. 25c.

Castor Beans

Strong, sturdy growing tropical like plants, having ornamental greenish-bronze foliage, desirable as center plants for canna beds and to hide unsightly places.

1694 Zanzibariensis. The largest and freest growing of this family. Foliage from bright green to bronze. Pkt. 10c; oz. 25c. 1695 Red Spirc. A very showy variety with large bronze leaves and bright crimson seed pods. Grows quickly 6 to 8 ft. high. Pkt. 10c; oz. 40c.

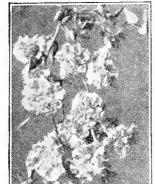

Annual Chrysanthemum

Easy growing annuals forming pretty bushy plants with a profusion of showy flowers, excellent for cutting. For best results plant in rich soil and space the plants well apart so that they do not crowd each other.

5 16 SINGLE MIXED. Includes all the showy varieties such as Morning Star, Eastern Star, Evening Star, Northern Star and many others in shades of golden yellow, pink, red and white. Pkt. 10c; 1/4

547 DOUBLE MIXED. These make splendid bedding or cut flower plants. Pkt. 10c; ¼ oz. 25c. 545 SINGLE AND DOUBLE MIXED. An excellent mixture for the garden, containing both single and double flowered sorts. Pkt. 10c; ¼ oz. 20c.

560 Eldorado A beautiful big golden yellow daisy with dark center. Excellent for cutting. Received special mention by the All American Committee of Selections. Pkt. 10c; 1/4 oz. 25c.

Clarkia Elegans

Cineraria 561 Giant Dwarf Mixed What we large flowered type in dwarf compact plants not over a foot high. Sow the seed from May until September. Pkt. 25c.

562 Multiflora Nana A very distinct type of Cineraria, more dwarf and compact with a great profusion of small flowers in endless variety of snades. Pkt. 25c.

Clarkia Elegans

The Clarkias are splendid annuals easy to grow and should have shade from the sun at least in the hottest part of the day. Seed may be started directly outdoors in spring. Plants about 2 ft. high, bearing leafy racemes of double flowers which all open up when cut and placed in water.

538 Centaurea Gymnocarpa Listed Page 16 as Dusty Miller

Large Early Flowering Cosmos

Cosmos, Double Crested

Cosmos

Cosmos are one of the most popular tall growing annuals used for backgrounds and screens. The plant formation and the foliage is pretty—and the flowers in Red, Pink, Rose and White make excellent mass bouquets. For earliest results start seed indoors, though the plants will flower in late summer and fall from sowings made outdoors. They grow 4 to 6 ft. tall, and may be spaced 3 to 4 ft.

Early Mammoth Single

Large flowering. The best type for the North as it blooms earlier than the late Giants. The flowers are large, in shades of crimson, pink and white. There is no other of the tall annuals that serve their purpose as well as the Cosmos. They are graceful and attractive during all stages of their growth.

607 MAMMOTH SINGLE WHITE 608 MAMMOTH SINGLE PINK 609 MAMMOTH SINGLE CRIMSON Price, any above. Pkt. 10c; ¼ oz. 25c. 610 COLLECTION. 1 Pkt. each color 606 MAMMOTH SINGLE MIXED. Pkt. 10c; ¹/₄ oz. 25c.

618 Double Crested Cosmos

The flowers are unique and exceedingly pretty. Center double with a row of broad outer petals. We have the earlier flowering strains of doubles, the best strain obtainable. In this the flowers are frequently entirely double or else the disk-florets become tufted or crested. The foliage of this type is less finely divided. The seed of the Double Crested should be started indoors early. Mixed Colors. Pkt. 15c; 1/8 oz. 35c.

Orange Flare Klondyke Cosmos

All-American Gold Medai Flare is one of the most startlingly beautiful novelties of today. The color is a vivid orange and the foliage a light green, making an unusually attractive flower for show. The stems are long and wiry and the flowers so brilliant that it is especially desirable for cut-flowers. It grows 3 to 4 feet tall and blooms from late July until frost. Pkt. 25c; ½ oz. 50c.

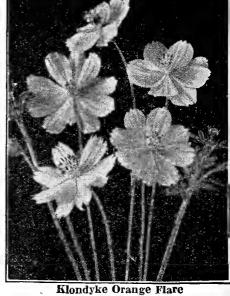

See Orange Flare In color page 2

Early Express Cosmos

In Early Express Cosmos, we have a variety that will bloom in from 45 to 50 days after the sowing of the seed and will bloom continuously from then

until frost. The flowers are of medium size and the colors good. Plants 2½ to 3 feet tall.
611 Express Pink
613 Express Crimson
614 Express White
612 Express Mixed
Price on separate colors or mixed. Pkt. 10c;
1/8 oz. 20c.

Bidens Humulus. Quite different from 624 Miniature Yellow Cosmos only 18 to 24 inches tall. The foliage is fernlike and the flowers bright yellow, 1 to 1½ inches in diameter. A nice novelty for you. Pkt. 10c; ¼ oz. 25c.

Early Express Cosmos

Carnations Dianthus, Pinks

681 Double Marguerite Carnations

These lovely, fragrant Carnations produce fine double flowers from seed sown in the garden early in the spring, blooming in about four months. When well started transplant to stand 12 inches apart. They are quite hardy, flowering until late fall and can be potted for winter blooming. Mixed. Pkt. 10c; ½ oz. 30c.

687 Laciniatus Splendens

The most striking Dianthus ever offered. The flowers are very large, over 2 inches across, in a brilliant crimson, with a large, bold white eye. Free flowering and easily grown. Pkt. 25c; 1/8 oz. 35c.

686 China and Japan Pinks One of the most popular and most culture, comprising a large variety of types and brilliant colors, many of them deeply fringed. Our mixture contains many varieties of Chinese and Japanese double and single types. Pkt. 5c; ¼ oz. 25c; oz. 40c.

697 Tom Thumb Brilliant A very bright scarlet, fully double flower, that will make a brilliant display. Grows 5

China and Japan

698 Annual Sweet William A valuable new annual blooming type of the popular Sweet William, originated by crossing the common Perennial variety with the Annual Japan Heddewigi Pink. Pkt. 10c; 1/8 oz. 25c.

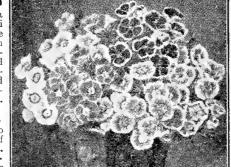

700 Sweet Wivelsfield

A new hardy annual, the result of a A new hardy annual, the result of a cross between Dianthus Allwoodii and Dianthus Barbatus. Very free flowering over a long season, from June to frost. The color range is unusual, including deep rich reds and purple, through all shades and combinations of pinks to white, both solid colors and with markings. See illustration on page 14. Pkt. 15c; ½ oz. 35c.

595 Collomia Coccinea. Small plants 9 inches to 1 ft. tall producing large heads of bright searlet red flowers. Grow as a hardy annual. Pkt. 10c.

[1935]

605 Cosmidium Burridgeanum. Flowers quite like Calliopsis, velvety brown each petal with a broad tip of golden yellow. Blooms continuously all summer. Plants 2 ft. tall. Pkt. 10c; ¼ oz. 20c.

Dianthus Sweet Wivelsfield

African Daisy Dimorphoteca Aurantiaca

716 Golden Star Rare showy annual from South Africa and yet a flower easily grown in any fairly good soil. The little plants make a fine, low border, almost hugging the ground, and spreading out to a width of 8 to 10 inches. The large daisy-like salmon orange flowers glisten in the sun like molten gold. Pkt. 10c; ½ oz. 30c.

721 Pluvialis Ringens A beautiful new form of the Dimorphoteca or African Daisies. Compact plants 8 to 10 inches high, bearing daisies of a most attractive color combination. The petals are pure glistening white, the center bluish brown, and right around the center at the base of the petals is a zone of bright blue. Pkt. 10c; 16 oz. 25c.

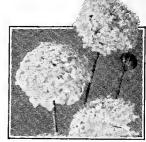

African Daisy

717 Mixed Hybrids A very beautiful assortment of colors is produced orange, salmon, pink, white and others run riot in a bed of this variety. Produces an abundance of most excellent cut flowers. Pkt. 10c; 1/8 oz. 35c.

Queen Anne's Blue Lace Flower Coeruleus. This is a shade of heavenly blue that has decided value in the cut flower bouquet or in the open garden. Flower is almost ball-shaped, a compact mass of dainty individual florets, the whole charming and graceful. Plant the seed early in a cool, rather moist part of the garden. Pkt. 10c; ¼ oz. 35c.

538 Centaurea Gymnocarpa

Didiscus Queen Anne's Blue Lace Flower

Extensively used for edgings and borders for taller plants, especially Cannas, Salvias and Geraniums. The leaves are silvery white and fern-like. Dusty Miller is also very desirable for hanging baskets and porch boxes. The plants grow 12 to 15 inches tall. Pkt. 10c; 1/4 oz. 25c.

Other Centaurea

On Page 15

One of the most charming house plants, blooming freely during the winter and spring. The flowers are fragrant and richly colored. Our strain will give you a mixture of the best colors. Mixed, Pkt. 20c.

Dusty Miller

Datura

Horn of Plenty, Cornucopia, Trumpet Flower

661 Fastuosa Double Mixed Bushy plants growing 2 to 3 feet tall bearing large trumpet or cone-shaped delightfully fragrant flowers, often 6 inches long, in several colors, white, purple and yellow. Many flowers are double. Pkt. 10c; ¼ oz. 25c.

Dahlla Grown from Secd

Euphorbla Snow on the Mountain

Grow Dahlias from Seed

Dahlias are easily grown from seed and although they do not come true to color of the parent many new and fine varieties are seedlings. Seed started early in the house will bloom the same season.

Each plant will produce tubers which should be taken up in the fall and planted out again the following spring. The flowers of seedling dahlias improve each year for three or four years.

656 DOUBLE MIXED. Seed taken from the finest

656 DOUBLE MIXED. Seed taken from the finest double flowers of Cactus, Decorative and Peony types. The seed should grow some wonderfully colored varieties for you. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 55c.
660 SUPERFINE SELECTED. This seed has been hand-selected from eross-pollenized blooms of the best named varieties of Decorative and Cactus types, the highest quality possible to secure. Pkt. 30c; Large Pkt. 75c.

658 Templin-Bradley's Dwarf Hybrids. The bushy plants are 18 to 24 inches high and are remarkably free flowering, in a wide and most charming color range. The flowers are good sized and semi-double. They are early blooming, producing flowers in four months after the seed is started. Pkt. 15c; 16 oz. 10c.

of Dahlia, flowers of a distinctive character, graceful form and in all the colors known to Dahlias. Mixed colors. Pkt. 15c; ½ oz. 60c.

Chinese Delphinium **Butterfly Varieties**

The Chinese Delphinium or Delphinium Chinensis are perfectly hardy perennials but are sometimes classed as Annuals because if the seed is sown early they will fully develop and bloom the first year. Their flowers are borne as loose sprays rather than in spike form. They are fine for garden display or cutting.

2781 CHINENSIS, BLUE AND WHITE. A distinct type with plants 3 ft. tall, and graceful stems with flowers loosely arranged. Develops to full size the first year from seed started early indoors. Blue and White. Pkt. 10c; ¼ oz. 30.

2782 DWARF BLUE BUTTERFLY. R. G. A brilliant blue variety of dwarf compact habit, flowering readily from seed the first year. 15 ln. tall. Pkt. 10c; 36 oz. 30c.

2783 CHINENSIS CAMBRIDGE BLUE. A most excellent "Belladonna Blue" form of the Chinensis type. A rich clear blue of fine brilliancy, flowering to a great extent the first year if started early. Grows 2 to 3 feet tall. Pkt. 10c.

Eschscholtzia, California Poppy

The state flower of California and one of the most attractive low growing annuals. The foliage is finely cut, fern-like, and silvery green in color. They start to bloom a few weeks after the seed is sown.

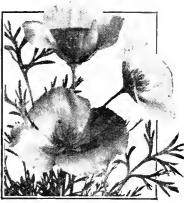

801 Golden Yellow Flowers bright golden-yellow shading California Poppy. Pkt. 5c.; ¼ oz. 15c; oz. 35c.

802 Grandiflora Hybrids Large flowering varieties in the most exquisite shades of gold, copper, bronze, scarlet, purple and crimson. Pkt. 10c; ¼ oz. 30c.

808 Ramona Hybrids A new strain containing many lovely shades. The plants grow compact and upright, with flowers beautifully frilled. Pkt. 10c; 18 oz. 25c.

809 Double Eschscholtzia The flowers are like little silken crinkled, double and semi-double. The colors are rich yellow, orange and salmon, Mixed Colors, Pkt. 10c; 1/8 oz. 25c.

1074 Bush Eschscholtzia See Hunnemannla Buttercup Poppy Page 18

Annual Gaillardia Blanket Flower

Two Fine Euphorbias

831 Snow on the Mountain Euphorbia Varlegata. Bushy plants growing 2 to 3 ft. high, surmounted with broad fleshy green leaves, veined and margined with white. Pkt. 5c; ¼ oz. 20c; oz. 60c.

832 Annual Poinsetta growth similar to Snow on the Mountain but the upper foliage is marked with red instead of white. About the middle of summer the top central leaves turn to a rich orange scarlet, giving the appearance of the wonderful greenhouse plant the Poinsetta. Pkt. 10c; 1/4 oz. 30c.

Annual Gaillardia

Blanket Flower. Very showy annuals of easy culture. Blooms from early summer to frost. Flowers on long stems.

915 DOUBLE AND SINGLE MIXED. A grand assortment of both singles and doubles in many shades of orange, bronze, maroon and crimson A mixture that will delight you. Pkt. 10c; ½ oz. 25c.

902 INDIAN CHIEF. A rich bronzy red single flowering variety, beautiful for cutting. Pkt. 10c; ½ oz. 25c.

917 Gamolepis Tagetes
A pretty annual 8 to 10 inches high, producing many bright yellow and orange flowers, daisy like in form. Excellent for sunny border or rock garden and easily grown. Pkt. 10c; 1/4 oz. 30c.

921 Geranium

Zonalc. We have an extra nice strain of the largest and finest colored varieties in mixture. They will bloom the first year from seed started in the early spring inside for transplanting outdoors in June. Pkt. 15c.

Four O'clocks

Four O'clocks Marvel of Peru

A popular and easy growing annual of bushy habit, 2 feet high, each plant bearing throughout the summer, hundreds of brilliant blooms. The flowers remain tightly closed until Four O'clock in the afternoon, when they all open together and the plants become a glowing mass of brilliant colors.

Statice Suworowl

Strawflowers **Grow Your Own Gay Winter Bouquets**

8 Acroclinium

An everlasting flower of much merit. Plants 2 feet tall bearing many semi-double daisy-like flowers in pink and white shades. Petals of distinctly strawy texture but very silky in appearance. Flowers are easily dried for winter bouquets and are excellent addition to any collection. Pkt. 10c; ½ oz. 20c.

34 Ammobium, Winged Everlasting Alatum Grandlflorum called the "Winged Everlasting" because of its airy silvery white, yellow centered flowers. One of the strawflowers so pretty when dried for winter bouquets. Pkt. 10c; 1/4 oz. 25c.

1016 Helichrysum Mixed

The most popular Everlastings. The best known and most desirable because of the great improvement in recent years. This Monstrosum or large double is the best type. The plants grow 2 to 3 ft. high and are literally covered with these large double brilliant flowers.

In all the gay colors and shades. Mixed Colors. Pkt. 10c; ¼ oz. 25c.

971 Gomphrena Globe Amaranth

Very showy bush plants, bearing attractive elover-like flowers in rose, purple and white Another good flower to be dried for winter bouquets. Pkt. 10c; ¼ oz. 25c.

1693 Rhodanthe, (Everlasting)

Mixed Colors. One of the prettiest of the everlastings, the flowers star like and dainty with their silken petals, in shades of pink and white. Height 1 ft. Easily grown in a good soil and sunny place. Pkt. 10c; 1/4 oz. 25c.

841 Mixed Everlastings

We have made a very special mixture of all kinds, types and colors of Everlastings, all those listed here as well as many others. You will enjoy this mixture for it will give you many winter bouquets of great variety. Pkt. 15c; 2 pkts. 25c.

Statice Limonium

Not only as a beautiful flower for the garden but one of the best for drying for winter bouquets, as when dry it retains its true colors which is a rare thing among the everlasting flowers.

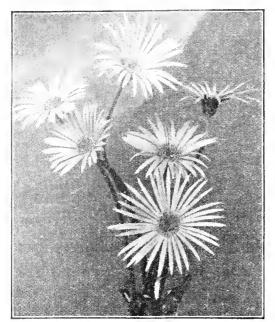

1753 SINUATA MIXED. An excellent variety for cut-flowers. Three colors, bright blue, rose and white. Pkt. 10c; ¼ oz. 20c.

1759 BONDUELLI. Strong growing variety producing many heads of bright lemon-yellow. Pkt. 10c; ¼ oz. 25c.

1760 SUWOROWI. Russian or Rattall Statice. A nice type of Statice with graceful spikes of soft rose flowers. Easy to grow and attractive. Pkt. 10c; 1/8 oz. 30c.

1754 SINUATA TRUE BLUE. A beautiful clear deep blue. Pkt. $10c; \frac{1}{4}$ oz. 25c.

2130 Xeranthemum A very charming evergrow 2 feet tall and produce many bright and pretty flowers of silky texture. Rose, white and purple mixed double. Pkt. 10c; 1/4 oz. 25c.

Gerbera, Transvaal Daisy

Godetia, Satin Flower

962 TALL DOUBLE AZALEA FLOWERED. Double Schamini Type. This splendid type of Godetia grows about 2 ft. tall, providing fine long stemmed cut flower spikes. The flowers are like Azaleas in beautiful shades of crimson, rose, and pinks. Pkt. 10c; ¼ oz. 25c.

Godetias, Dwarf Double Azalea Flowered

The dwarf double Godetias are beautiful plants for growing in pots, porch boxes or in the garden. Their colors are brilliant and when blooming they are simply a mass of color as may be seen in the illustration. They are dwarf and compact and while they do well in partial shade in the garden they are at their best as a pot plant.

958 CARMINEA. Delicate pink with crimson blotched center.

959 BRILLIANT. Glowing dark crimson.

960 CORNELIA. Lively bright salmon shade.

961 DWARF MIXED.

Price any color or mixed. Pkt. 10c; 1/4 oz. 30c.

955 Godetia, Sybil Sherwood

A new and outstanding introduction to the Godetia list, Sybil Sherwood is a beautiful single flowering variety of most exquisite color, a glorious shade of bright salmon pink softened by an undefined edging of white Plant is robust, growing 18 to 20 inches tall, has strong stems for cutting and so free flowering that the foliage is practically hidden by the bloom. Pkt. 25c.

971 Globe Amaranth

See Everlastings Page 17

946 Gloxinia

Exhibition Mixture. A mixture, unrivalled for variety and color, of this splendid house plant. Large bell shaped flowers in beautiful colors. Pkt. 25c.

928 Gerbera Daisy

Jamesonl Hybrids. The Gerbera is a half hardy pernnial and we recommend growing it as an annual by starting seed indoors very early or grow it entirely as a house plant. The blossoms are daisy-like, often 3 inches across and borne on excellent stems for cutting, and in a variety of beautiful colors—pure white to orange, salmon, rose, ruby red and violet. Pkt. 25c.

A very graceful annual with fine feathery foliage and nice stems for cutting. Very charming in the garden as it is very free blooming and of very attractive colorings. May also be dried as an everlasting flower.

941 CAPITATA. Lavender Bluc. Erect plants 1½ to 2 ft. high. The flowers are globe-shaped and of a delicate lavender blue. Pkt. 10c; ¼ oz. 20c.

942 TRICOLOR. Also called Bird's Eyes. Grows about 1 foot high. Flowers violet, pale lilac or rosy with dark purple throats and yellowish tubes. A fine rockery plant. Pkt. 10c; ¼ oz. 20c.

981 Grevillea—Silk Oak

Robusta. A very graceful and pretty foliage plant used for table decoration and in the outdoor garden in the summer. It grows rapidly from seed and is pretty in all stages of growth. We have seen some excellent specimens in fern dishes. Pkt. 10c; % oz. 25c.

Gypsophila, Annual Baby's Breath

One of the most popular Bouquet Flowers. Very easily grown annuals, 12 to 15 inches high. Always useful for combining with other flowers in bouquets or small vases. Make several plantings to have the flowers always in the best condition.

991 GRANDIFLORA WHITE, PARIS MARKET STRAIN. The flowers are pure white, very small, star-like, and produced in feathery sprays. We have an extra Select Large Flowering Strain. Pkt. 5c; oz. 25c.

992 ELEGANS CRIMSON. Similar to Common White except in color, which is a pretty rosy-crimson. Pkt. 5c; ¼ oz. 15c; oz. 40c.

993 MURALIS ROSE. A dwarf variety growing only 6 inches high, with delicate rose-pink flowers. Fine for rock gardens or edgings. Pkt. 10c; ¼ oz. 20c; oz. 60c

1016 Helichrysum See Everlastings

The delightful perfume of this plant makes it great for bouquets. Also it is a very pretty house or summer bedding plant, being in bloom all season. Will bloom in the summer from seed started indoors, or the seed may be sown right outdoors in May. Large flowered mixed colors. Pkt. 10c; 1/8 oz. 35c.

Grasses—Ornamental

11 Agrostis Nebulosa Cloud Grass.

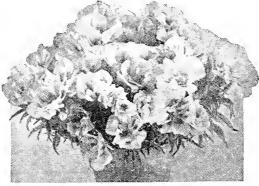

graceful heads so pretty for mixing with flower bouquets. Is to 20 inches tall, Pkt. 10c.

358 Briza Maxima Quaking Grass. The ters are carried on such slender graceful stems that they wave in the slightest of air currents. Valuable for winter bouquets. About 1 foot high. Pkt. 10c.

1172 Job's Tears (Coix) A very interesting seed is frequently used as an old-fashioned remedy for sore throat and teething babies. The seed is strung on a linen thread and worn around the neck as a chain. Pkt. 5c.; oz. 20c.

1565 Pennisotum Rueppelianum. "Foun-

1565 Pennisetum Rueppelianum. "Foundamental grass for borders around Canna and Caladium beds or pools. Grows 2½ feet tall. Pkt. 10c. 1/8 oz. 25c.

1134 lonopsidium or Diamond Flower. A delightful miniature plant very rapid growing and free blooming. Flowers are violet in color, small but freely borne and early. Season of bloom may be prolonged by keeping flowers cut. Plant grows about 3 inches tall, forming dense tufts of fohage which is fairly smothered with the dainty httle blooms. An unusually fine plant for rockeries or ground cover. Pkt. 15c.

1228 Kochia or Fire Bush

Giant Summer Cypress. A charming and most effective decorative plant, with a habit resembling one of the compact evergreen shrubs. It has light green feathery foliage, which changes to crimson in the fall. May be grown as single specimens or as an ornamental hedge. The plants grow 2 to 2½ feet high with a spread of about 15 to 18 inches. You may plant the seed when soil is warm, just where the plants are to stand and thin them out later. Or you may start the seed indoors transplanting outdoors later. Pkt. 10c; ¼0z. 20c.

Hunnemannia

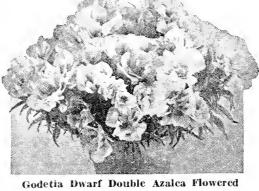

1075 Sunlite A new strain with semi-double flowers of clear canary yellow, as bright as the sunlight. The extra row of petals adds greatly to the beauty of the flowers. Sunlite received the Award of Merit from the All American Selection Committee. Sow the seed when the soil is warm and it will grow and bloom quickly. Pkt. 10c; 1/8 oz. 35c.

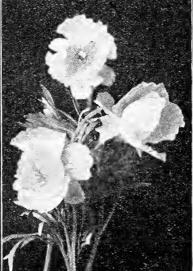

1074 Golden Buttercup Poppy Bush Eschscholtzia. Imagine great long stemmed buttercups over attractive lacy foliage and you have a picture of this Poppy, the only poppy suitable for cutting. They bloom all summer and make such pretty bouquets that if you once try them you will want them always in your garden, Pkt. 10c; ¼ oz. 25c.

ice Plant See Mesembryanthemum Page 19

1121 Impatiens

Sultans Balsam. Best Hybrids. A charming plant for the house, blooming almost continuously. The flowers range in color from light pink to reds, and purple violet. The plants are about 18 inches tall. Impatiens is a very satisfactory outdoor bedding plant if placed in partial shade. Pkt. 15c.

Hunnemannla, Sunilte

BE SATISFIED With Your Seed Results

READ THIS LETTER Buskirk, N.Y.

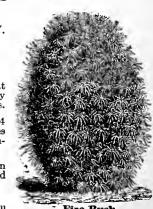

Templin-Bradley Co., Cleveland, Ohio.

I have exhibited flowers at the Floral Dept. of the County Fair for the past seven years.

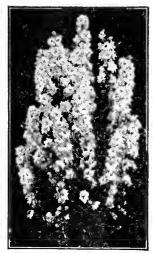

Last year I won 14 first and 4 second prizes out of 22 entries with flowers grown from Temphn-Bradley seeds.

I have tried other seedsmen but none have given such good satisfaction as you.

Yours truly, Mrs. Allan Russell

Fire Bush

Larkspur, White Spire

Annual Larkspurs

The annual Larkspurs are beautiful free flowering annuals. The flowers come in many colors and are produced on long spikes, the plants growing normally about 2½ to 3½ feet tall. They make lovely bouquets and garden displays.

Being hardy annuals, the seed may be planted in the late summer or fall to hasten next seasons bloom.

Giant Imperial or Delphinium Type

In this class of Larkspurs, the plants grow upright though freely branched at the base, producing many fine long stemmed branches for cutting. Their type of growth allows closer planting without influencing the amount of their bloom. The plants grow 3 to 4 feet tall.

1280 Blue Bell A new shade of deep Sky-blue.

1276 Blue Spire Intense deep oxford blue.

1279 Carmine King Carmine rose, deepest of the pinks.

1272 Exquisite Pink Improved

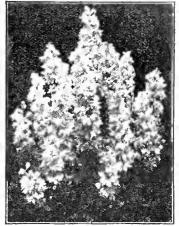

1282 Miss California Deep pink on salmon ground.

1274 Los Angeles Improved antrose on salmon ground.

Laquisite Fink Improved 1275 White Spire Beautiful glistening Digit delicate Pink.

Price any of above varieties. Pkt. 10c; 1/8 oz. 30c.

1271 Mixed Colors A fine mixture including all the above and other rare colors. Pkt. 10; 1/8 oz. 25c.

Dwarf Emperor Larkspur

Giant Imperial In Color, Page 24.

Tall Double Stock Flowered

The plants grow 3 to 4 feet high and bear long cutting spikes of beautiful double flowers.

1270 Rosamond Beautiful pure rose, a shade entirely lacking in Larkspurs up to this time. Plants uniform in height, individual florets are large and very double, closely placed on the stems. Comes into bloom two weeks earlier than other Stock-flowered Larkspurs. Pkt. 15c; 38 oz. 40c.

1261 Mixed Colors Includes a great variety of white of the tall double flowered type, considered the best of all. Pkt. 10c; 1/4 oz. 25c; oz. 75c.

1257 Lantana, Dwarf Mixed This pretty plant carries Verbena-like heads of flowers in white, rose, orange and intermediate shades. It is constantly in bloom so an excellent house or bedding plant. Our dwarf strain produces compact plants 10 to 12 inches high. Pkt. 10c; 1/4 oz. 25c.

1311 Lavatera Annual Mallow. Very attractive plants growing about 2½ ft. tall and producing large cup-shaped flowers most of the summer. The flowers resemble Mallows or small Hollyhocks. Sowin the garden in May and thin out to stand a foot apart. Mixed colors, rose and white. Pkt. 10c; ¼ oz. 25c.

1319 Leptosiphon, French Hybrids
A pretty little edging plant growing only a few inches high, forming dense cushions of foliage, surniounted by flowers in many colors; cream, yellow, orange to brown, filac and purple.
Pkt. 10c; 1/8 oz. 20c.

1318 Leptosyne Stillmani A daisy-like flower sis. Flowers, golden yellow, 2 to 3 inches across, borne on good long stems, and the flowers last well in water. Plant 18 inches tall with finely cut foliage. Plants grow quickly, blooming in about 6 to 8 weeks from seed. Pkt. 10c; 1/8 oz. 25c.

Linaria

1327 Fairy Bouquet Awarded a gold medal by the mittee. Fairy Bouquet is a little beauty. The plants are about 8 inches high covered with the pretty airy flowers, like miniature snapdragons, in a great mixture of shades. Blooms quickly from seed and is ideal as a filler for bouquets or for bedding or potting. Pkt. 15c.

1326 Maroccana Hybrida Excelsior Mixed. A hardy annual with small dainty flowers like miniature Snapdragons, colors ranging through crimson, gold, pink, rose, maroon, dark blue and chamois. Plant 12 to 18 inches tall and blooms in about 8 weeks. Pkt. 10c; ¼ oz. 20c.

Lobelia, Dwarf and Trailing

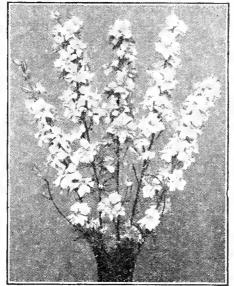

See Color Plate on Page 51

For best results sow Lobelia seed indoors in boxes or pots covering the seed very lightly and keeping the surface moist.

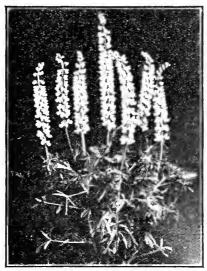

1335 Crystal Palace Compacta This is the best strain of dwarf Lobelia, the plants only 5 or 6 inches high, fairly covered with rich deep blue dainty flowers. A fine little border or pot plant, and it is used also for porch boxes and baskets. Pkt. 10c; 15 oz. 25c.

1336 Sapphire Trailing A beautiful new strain of trailing Lobelia, so useful for porch boxes and baskets. The plant is strong growing and the flowers extra large, a rich deep blue with a white eye. Pkt. 10c; 16 oz. 30c.

1340 Blue Stone A dwarf compact variety with large white eye. A very fine strain. Pkt. 10c; 1/2 oz. 30c.

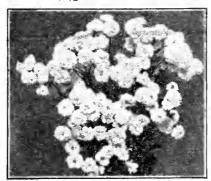

Annual Larkspurs-Stock Flowered

New King or Giant Lupines

Matthiola

1391 Bicornis Evening Scented Stocks. Bears lilac color flowers, which in the morning, evening or after a shower emit most delicious perfume. Plants 15 to 18 inches high. Pkt. 10c; ½ oz. 25c.

Matricaria Capensis

Dwarf Larkspurs

1301 Emperor An improved class, more dwarf and compact in growth, making a fine bedding variety. Plant grows about 2 feet tall, producing an abundance of spikes, bearing double flowers of the stock flowered type. Mixed Colors. Pkt. 5c: 1/4 oz. 20c.

1302 Enchantress A beautiful new variety of the pact, bushy plant is literally covered with soft, salmon-pink flowers. A splendid variety for potting or bedding. Pkt. 15c.

1328 Linum, Flax
Scarlet Annual Grandiflorum. A brilliant flowered annual plant I to 1½ ft. high, carrying rosy crimson flowers. They make pretty beds or borders. For continuous display make several plantings. Pkt. 10c; ¼ oz. 20c.

Annua Lupines Hardy Lupines on page 39 (Easily grown, free flowering annual, with long, graceful spikes of pea-shaped flowers, richly and variously colored; Fine, dark, glossy foliage. Valuable for mixed borders. Prefers some shade. Height 2 feet.

1344 Mixed Colors Blue, pink, rose and white.

New Giants or King Lupines

A new and improved sort, growing 3 to 4 feet tall and branching from the ground with four to six spikes to a plant. A big advance in size and beauty over the standard Annual Jupines.

1342 King Blue Rich oxford blue with a white stripe in the standard of each flower. Pkt. 15c; 1/8 oz. 40c.

1343 King White Very sweet scented, glistening white White Pkt. 15c; 1/8 oz. 40c.

1350 King Mixed Shades of blue, rose and white Pkt. 15c; 18 oz. 30c.

Malcomia Sce Virginia Stocks

Double Matricaria Feverfew

The small double flowers resembling button Chrysanthemums are produced in showy clusters.

1384 CAPENSIS, DOUBLE WHITE. Plants grow from 2 to 3 feet high, almost completely covered with pretty, small, double white flowers. Very well adapted for bedding or mixed border. Pkt. 10c; 14 oz. 20c.

1385 EXIMEA, GOLDEN BALL. The dwarf compact little plants grow 9 to 10 inches high, producing an abundance of fully double golden yellow flowers. This dwarf variety makes an unusually fine edging or border plant for taller annuals, Pkt. 10c; 18 oz. 10c.

Mesembryanthemums

1396 ce Plant Crystallinum. The foliage and stems are covered with crystal-like formations that glisten in the sun. Nice for hanging baskets, porch boxes and for rockeries, being trailing in growth Pkt. 5c; ½ oz. 20c.

Mimosa—Sensitive Plant

1410 Pudica A curious little plant 12 to 15 inches tall, bearing small pinkish white flowers. Foliage fern-like. The leaves when touched close up but if undisturbed for a short time again regain their natural form. Pkt. 10c: 14 oz. 25c.

Mimulus—Monkey Flower
1412 Queen's Prize Tigrinus Grandiflorus. Plants dwarf
and bushy about 10 inches tall and bear large flowers. Range
in color through white, yellow, golden, rose, crimson and maroon blotched and striped. Pkt. 10c; 16 oz. 25c.

The Best Marigolds

See Marigolds in Color on Pages 2 and 24

Marigolds are old favorites and just as popular now as they were years ago. They are easy to grow, and give many bouquets of cut flowers as well as nice garden displays. A vase or bowl of these rich yellows in combination with a few blue Larkspur or Cornflowers is very striking.

Dwarf French Legion of Honor, but the flowers are in a variety of shades of reddishbrown and golden-vellow. Some are like golden balls others are neckers with the

same size as Legion of Honor, but the nowers are in a variety of snades of reddish-brown and golden-yellow. Some are like golden balls, others are mahogany with the daintiest fringe of yellow. Pkt. 10c: ¼ oz. 25c. 1366 DWARF DOUBLE AFRICAN MIXED. Much more dwarf and compact than the tall sorts. Therefore, not as liable to fall over. The flowers are large, ball shaped and in shades of lemon, yellow and orange. Pkt. 10c; ¼ oz. 25c.

Border of Gold Tagetes

1380 Border of Gold A Distinct Type of Marigold Applications Committee. Pkt. 10c; 18 oz. 25c.

1380 Border of Gold A Distinct Type of Marigold Applications Compact growth, the increased size and doubleness of the flowers and tits splendid assortment of colors. Plants uniformly about 1 ft. high. Received the award of merit from the All American Selections Committee. Pkt. 10c; 18 oz. 25c.

Tagetes Signata Pumila A Distinct Type of Marigold and making a compact plant. The foliage is fern-like and dainty. Planted in arowall during the summer and fall you will have a golden stripe of bloom. This plant always attracts a great deal of attention from visitors to our Trial Grounds, as the brightest golden yellow stands out so that it actually compels attention and admiration. Pkt. 10c; 18 oz. 25c.

See Page 2 for Color and Page 8 for Description

Tall Varieties

24 to 30 Inches Tail

1355 TALL DOUBLE AFRICAN AND
FRENCH MIXED. The African type has large
flowers of a uniform color, yellow or orange and
the double are more or less globe shaped. The
French Marigolds are combinations of mahogany,
brown, yellow and gold. They are single and semidouble. Mixed. Pkt. 5c; ¼ oz. 20c.

1375 Royal Scot Marigold yet introduced. See Novelty Page and Color Page 2
for description. Pkt. 15c; ½ oz. 35e.

1362 Orange Prince African variety.
Bears large, perfectly double flowers of a rich
deep golden-orange, a single plant often having 50
or more splendid flowers. Pkt. 10c; ½ oz. 25c.

1364 Orange Alldouble A ne w

1364 Orange Alldouble And improved strain of African Marigold in which the flowers are practically 100% double. The plant growth and habit is identical with Orange Prince, but the form and doubleness of the flower in this new strain has just about reached perfection. Pkt. 10c; ½ oz. 35c.

1365 Lemon Alldouble Similar in growth and Tail African, Orange Prince characteristics to Orange Alldouble except in color, which is bright lemon yellow.

Adolishtful shade of growny princess with a trace.

1360 Primrose Queen A delightful shade of creamy primrose, with a tone of gold. Large double quilled flowers, Pkt. 10c; 1/8 oz.

1378 Guinea Gold This rich beauty has received so much favorable publicity that it bardly needs further description. We show the flower in color on page 24. Guinea Gold is certainly well worth your growing, for the immense amount of cut flowers it will give you. Pkt. 10e; 1/8 oz. 25e; 1/4 oz. 15e.

Mignonette

Mignonette

Reseda Odorata. This annual is an old time favorite and with the introduction of new types is one of the most universally grown flowers for fragrant bouquets, bedding plants and pot culture.

1401 LARGE FLOWERING. A highly improved strain of the common variety, producing an abundance of very fragrant flower heads, Pkt. 5c; ½ oz. 25c.

1402 GOLDEN GOLIATH. Immense spikes of golden yellow. Of strong yet compact growth, the giant trusses of flowers borne on erect strong stalks, excel all others. Pkt. 10c; ½ oz. 25c.

1403 NEW YORK MARKET. A select strain desirable for florists. [Under favorable conditions plants will grow to 2 or 2½ feet tall, producing long compact flower spikes. Flowers red. Pkt. 15c; ½ oz. 60c.

1405 BISMARCK. Improved Machet. A large flowered variety of reddish shade with dense spikes. Distinct crinkly foliage, Heavy delicious fragrance. Excellent for potting. Pkt. 10c; ¼ oz. 25c.

1456 Nemesia Tempiin-Bradiey Hybrids. A splendid little plant of compact growth about 1 foot high. Nemesia may also be used as winter flowering plants by starting the seed in pots in the fall. This is the best strain of Nemesia with large flowers and many rich and rare colors, from creamy white through orange to carmine. Pkt. 10c; \(\frac{1}{16} \) oz. 30c.

1463 Nemophila "Baby Blue Eyes." Insignis. A cute little Annual growing about 8 inches high and producing an abundance of bright blue, cup-shaped flowers in clusters. Very dainty for cut-flowers. Pkt. 10c; ¼ oz. 15e.

1490 Nigella or Love-in-a-Mist

Also called Devii-in-a-Bush. Compact, free flow-ering, with pretty light blue flowers, nestled in feathery foliage, resembling a mist. The seed pods are curiously shaped and attractive. Plants grow 15 to 18 inches high. Very easy to grow. Pkt. 10e; ¼ oz. 20c.

1498 **Nycterinia** Capensis. The charming white flowers open at night and arc very fragrant. The plants are 9 to 12 inches high and are nice for edgings, rockwork or for potting. Pkt. 10c; ½ oz. 25c.

1508 Oenothera, Afterglow

Evening Primrose. Evening Primroses abould be in evering Frimose. Evening Primoses should be in every garden because of their enchanting habit of opening their flowers in the evening and allowing you to enjoy their delicious fragrance. Afterglow is a pretty new variety with large flowers of buttercup yellow each with bright red calyx. 18 to 24 inches high Pkt. 10e; ½ oz. 25c.

Ocnothera Afterglow

Nicotiana

Flowering Tobacco. A lovely class of fragrant annuals that bloom freely throughout the summer and fall. Plants are bushy, 2 to 3 ft. high and branching. They open towards evening emitting a

branching. They open towards evening emitting a very pleasant odor.

1483 AFFINIS WHITE or tuberose flowered tobacco. A very continuous and profuse bloomer, with waxy white flowers. Plants of branching, bushy habit, starting to bloom a few weeks after sowing. 2½ to 3 ft. Pkt. 10c; ¼ 0z. 25c.

1484 AFFINIS HYBRIDS. Like above in growth, a splendid mixture of rose, red, white, and blue. Pkt. 10c; ¼ 0z. 25c.

1482 CRIMSON KING. A compact growing variety with rich crimson flowers. Pkt. 10c; ¼ 0z. 25c.

Nicotiana

Annual Phlox

This spiendid genus of plants is unrivaled for riciness of color, profusion of bloom, duration of bloom and general compactness, and whether in clumps or masses looks equally beautiful. It is one of the finest annuals in cultivation, and should occupy a prominent place in every garden.

Drummondi Grandiflora Phlox

12 to 15 Inches Tall

1625 ALBA. Pure Wbite. 1627 ATROPURPUREA. Very rich deep maroon.

1628 SPLENDENS. Rich red with white eye.

1629 CHAMOIS ROSE. Beautiful pink with deeper rose eye.

1630 CINNABAR SCARLET. Very bright orange scarlet.

1631 ISABELLINA. Chamois shade of yellow 1637 ATROVIOLACEA. Deep purple. 1632 LILAC. Lavender, white eye.

Price any color, Pkt. 10c; 1/8 oz. 25c.

1626 GRANDIFLORA MIXED. All colors mixed, Pkt. 10c; 1/8 oz. 20c.

1633 STARRED AND FRINGED. This beautiful type is quite distinct. The flowers are either star-shaped or fantastically fringed, really two distinct types. Many bright colors. Pkt. 10c; 1/8 oz. 25c.

1634 BRILLIANT DWARF MIXTURE. The dwarf Phlox grows only 4 to 6 inches tall. Our mixture contains a grand display of brilliant as well as soft rose and cream tones. Pkt. 10c; ½8 oz. 35c.

1635 DWARF FIREBALL. Bright scarlet, brilliant as a border. Pkt. 10c; 1/8 oz. 35c.

1636 DWARF SNOWBALL. Pure white plant with Fireball. Pkt. 10c; 1/8 oz. 30c.

Grandiflora Phlox

1624 Phacelia, CALIFORNIA BLUE BELL. Campanularia or Harebell Phacelia. Grows neat little bushes, 9 to 12 inches tall, and bearing all summer pretty gentian bell-shaped blue flowers with white stamens. Very easy to grow, nice for blue borders and rockeries. Pkt. 10c; 1/4 oz. 25c.

Poinciana, BIRD OF PARA-DISE. Gilliesi. Stately tall growing plant reaching up 8 to 10 ft. The flowers are large, bright and yellow and borne in trusses. They are made even more beautiful by the rich crimson stamens and pistils which are long and incurving. Pkt. 10c; 1/8 oz. 30c.

Nasturtiums

Flowers In Color on Front Cover and page 23. For summer display in large or small beds, nothing can surpass Nasturtlums. They start to bloom early and keep up a continuous display of bright colored flowers until hard frost in fall. You can grow them in practically any garden soll. Plant the seed after soll is warm, covering an inch deep and dropping a couple of seeds every 3 inches. They should not be transplanted. Cut the Nasturtiums freely and they will bloom better. Do not pull them from the vines but snip them off.

Dwarf Nasturtiums

Nasturtlum Golden Gleam

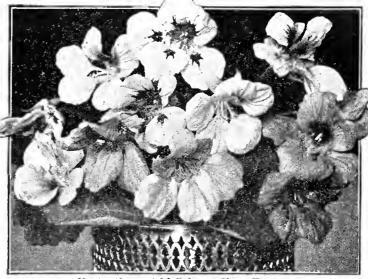

Double Nasturtiums

See Front Cover and Page 8.

1438 Golden Gleam Immense golden yellow double, sweet scented flowers. A real outstanding novelty of great beauty. Pkt. 10c; ½ oz. 25c.

1439 Scarlet Gleam Dazzling scarlet, delightfully sweet scented, double and extra large. Like a fiery carpet. Pkt. 25c; 1/8 oz. 40e.

1440 Gleam Hybrids The result of years of scientific breeding and selection. The most remarkable achievement in plant breeding. Magnificent color range, see front cover. Pkt. 20c; 18 oz. 30c.

Tall Nasturtiums

1441 BEST TALL OR CLIMBING. For trailing over porch lattice or arbors, or for covering old fences or unsightly places, also for vases, we consider the tall varieties most desirable. There is also a greater variety in colors, including the brilliant Lobbianum type. Pkt. 10c; oz. 20c; ½ lb. 60c; lb. \$1.00.

1412 TALL IVY AND VARIEGATED. Combining two desirable new climbing types, the Ivy with bright green foliage, veined light, and the Variegated with green leaves mottled with creamy-white. Flowers brilliant mixed colors. Pkt. 10c; oz. 20c.

1443 TRAILING TOM POUNCE. The best Nasturtium for porch boxes because of its trailing habit (vines 2 feet long.) At times you hardly see the foliage because of the wealth of flowers. Flowers are a little smaller than the ordinary Nasturtium, very bright yellow and scarlets. Pkt. 10c; oz. 20c.

Shirley Poppies

Annual Poppies

Poppies will grow most anywhere and you should scatter seed wherever there is any space in your garden, they are so bright. Make several plantings to have fresh flowers throughout the summer. They will not stand transplanting.

Shirley Poppies
The Shirley Poppies are all very attractive because of their good sized, beautiful silken flowers

1651 SWEET BRIAR. Double Shirley. The color is a deep rose-pink, like a wild rose, and formed like a large double begonia. It is much larger than the standard Double Shirley varieties. Pkt. 10c; 18 oz. 25e.

1652 THE DAZZLER. Double Shirley. A new Double Shirley Poppy of fine size and form. The color is a rich orange-scarlet, very attractive and unusual. Pkt. 10e; 14 oz. 35c.

Shirley Poppies 24.02. Soc.

1654 SINGLE SHIRLEY MIXED. Silk or Ghost. The effect of this mixture of these new Poppies, is what you would expect to see in a Chinese garden, where vivid, glistening, still artistic harmonizing colors hold sway. Pkt. 10c; 14 oz. 20c; oz. 60e.

1655 DOUBLE SHIRLEY MIXED. Eldorado. Same mixture of brilliant shades as the single mixed but the doubles last longer. There will be some singles and some semi-doubles. Pkt. 10c; 14 oz. 25e.

Pansies

In color on page 24 Descriptions on page 25 Other Annual Poppies

Other Annual Poppies
1649 PEONY FLOWERED. Double.
The flower heads are very double and often measure 3½ to 4½ inches across. The petals are shaggy and Peony-like. All colors Mixed. Pkt. 10c; ¼ 0z. 20c.
1650 TALL SALMON SHADES, IR-RESISTIBLE. Double. A new strain of Annual Poppies. The flowers are larger than the Peony and Carnation flowered Poppies. The salmon shades are particularly pleasing and worthy enough to draw the Award of Merit from the Royal Horticultural Society. Pkt. 10c; ¼ 0z. 25c.
1653 FLANDERS FIELD. Singlc. The beautiful native Poppy that covers the war fields of France and Belgium. A glorious scarlet Poppy. You must have some of them in your garden. Pkt. 10c; ¼ 0z. 25c.
1648 TEMPLIN-BRADLEY BRILLI-ANTMIXTURE. For a brilliant and gaudy effect, plantlarge quantities of this mixture, containing all the bright colors known to Poppies. Pkt. 5c; ¼ 0z. 15c; oz. 35c.
1074 GOLDEN BUTTERCUP POPPY, Hunnemannia, Eschscholtzia, Scc Page 18.

Rose Moss Portulaca Sun Plant

For brilliant coloring, nothing can excel a bed of Portulaca, with its silky flowers glistening in the sunlight. No bedding plant equals the Portulaca for places exposed to the hot sun.

1641 Double Comprising many brilliant colors. Seventy-five per cent should produce perfectly double flowers resembling small, fully open roses. Pkt. 10c; ¹/₈ oz. 10c; ¹/₄ oz. 65c.

1640 Paris Beauty Larger flowered than the old fashioned, and one of the brightest, showiest low border flowers in existence. Colored with the gayest purple. Pkt. 10c; 1/8 oz. 25c.

Single Flowering

The single-flowering Portulaca is unsurpassed for carpet bedding where a brilliant effect is desired. Our strain contains white, yellow, pink and scarlet.

1642 Single Mixed Portulaca. Pkt. 10c; 1/4 oz. 25c.

Beautiful Petunias

Petunia, Double Fringed

An effective planting of Dwarf Giant Petunia Rosie. For freedom of bloom, variety of color and effectiveness these have no equal. If only a little care is bestowed upon them, Petunias will produce their handsome sweet-seented flowers in their delicate and gorgeous colors all summer.

Petunia, Dwarf Compacta Pink Gem

Giant Flowering Double Fringed

The finest Double Petunias. Immense blooms, ball-shaped and 4 inches across. Selected strains, producing practically 100% true doubles.

Make showy bedding plants. Tall, spreading with

fairly long stems.

1566 Rose Pink and White Giant Fringed. This is a beauty. Imagine a great big ball of double Petunia of bright pink having each petal edged with a frill of pure white. The effect is charming. It comes quite true as to color and doubleness. Pkt. 50c.

1579 Super Double Fringed lieve this strain is as near 100% perfect as has yet been attained. It produces a very large number though not 100% of great big doubled and fringed flowers. There will also be a few semi-double and singles. On page 23 in color is a sample of the kind of blooms you may expect, and certainly that is beautiful. The seed is worth many times its weight in gold. A wonderful assortment of colors. Mixed Pkt. 60c.

 1576 Standard Double Fringed Mixed As lovely as Double Hollyhocks. Many colors; large, yet delicate and fluffy. Pkt. 40c.

1567 Victorious All Double Dwarf Giant Mixed Colors. A new strain, more dwarf and compact than the other double varieties. Every plant in our trials produced double flowers, the larger percent being of the Giant Ruffled type and in most beautiful assortment of colors. Pkt. 50c.

Large Flowering Single Fringed

These have large flowers, though not as large as the Giant Ruffled. The flowers are very prettily fringed and ruffled and are freely borne. The group includes all colors, both light and dark. As a general rule the varieties come very true to color.

1581 Heliotrope Blue Heliotrope or steel-of purplish black, Pkt. 20c.

1582 Theodosia Rose the brightest rose-pink, ced by the yellow throat, veined brown. Pkt. 20c.

1588 Violacea An immense flower of deep, waved velvety petals. Very desirable. Pkt. 20c.

1593 Martha Washington Pkt. 25c.

All American 1934, See Page 8.

1585 Templin - Bradley's Large Fringed Mixed Avery fine color mixture of the above varieties, from bright lively pinks to deep purples. Pkt. 20c; 3 pkts. for 50c.

Dwarf Single Fringed

Distinct from the other fringed and ruffled Petunias, especially in the habit of growth. This type grows bushy, compact plants only about 12 to 15 inches tall, and they are prolific of medium sized prettily fringed flowers. The dwarf compact growth makes them obviously better adapted for beds or borders, or as not plants.

1591 Setting Sun Bright rose pink, Pkt. 40c.

¹⁵⁹⁹ Nana Erecta Tyrian Rose

1934 Novelty. Color is bright Tyrian Rose, the flowers measure 2 to $2\frac{1}{2}$ inches across, free-flowering, giving a continual array of the most brilliant rose. Pkt. 15c; $\frac{1}{27}$ oz. 10c.

1594 Dwarf Single Fringed Mixed Colors Pkt. 25c.

Small Flowering or Lilliput Double Fringed

As the name implies, the flowers are comparatively small, normally 2 to $2\frac{1}{2}$ inches across, but they run a large percent double. The plants are quite dwarf and compact which makes them very desirable for bedding and for patting and for potting.

1577 Double Rosy Morn "Rosa Bon-flowers are like rosy-pink Carnations. Fine for porch boxes. Pkt. 30c.

1578 Lilliput Double Mixed A mix-shades of pink, crimson, striped and blotched red and white. Pkt. 30c.

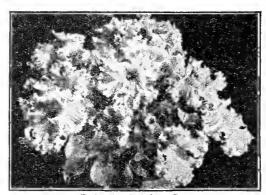

Balcony Petunias

The plants of this group are very free flowering. They are well adapted to bedding as well as for boxes or hanging baskets, but the long pendulous branches make them especially fine for porch or window plantings. Richly colored, with large plain petaled flowers.

1602 Balcony Rose 1604 Balcony Blue 1603 Balcony White 1605 Balcony Crimson Price of any above colors. Pkt. 10c; $\frac{1}{37}$ oz. 30c.

1607 Balcony Netted Blue Gem Steel blue with attractive netting of deep violet. The flow-ers are large and freely borne on long branches. Pkt. 15c.

1601 Balcony Mixed A well balanced of lovely

Petunia Setting Sun

Single Bedding Petunias

More generally planted than any other class of Petunias, because of their free flowering habit and their ability to do well under practically all conditions. In this group are found practically all colors known to Petunias. The normal height is 18 to 24 inches.

1595 Elk's Pride Barkest Petunia Pkt. 15c. 1611 General Dodds Velvety blood red. Pkt. 10c; 1/8 oz. 40c.

Howard's Star, Improved Maroon, white star. Pkt. 10c; 1/8 oz. 50c.

1609 Hybrida Mixed A mixture of pleasing shades. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

Templin-Bradley's Special Hybrid's Mixed A select mixture, an improvement over common Hybrida. Pkt. 15c; ½ oz. 35c.

Giant Flowering Single Ruffled

The largest flowered of all Petunias, the immense blooms often measuring 5 to 6 inches across. The petals are ruffled and in most varieties the throats of the flowers are beautifully netted or veined. The plant growth varies, the original types being tall and spreading, but as described below, recently dwarf compact strains have been developed.

These ruffled giants are rare and lovely and every garden should have one or more varieties. These varieties do not usually come 100% true to color, some colors being especially difficult to fix.

1572 Dwarf Giant Rosie A dwarf vamoth flowers of rosy lavender, beautifully netted. See large picture at top of page. Pkt. 30c.

1583 Giants of California Mixed Many fine shades of rose, pink, lavender, purple with veined throats of different colors. Pkt. 15c; Large pkt. 75c.

1586 Ramona, Mixed Similar to Giants of California except in growth. The dwarf strain making more bushy and compact growth. Pkt. 25c.

1570 Ruffled Monsters Mixed The flowers are very large and ruffled. Mostly colored in the desirable red and dark shades, neatly marked and veined. Half dwarf and erect in growth. Pkt. 25c.

Dwarf Bedding Compacta

These varieties have been selected for a more compact and dwarf plant growth than the Hybridas. While the different colors vary somewhat, the plants normally are very free flowering, bushy and about 9 to 12 inches tall. As low borders or ribbon beds, they are unexcelled. Suitable for the Rock Garden also.

1616 Bluebird Deep blue Pkt. 10c; 1/8 oz.

1621 Cockatoo Deep velvety purple. Pkt.

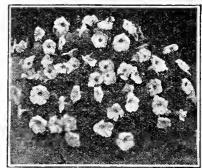

1617 Rosy Morn Best bright rose-pink. Pkt. 1617 Rosy Morn 10c; 18 oz. 50c.

1619 Rose of Heaven Lively rose-pink.

1620 Silver Blue Heavenly blue, silvery sheen. Pkt. 10c; 1/8 oz.

1618 Dwarf Inimitable Many mostly and striped. A fine mixture. Pkt. 10c; ½ oz. 35c.
1622 Pink Gem A little gem of a Petunia, deep pink flowers. 5 to 6 inches high with 25 to 30 blooms to each plant, flowers 2 inches across. The first real dwarf or miniature Petunia. Pkt. 15c; ½ oz. 60c.

1600 Nana Compacta Mixed the time we are able to give you a splendid mixture of many distinct colors in the true Dwarf or Nana Compacta class. S to 10 inches tall and one foot in diameter. A ball of growth. Pkt. 15c; ½ oz. 30c.

Rogglis Swiss Giant Pansies Are Unexcelled

1546 ALPGLOW. Rich garnet red, darker markings. 15-48 RHEINGOLD. Golden yellow, brown blotches.

Pansies Rogglis Swiss Giants

Pictured in Color on Opposite Page

Deep down in the heart of everyone is the desire to see Switzerland, the country of beautiful lakes, flowers and snow-capped mountains. Few have the opportunity to spend days in the heart of the Swiss Alps, but all of us can bring a bit of Switzerland into our houses and gardens if we but plant these lovely

Roggli's Swiss Pansies are the result of years of intensive plant breeding, developing this wonderful strain of Giant Pansies with the immense size, $3\frac{1}{2}$ to 4 inches in diameter, and seemingly, embodying all the rich golds, reds and blues that are to be found in the lakes and mountains of Switzerland.

The separate colors are descriptive of their homeland and the mixture contains a very fine range of colors, with a large percentage of rich dark shades.

1547 THUNERSEE. Deep blue. 1549 BERNA. Violet-blue, darker markings.

1545 ROGGLI'S SWISS GIANTS MIXED—Deluxe Strain. Prices on all Roggli Pansies. Pkt. 25c; 1/16 oz. \$1.00; 1/8 oz. \$1.75.

Giant Flowering Pansies Separate Colors

The largest of the American grown Pansies. We offer you eight varieties, in colors that will give you a fine selection if you too follow a color scheme in your garden planting.

1532 SNOW WHITE. Pure glistening white.

1533 GOLDEN QUEEN. Bright golden vellow.

1534 CARDINAL. Brilliant red, black blotches.

1537 PRINCE HENRY.
1538 PRINCE BISMARCK. Bronze shade, black eye.

shade, black eye.

1539 ADONIS. Light blue with white eye.

1529 A New Strain of Pansies
Templin-Bradley's Rainbow Mixture
This strain has a greater range of color than any other strain we have eyer offered. Furthermore, the other strain we have ever offered. Furthermore, the flowers are enormous in size, when properly grown you will find flowers 4 to 5 inches from top to bottom. The plants are compact but of vigorous growth, producing good length of stems. And the colors are marvelous. You will find those of bronze and reddish tinge, many with distinct rings, deep blues, purples and the light gold and yellow shades as well. Pkt. 25c.

1527 Miracle Pansies

American Strain of Mastodon Mixed. This pansy strain was developed by Steele's Pansy Gardens and is considered the best of the American strains. The plants are hardy, very early flowering, bear huge blooms on long stems and the colors are beyond description. Pkt. 25c.

1552 Winter-Blooming Giant Pansies

Sometimes called World's Record. A very early flowering hardy strain. They will bloom several weeks earlier than other pansies so are invaluable for spring bedding. The flowers are of good size and include a splendid assortment of colors. They are delicately fragrant, indicating the violet strain. Pkt. 10c.

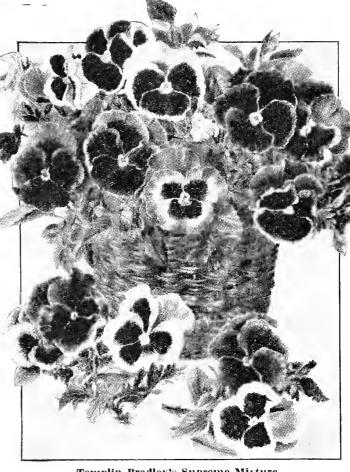

Templin-Bradley's 1526 Giant Exhibition Pansies

The Giant Exhibition is a wonderful mixture of Pansies. It is The Giant Exhibition is a wonderful mixture of Pansies. It is our own blend of which we sell a great quantity to the most critical pansy lovers and to those who grow for market. In order that you may have the pleasure of growing some of the very best pansies in existence at a nominal expense, we are searching each season—almost to the ends of the earth, among pansy specialists for the very best of their new strains. Included are the ruffled types, the striped and mottled, the blotched as well as solid colors are mixed together to make our Giant Exhibition. **Price**, pkt. 15c; 3 pkts. 40c.

1528 Popular Bedding Mixture

These are the popular saucy-faced beauties that everybody loves, comprising the finest varieties in all colors. Just what you want for a pretty bed. You will be delighted with this mixture. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

CULTURE—Pansies do best in a rich loamy soil, moist but not wet. Beds should be worked up loosely 8 inches deep and humus, or well-rotted manure worked in. Seed may be sown in the garden as early as the ground can be worked up fine or may be started inside in boxes for earlier plants. After sowing cover very lightly with fine soil or sand and keep moist, this is important for pansy seed if allowed to dry out during the first 15 or 20 days will invariably die. Pansies may be sown in the same manner in July or August and carried through winter by mulching with straw or leaves.

Templin-Bradley's Supreme Mixture A Basket Full of Beautiful Thoughts

Templin-Bradley's 1540 Supreme Mixture

"Pansies for Thoughts" is an age-old saying but in this case we have reversed the words and have given "Thoughts for Pansies." In this mixture we have thought out the best mixture of Pansies in all the finest types, colors, sizes, markings and substances available.

Let's make this a Pansy summer and fill our gardens, baskets and homes with the adorable little faces of these colorful Pansies. Their beauty will thrill you. 1540 Supreme Mixed Pansies. Pkt. 30c; Large Pkt. 75c.

Rudbeckia

1697 My Joy A delightful new and desirable variety of this popular annual. The attractive flowers are of rich orange yellow often over five inches in diameter and having a much smaller central cone. Plants are vigorous and stronggrowing, furnishing fine strong stems for cutting. Pkt. 10e; 16 oz. 50e.

1698 Kelvendon Star

A half-hardy annual and a rampant grower, 3 feet in height and should be planted 18 inches apart. Sow seeds indoors in February or March. Plant seedlings outdoors as soon as ground is warm. Will bloom from July until frost. Flowers of golden yellow with brown central disc, surrounded by shining mahogany. Pkt. 25c; 16 oz. 10c.

Salpiglossis Velvet Flower See Color, Page 51

Most attractive annuals, large petunia-like flower in richest color display. The flower coloring is rich indeed—purples, crimson, and each flower veined with a glint of gold. The plants grow 2 feet tall and bear long stems. There is no other flower that has the same purple and gold color combination. Visitors at our Trial Grounds always remark about the magnificent beauty of these flowers.

Salvia Splendens Scarlet

Schizanthus Butterfly Flower

One of the most charming flowers for the garden in One of the most charming nowers for the garden in summer and for the louse in winter. The plants are of compact branching growth 1½ to 2 ft. high, covered with a multitude of butterfly flowers of the most entrancing designs. For outdoor bloom sow seed in May. If you have a greenhouse you ean sow the seed in August. Give lots of light and you will have plenty of bloom after the holidays.

1738 CHOICE MIXED. A fine strain of this excellent annual flowers containing many beautiful contrasting colors. Pkt. 10c; ¼ oz. 25c.

1739 GIANT FLOWERING HYBRIDS. A new and improved strain of the Giant Flowering type. Excellent color assortment. This is exceptionally fine for greenhouse growing, but also superior to the common mixed when grown out of doors. Pkt. 15c; 16 oz. 60c.

Garden Sunflowers

1801 Red Like immense Gaillardias. Height 5 to 6 feet, flowers 4 to 7 inches across, in shades of brown, red, yellow. Pkt. 5c; ¼ oz. 20c.

1802 Double Chrysanthemum While many come single, a proportion of them will come fully double like big Chrysanthemums. Pkt. 10c; ¼ oz. 25c.

1803 Stella The best of the miniature type. A wealth of golden yellow, single flowers all summer. Fine for cut-flowers. See above picture. Pkt. 5c; ¼ oz. 20c.

1804 Sunflower Collection of the each above 3 varieties, 15c.

Tall Sunflowers

4077 Sunflower Mammoth Russian The large flowered tall growing variety. Oz. 5c; ¼ lb. 10c; lb. 25c; 3 lbs. 60c.

1984 Tithonia Mexican Sunflower. See Page 29.

Double Stocks

Salvia Farinacea Bluc

Stocks, Gilliflower

These popular old hardy annuals have been greatly improved during the past few years. The varieties we list below will give you a fine selection for bedding and

They come in a great variety of soft colors and are very attractive for cut-flowers both by the florist and the home gardener. They bloom in late summer, fall and

1765 Ten Weeks Mixed Colors. The favorites for outdoor bedding because of their dwarf, compact growth and large double flowers. Our strain shows only a few singles. Pkt. 10e.

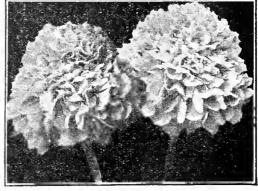

1767 Giant Imperial Improved Bisiety for greenhouse use, the plants growing large and branching, with long flower stocks, 2½ feet tall. Double. Mixed Colors. Pkt. 15c; \(\frac{1}{16}\) oz. 35c.

1791 Giant Excelsior or Column
In contrast to the branching types, these Excelsior
Stocks produce one large flowering spike 3 feet long on
each plant. Double. Mixed Colors. Pkt. 20c.

1353 Virginian Stocks Malcomia Chelr-Forget-me-nots. Dwarf plants 8 to 12 inches tall, bearing petaled rose or white flowers, somewhat resem-bling ordinary stocks. Useful for rock gardens, edgings, massing or naturalizing. Pkt. 10c; ¼ oz. 20c.

Ursinia

2036 Anethoides A native of Africa, a novelty in American of leaves, flowers borne above on long wiry stems. Daisy-like flowers 1½ inches aeross, of rich yellow, with purple center. (See cut above left.) Flowers remain open all day. Plants 1 foothigh. Pkt. 15c; ½ oz. 35c.

Everlastings. See page 17. Strawflowers

1761 Stevia Serrata

Form nice bushy plants about 2 ft. tall and bearing numerous fragrant pure white flowers. Grow outdoors in summer and indoors in winter, and have the flowers for cutting and mixing with bouquets of other blooms. Pkt. 10c; 38 oz. 30c.

Lovely Sweet Peas

Most Desirable Varieties Of Finest Quality

For distinctive beauty and exquisite fragrance the Sweet Pea has no rival. We sell more packets of Sweet Peas annually than any other flower. You can have Sweet Peas in your own garden just as fine as those of the florist. Pick the flowers frequently for abundant bloom. One ounce will plant a single row 25 feet long.

CULTURE OF SWEET PEAS. Prepare a deep trench, removing top soil and loosen subsoil, working into it some well rotted manure, replace top soil, leaving it 4 to 5 inches deep. Sow Sweet Pea seed in bottom of trench, 12 to 15 seeds to the foot for each row, then cover seed with 2 or 3 inches of soil and as vines grow, gradually fill up to the level.

Sweet Peas must be sown early in the spring to get the best results, just as early as you can possibly work your soil.

¹⁸⁰⁷ Templin-Bradley's Medal Mixture

If you have a limited amount of space for your Sweet Peas and yet wish to have the best named varieties in the most colorful and gorgeous display of Sweet Pea beauty and daintiness, plant this Templin-Bradley Medal Mixture.

We have combined thirty or more choice named varieties of the Butterfly or Orchid Flowering Spencer Sweet Peas into the finest mixture to give you the best known in the Sweet Pea world. This will give you an unlimited supply of beautiful flowers for dainty bouquets. Pkt. 15e; Oz. 35e; 4 lb. 75e; Lb. \$2.25.

Early Flowering **Spencer Sweet Peas**

A new race of Sweet Peas with the large waved flowers of the Speneers but coming into bloom 3 to 4 weeks earlier than the above varieties.

Excellent for greenhouse planting. Fine for garden planting when mixed with the later kinds, giving a long blooming second.

1930 ANNIE LAURIE. Rich tone of pure rose-

pink.
1901 AVIATOR. Bright glowing crimson.
1874 BALL'S BLUE. Bright mid-blue. Good color.
1921 BALL'S ORANGE. Best clear, deep orange.
1876 BLUE BIRD. Pure violet-blue.
1906 COLUMBIA. Salmon-rose standards, white

1891 GLITTERS. Deep fiery orange. Gorgeous. 1862 HOPE. The best standard black-seeded

white, 1936 MAJESTIC ROSE. Immense deep brilliant

rose.
1910 MRS. CALVIN COOLIDGE. Salmon-pink.
1915 SATIN ROSE. Lovely soft satiny rose.
Prices on above. Pkt. 10c; ½ oz. 35c.
1887 Lavanda frince clear, pure lavender. Exwith long stems. Produces more than the usual blooms per plant. Pkt. 15e; ¼ oz. 35c; ½ oz. 60e.

1861 EARLY FLOWERING MIXED. A splendid mixture of the above named varieties and many others, giving you a great variety of colors and tones. If you wish a fine lot of Sweet Peas with little space and a limited expenditure, plant this mixture with our Butterfly Speneers Mixed, Pkt. 10c; ½ oz. 30c; oz. 50e.

1960 Grandiflora Mixture A fine well ture of the plain petalled type of Sweet Peas. Large and free flowering. An excellent assortment of colors that will give you beautiful flowers and a continuous supply of cut-flowers all summer. Pkt. 5c; Oz. 15c; 1/4 lb. 40c; lb. \$1.25.

1967 Dwarf Cupid Spencers Mixed

An entirely distinct type, growing only 6 to 8 inches high, forming a dense mass of green and a profusion of flowers in many colors. The flower is similar in form to the regular Spencers and the colors are equally beautiful and varied. Fine for bordering walks or beds and are often planted in front of the standard Sweet Peas to add mass effect. Pkt. 10c; ½ oz. 25c; Oz. 10c.

Inoculate Sweet Peas With Nitragin

Nitragin is an old reliable Inoculator. It is well known and used by Agricultural Colleges. Packed in a rich soil-like granular medium easy to mix with always fresh. Use on Sweet Peas, Beans and Garden Peas. Directions on package.

1310 GARDEN PACKAGE. (For several lbs. of seed) 25c.

1341 20 POUND SIZE. (For 20 lb. of seed) **50c.**

Giant Dahlia Zinnias

See Flowers in Color on Page 31.

The Dahlia Flowered Zinnias are immense in size, often 4 to 5 inches and more in diameter. They are borne on tall strong plants with long stems, the flowers resembling Decorative Dahlias.

The separate colors of this type are not quite 100% true, there being a little variation in shade. We believe our strains are the finest on the market.

2212 Luminosa. Shades of bright deep pink with a light suffusion of salmon.

2213 Golden State. Very rich orange yellow. Yellow in the young flowers turning to orange.

2213 Golden State. Very rich orange yellow. Yellow in the young flowers turning to orange.
2202 Canary Bird. A delicate shade of primrose.
2203 Crimson Monarch. The best rich red.
2204 Exquisite. The favorite Rose Pink.
2205 Oriolc. Rich Orange and Gold Shades.
2206 Polar Bear. The best White flowered.
2207 Lavender Dream. Lavender, turning to purple.
2208 Old Rose. A real old rose shade.
2210 Gulden Dawn. A beautiful shade of yellow.
2211 Golden Dawn. A beautiful shade of yellow.
2214 Scarlet Flame. Bright scarlet-orange.
2216 Illumination. Deep, rich rose.
Price any above Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 50c.
2219 Color Plate Collection. Page 3 f.
Six 10c Pkts. for 50c.

²²⁰¹ Gold Medal

Dahlia Flowered Zinnias Mixed

A very fine color assortment of the above varieties in well balanced color proportion, a mixture that will give you a beautiful array of these beautiful bright colored flowers, Pkt. 10c; ½ oz. 30c; ½ oz. 50c.

Giant Zinnias Old Garden Favorites and yet New Kinds Every Year

Zinnias, the historical flowers of Old Mexico, have seen favorites in every garden for as long as there have

been favorites in every garden for as long as there have been home gardens.

In our grandmother's day, Zinnias were gay and colorful but only the common type, small flowers and a few primary colors were to be had. Today, we have Zinnias of huge size, of medium size and the tiny little baby types. Through years of scientific work and intense study, our growers have developed Zinnias that are almost beyond belief in size and beauty of color. We have classified on these two pages, the many types of Zinnias so that you may order the height and color particularly suited to the spot you wish to plant with these colorful flowers.

Zinnias Bloom from July Until Frost

Mammoth Giant or California Giant Zinnias

A newly developed type which carries the same robust habit as the Dahlia Flowered Type. When the flowers are half grown they make a very fine cut flower and when in full bloom they reach enormous size with a flatness that gives them a most graceful appearance. 2242 MISS WILMOTT. A pleasing shade of pink. 2243 ORANGE KING. Cadmium or burnt orange. 2244 SCARLET GEM. A rich glowing scarlet. 2245 CERISE QUEEN. Cerise rose. 2248 VIOLET QUEEN. Rich violet purple. 2219 GRENADIER. Bright dark red 2219 GRENADIER. Bright dark red. 2219 GRENADIER. Bright dark red.
2250 DAFFODIL. Canary yellow.
2251 BRIGHTNESS. Bright deep rose pink.
2252 PURITY WHITE. Best white zinnia.
2253 SALMON QUEEN. Salmon rose.
Price any above. Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.
2241 MIXED COLORS. A fine color assortment containing all the above varieties and other shades.
Pkt. 10c; ½ oz. 25c; ¼ oz. 40c.

A new and very distinct type of Zinnia growing about

2282 Victory Quilled This type has petals quilled like the Cactus Dahlia. The flowers are large on tall plants. Mixed Pkt. 10c; 1/8 oz. 30e.

2283 Picotee The petals are tipped with a contrasting color giving the flower a very pretty and unusual effect. Mixed. Pkt. 10e; \\\ \frac{1}{8}\)

2292 Crown O'Gold Mixture

A new development in the Giant Dahlia Flowered Zinnias in which each petal of the flower is overlaid with a deep golden yellow at the base while carrying out the individual flower color at the tip. The colors include old rose, cream, yellow, carmine red, pink, etc.

Mixed Colors: Pkt. 15c; ½ oz. 40e.

²²²¹ Giant Double Zinnias Mixed

This type though not quite as large flowering as the Dahlia Zinnias still are "Giants" borne on plants 2½ to Danna Zinnias Sull are "Giants" borne on plants 2½ to 3 ft. tall. The flower is deeper than the Dahlia Flowered with petals more formally placed. They are great favorites for cutting or garden display. Mixed Colors. Pkt. 5c; ¼ oz. 20e.

Various Large Flowered

²²⁹¹ Scabiosa Flowered Zinnia

30 inches tall and producing an abundance of flowers in many colors. The outer petals are long and flat while all the inner petals are short tubular florets forming a crest or crown somewhat resembling the Scabiosa. Pkt. 15c.

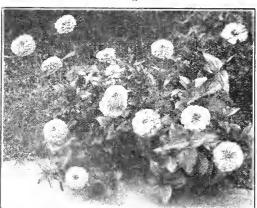

Bouquets

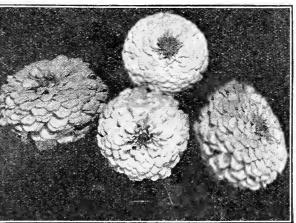

2290 Pumila Picotee Salmon Rose.

Most popular separate color of the Delight class. Rich salmmon-Rose. Pkt. 15c; 18 oz. 35c.

Pumila Picotee Delight

A Plant of California Giant Zinnias

Giant Double Zinnias Mixed

Fantasy Mixed Zinnias-Color Page 2

Some Real Beauties

2294 Fantasy Mixed See Color page 2. The most fascinating new type of Zinnias introduced to the flower world in many years. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal Zinnias to which we are accustomed. The cuts show the type of flower. The ranges includes the brightest shades of red, yellow and orange as well as the popular pastel pinks and cream. This should be the sensation of the year. Mixed colors. Pkt. 25c; 1/8 oz. 15c.

2293 Desert Gold For the lover of gold contains all the rich yellow and golden shades of the Crown O'Gold Mixture that we have been listing in the past. Our grower has segregated all the golden flowers and we are able to give you Zinnias that will thrill you with their beauty by daylight and under artificial lighting. For flower description, see Novelty page 9. Pkt. 15c; 1/8 oz. 10c.

²²⁸⁸ Templin-Bradley's "Little Jewels"

These Little Jewel Zinnias are reproduced in natural color on the inside front cover. Did you ever see such a gay and gorgeous display of color? Truly the real flower is just as much brighter as nature is brighter than printer's ink.

These small flowered Zinnias have a charm all their cover. They land themselves to bedding where a brill-

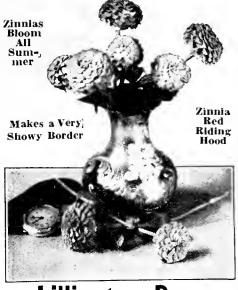

These small flowered Zinnias have a charm all their own. They lend themselves to bedding where a brilliant array of colors is needed. The stems are long enough to make the most wonderful bouquets, whether you wish just a tiny vase of flowers or a huge bowl of them. The mixture contains many combinations of colors in red, mahogany, rose, yellow, salmon and gold. Height 18 inches. Mixed colors. Pkt. 15e.; 1/8 oz. 40e.

ZINNIAS—Easy To Grow

CULTURE—Zinnias can be planted in the garden where they are to grow but for early bloom they should be started inside in boxes earlier than they could be put outdoors. One or two transplantings is beneficial to them for it induces more plantings is beneficial to them for it induces more root growth and produces a stronger plant. Zinnias will do well in nearly any soil but too rich a soil will cause more plant growth and fewer blooms. If you wish especially large blooms from your Dahlia flowered Zinnias or others snip off all but two or three of the side branches and buds and those left will attain a much larger size.

Dwarf Pumila Double

Lilliput or Pompon

This type has been so improved lately that gardeners everywhere are becoming more fond of it each year. The plants are quite dwarf and compact, but they bear very profusely. The flowers are small, about the diameter of a quarter, fully double and borne on good stems.

2272 Canary Gem
2273 Golden Gem
2274 Salmon Gem
2275 Scarlet Gem
2275 Flesh Plnk
2279 Rose Bud
Price, any of above colors. Pkt. 10c; ½ oz. 35c.

2280 COLLECTION. One packet each of above 8 colors for 60c.

2271 MIXED COLORS. Pkt. 10c; 1/4 oz. 30c.

Liliput and Baby Zinnias

2986 Red Riding Hood the entire season with little button-like double scarlet flowers, not over 1 inch across. Highly effective as a border plant. Brilliantly beautiful. Pkt. 10c; 1/8 oz. 30c.

2289 Early Wonder Mixed 12 to 15 inches tall. A new race of dwarf early flowering Zinnias, bearing many flowers on long stems. The stems start from the ground, have no laterals and very few leaves, making them fine for cut-flowers. The colors are shades of salmon, pink, cerise, orange, red and lavender. Plant these for your early Zinnias. Pkt. 15c; 1/16 oz. 30c.

2295 Tom Thumb or Baby Zinnias Only 4 to 6 inches tall. Cute little Zinnias that are suitable for Rock Garden, edging or for pot plant use. The plants are covered with perfect little double flowers of red, orange, yellow, pink, rose and other pastel shades. See cut at right. Pkt. 10c; 1/8 oz. 30c.

1717 Dwarf Creeping Zinnias Sanvitalia Procumbens. A low growing, trailing plant about 6 inches tall and producing a wealth of small double yellow flowers all summer. Very compact. Perfect for Rock Gardens, edgings and stone wall crevices. Pkt. 10c: 1/8 oz. 30c.

Tom Thumb or Baby Zinnias

Pumila Double Zinnias

This is the best type for bedding, growing compact plants $1\frac{1}{2}$ ft. tall with a multitude of good sized perfectly double flowers.

2262 Fireball, Bright red.

2263 Golden Ball, Golden Yellow.

2264 Snowball, White.

2265 Salmon Rose. A beautiful shade.

2266 Canary Yellow, Light yellow.

2267 Pinkle. Light rose pink.

Price, any of above, Pkt. 10c; ¼ oz. 30c; oz.

2270 Collection. 1 Pkt. each, 6 Colors, 50c. 2261/Mixed Colors. Pkt. 10c; ¼ oz. 25c. Oz. 75c;. See Color Plate on Page 23.

1995 Torenia Fourneri

Grandiflora. Bushy plants about 12 inches high, bearing curious but very pretty flowers during late Summer and Fall. Fine for beds or for potting and porch boxes. This variety has blue flowers with bright yellow in the throat. Pkt. 15c.

1984 Tithonia Speciosa
Golden Flower of the Iucas or Mexican Sunflower.
A tall shrubby plant, useful in the border or among shrubs, bearing large bright single Zinnia like flowers of dazzling orange scallet. Blooms over a long period.
Pkt. 10c; 1/8 oz. 30c.

2130 Xeranthemum Everlastings See Page 17

Verbena Beauty of Oxford

Dwarf Compact Verbenas

Hybrida Campacta Erecta

This new class of Verbenas is entirely distinct from the older forms. The plants are bushy and compact as the illustration of Fireball shows. They are wonderful for borders or bedding.

2064 Fireball The first of the dwarf Verbenas to be introduced. It runs practically 100% true, with plants 6 to 8 inches high, covered with bright scarlet flowers. Certainly well named as it is as bright as a ball of fire. Pkt. 10c; ½ oz. 30c.

2066 Cameo Pink to Fireball with flowers of clear flesh-pink. A very dainty color. Pkt. 10c.

2067 Crown Prince Flowers of deep garnet-crimson with small white eyes. Of compact habit, only 6 to 8 inches tall. Pkt. 10c; ½ oz. 35c.

Verbena ''Eyeful''

Description on Novelty Page 9.

Verbena "Violet Bouquet"

> All American 1935 Novelty Page 8.

Verbena Mammoth White

Verbenas Wonderful for Bouquets

Very free flowering annuals of low spreading growth, forming a carpet of bright colors when in bloom, from July to frost. For best results, seed should be started early inside and transplanted to the garden in early May.

2059 Beauty of Oxford Hybrids

A beautiful new hybrid, a cross between Verbena Luminosa and Beauty of Oxford. The individual florets are large and arranged in mammoth heads. The color shades from clear rose-pink to rose-red, with a touch of salmon-pink. Pkt. 15c. 16 oz. 10c.

Mammoth Flowering Giants This Is the largest flowering class of Verbenas.

2052 Luminosa $_{\mathrm{coral\ pink.}}^{\mathrm{Shades\ of\ flame,\ salmon\ and}}$

2053 Lucifer Intense deep cardinal-scarlet.

2054 Mammoth Blue Light to deep blue with white eye.
2055 Rosea Stellata Vivid rose-pink with white eye.
2056 Mammoth White Pure white and fragrant.
2057 Salmon Pink Lovely shade of salmon pink.
2058 Etna Geranium red with creamy eye. One of the prettiest.
Price on above varieties. Pkt. 15c; 1/8 oz. 10c.

2060 Helen Willmott One of the finest of all Verbenas. While not quite as large flowering as the others of the Mammoth group, it comes very true to color in bright deep pink. The growth is more compact, less spreading, so it is beautiful as a border. Pkt. 15c.

²⁰⁵¹ Mammoth Giants Mixed Andrews cellent mixture of Giant Verbenas, of all colors listed above and other distinctive colors. Pkt. 10c; 18 oz. 30c. See Color Page 23.

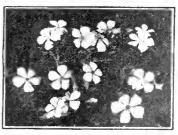

Erecta, Royal Bouquet A new strain of Verbenas of robust compact habit and free blooming. Plants rather upright, 15 to 18 inches tall. Flowers in mixed colors. Can be used for cutting as well as for bedding display. Pkt. 15c; ½ oz. 35c.

2061 Verbena Venosa A splendid bedplants quite erect, one foot high. It is a luxuriant grower and the plants are well covered with bright flowers of purple and heliotrope. Very effective used with Alyssum as a ground cover and back-ground for the Verbenas. Pkt. 10c: 38 oz. 30c.

2062 CITRIODORA. ALYOSIA Lemon Verbena. A favorite in old fashioned gardens. Has fragrant lemon scented foliage. A tender plant which may be grown in the outdoor summer garden and then potted for indoor garden in the winter. Pkt. 15c: 15 oz. 50c.

2063 ERINOIDES LILAC. Moss Verbena. Spreading bushy plants with pretty finely cut foliage, hearing flowers of purplish-rose or deep lilac. Pkt. 10c; 18 oz. 30c.

Vinca, Periwinkle

One of the finest border plants imaginable. Grows able. Grows
1½ feet tall,
compact and
with bushy with dark shiny foldark shiny foliage, making an effective background for flowers. White, pink and with crimson eye. Pkt. 10c; 1/4 oz.

²⁰⁷¹ Hybrida Grandiflora Mixed Colors

This Hybrida Grandiflora Mixture contains a riot of gay and lovely colors. It will make a brilliant hed and will provide cut-flowers for your housefrom July until frost. They are not quite as large as the Mammoth flowered but of good size and larger than the common Hybrids. Pkt. 10c; 1/8 oz. 30c.

Venidiums

2046 Fastuosum A gorgeous Daisy of brilliant orange from Africa. Plants 3 feet high, flowers 3 to 4 inches across. 90 days from seed. These orange flowers with purple-black center make a striking display. Pkt. 20c.

Various Verbenas

Our Annual Flower Chart Will Help You. See Page 6.

Canary Bird Fiower

Beautiful Climbing Vine Seeds

Annual Varieties Nothing adds more to the attractiveness of the home grounds than a well chosen selection of Climbing Vines. They grow rapidly and are indispensable for covering arbors, old fences and for hiding unsightly buildings.

2367 Balsam Apple, Momordica Growing quickly to a height of about 10 ft., this vine bears ornamental fruits of golden yellow, resembling an apple. When the fruit is ripe it ooens revealing a bright red interior. Pkt. 10c; ¼ oz.

2366 Balloon Vine, Love-in-a-Puff

A rapid growing climbing vine, having pretty, light green foliage, with inconspicuous flowers. The seedpods are like miniature balloons, Vines grow 8 to 10 ft. high. Pkt. 5c; ¼ oz. 15c.

2447 Black Eyed Susan Thunbergia. A delightful slender grow-to a trellis and is very attractive when grown in this way. Unusually good as a trail-ing vine for hanging baskets, vases, porch boxes, or rockeries. Large single flowers in white, yellow and orange with distinct black eye. Blooms from July to October. Pkt. 10c; 14 oz. 25c.

2372 Canary Bird Vine A pretty and rapid growing climbary yellow flowers remind you of a canary bird with wings half extended. Very useful on trellises or as a screen to cover old fences or other unsightly objects. Flowers appear in sprays early and continuously during the season. Pkt. 10c; oz. 25c.

2373 Cardinal Climber A very showy, distinct and valuable rapid climber with dark green, fern-like, deeply laciniated foliage and clusters of fiery cardinal-red flowers 1½ inches in diameter. The vines grow 10 to 20 feet and bloom all season long. Very ornamental. Pkt. 10c; ¼ oz. 25c.

2378 Cobea Scandens Cup and Saucer Vine. This tive and useful. Although not an annual it should be treated as such in the North. The vine grows to a height of 15 to 20 feet, flowers large and bell shaped, color ranging from pink to purple, blooms followed by plum-shaped fruits. Best started early indoors. Pkt. 10c; 1/4 oz. 30c.

2380 Cypress Vine fern-like foliage and pretty star-like flowers, scarlet and white mixed. Very desirable for covering small ornamental trellises. Also a good climber to grow in pots during winter. Grows 15 to 20 feet. Pkt. 10c; ¼ oz. 20c.

2442 Smilax One of the prettiest of all vines for baskets, porch boxes or conservatory where its graceful twining glossy green foliage is unsurpassed. Also much used for cutting as it lasts several days when used for bouquet trimming. Vine grows about 6 ft. Pkt. 10c; 1/4 oz. 25c.

2399 Hyacinth Bean, Dolichos Of extra rapid growth, making a dense and attrac-tive screen, flowering freely in racemes or upright spikes not unlike Hyacinths. Pkt. 5c; oz. 25c.

²³⁹⁵ Ipomea Heavenly Blue

A trellis, arbor, or doorway covered with this vine is one of the most beautiful sights imaginable. Bright sky blue flowers, almost as big as saucers, are freely borne on the rapidly climbing vines. The vine is late flowering and the seed should be started in pots indoors. Pkt. 10c; ¼ oz. 35c.

²⁴⁰⁵ Ipomea Double Rose Marie

A beautiful new addition to the annual climbing vines. This new Ipomea is vigorous and rapid growing, producing beautiful double flowers of a delightful shade of deep rose. Rose Marie is early and free flowering and promises to become extremely popular. Pkt. 10c; 16 0z. 30c.

2397 Japanese Hop Vine Humulus. A beautiful rapid climbing vine for verandas, arbors, or screens. Foliage mottled green and yellow. Once planted the seed will come up each spring. Pkt. 10c; ¼ oz. 25c.

2416 Maurandia Vine A beautiful slender growing Climber, which blooms first season from seed started early. In the South it is hardy but in the North, use as an annual or take up and transfer to the house, where it will be very pretty. A fine variety for window boxes or hanging baskets. The foliage is pretty and the flowers tube shaped in mixed colors, purple blue, white rose Pkt. 10c. ple, blue, white, rose. Pkt. 10c.

2418 Mina Lobata A very pretty climber or luxuriant growth. Foliage is rich green, leaves heart shaped, large and deeply lobed. Flowers are borne in sprays and are rich scarlet when in bud turning to an orange color as they mature. A rapid grower quickly covering a trellis. Pkt. 10c; 76 oz. 35c.

2419 Moonflower Large dense foliage and rapid grower, climbing 20 to 30 feet. Immense pure white flowers often 5 to 6 inches in diameter, open in the evening and on cloudy days. A very rapid covering can be obtained with the Moonflower. Pkt. 10c; ¼ oz. 20c.

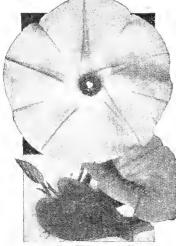

2392 Ornamental Gourds Very novel and interesting annual climber with ornamental foliage, and singular fruits of many shapes and colors that are always a delight to the children. When ripe shells can be hollowed out and dried, and are useful. Many varieties mixed. Pkt. 10c; oz. 20c.

Cardinal Climber

2368 Scarlet Runner Bean

This ornamental grows 8 to 10 ft. high, and bears sprays of bright red pea-like flowers, which are followed by pods of edible beans. Beans when ripe are dark red blotched with purple. Pkt. 5c; oz. 15c.

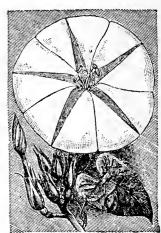

Ipomea, Heaveniy Biue

²³⁷⁶ Climbing Mixture money's worth in this package as it contains a general mixture of most of the varieties of Annual Vines that we list. Pkt. 10c; ¼ oz. 25c.

Four Excellent Morning Glories 2421 Common Tall Very easily grown and should be included in every garden. They climb rapidly, bloom freely all summer and will thrive in nearly any location. Make an excellent screen on a trellis or fence. A mixture of many colors. Pkt. 10c; oz. 20c. 2423 New Giant This is a recent introduction from Japan, with immense flowers in a splendid variety of bright colors. Flowers are twice the size of the common morning glories. Pkt. 10c; 1/4 oz. 20; oz. 50c.

2424 Rochester Blue A very pretty ing variety with beautiful flowers 4 to 5 inches across, deep violet blue in the throat blending to an azure blue and margined with a broad white band at the edges. One of the prettiest varieties. Pkt. 10c; ¼ oz. 20c.

²⁴²⁶ Morning Glory Collection 1 pkt. each of the above 4 varieties for 25c.

Hyacinth Bean

Moon Flower

These Hardy Vines Can Be Grown From Seed

2362 Allegheny Vine

2422 Imperial Japanese Without the

handsomest of all Morning Glories. They quickly cover a large area, and bloom profusely. Foliage very desirable and interesting on account of its varied forms and good color. Blooms immense and in many colors from white

to dark purple, solid colors, str spotted. Pkt. 10c; oz. 25c.

Mountain Fringe Adiumia. A very grace-Maiden Hair Fern. The plant is really a biennial but reseeds itself. It likes a shaded sheltered situation, and moistsoil. The flowers are numerous, in form like the Bleeding Heart and in colors—white and purple. About 15 ft. high. Pkt. 10c; 18 oz. 30c.

striped, flaked and

2364 Ampelopsis Veitchii Boston Ivy. The best vine to grow on stone or brick walls, because it adheres to the surface so closely. During the summer the leaves are rich green and form a dense mat overlapping themselves. After fall frosts the leaves change to bright tints of scarlets, orange and yellow. Pkt. 10c; 1/4 oz. 20c. 2413 Kenilworth lvy Cymbalaria. A trailing vine, free flowering and very nice for baskets, window boxes or rockeries. The flowers are borne throughout the summer and are of dainty lavender and purple. Vines 3 to 6 ft. Pkt. 10c; 1/8 oz. 40c.

²⁴¹⁰ Japanese Kudzu Vine Pucraria, "Jack-and-the-Bean-Stalk."
The fastest growing hardy climbing vine in existence. Often growing 8 to 10 ft. the first year from seed and later sometimes as much as 50 ft. in a single season. Perfectly hardy everywhere. The foliage is dense, making good shade. The flowers are in small racemes of rosy purple, borne in August. Pkt. 10c, 1/4 oz. 20c.

2498 Collection Hardy Vines 1 pkt. each 4 varieties 30c.

Ampeiopsis Veitchii

Hollyhocks

Hesperis

Hardy Pinks

Corcopsis (above) Campanula

The term Hardy Perennial is used to distinguish that class of plants whose life cycle is not completed within one or two years, but grow year after year, increasing in beauty and size and arc hardy enough to withstand the severe weather of the winters.

Great Hortleulturists and Plant Breeders in many parts of the world have spent their lives developing and improving many varieties of these lovely flowers. Not until our trial grounds have proven that we are giving you something that will benefit your garden, do we offer you a new variety or strain. The Perennial Seeds we offer to you on the following pages will please you and will make your garden a thing of beauty for many years.

Perennials from Seeds (See Roots on pages 67-71)

The simplest and most commonly used method of growing Perennial plants is by making a small seed bed right in the corner of your garden.

Early in May, select a rich light soil, raise the bed above the surrounding ground by slightly trenching

Achillea

around it, thus insuring drainage.

Work the soil fine, sow the seed in rows 2 inches apart, cover lightly. Shade the soil by covering the bed with paper or burlap, remove it when plants appear. Never let the bed become dry.

When plants have three leaves, transplant to three inches apart. Let them grow again until large enough to place in their future homes in the garden. Try a few Perennials each year and eventually have a lovely Perennal Garden. The letters R. G. after the name means the variety is especially fine for Rock Gardens.

fine for Rock Gardens.

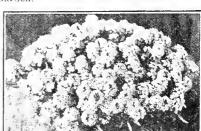

Achillea, Milfoil

2505 THE PEARL. Ptarmica Double. If sown early Achillea will bloom the first season. When established it gives you quantities of fully double pure white flowers like little snowballs, all season from spring until fall. Fine for cutting. 2 ft. Pkt. 10c; ½ oz. 30c.

2506 AGERATUM YELLOW. R. G. Yellow, sweet scented flowers and Ageratum-like leaves. 1½ to 2 ft. Pkt. 10c; ½ oz. 30c.

2507 MILLEFOLIUM ROSEA. Rosy red flowers in dense heads and finely cut, deep green foliage. Does well even in adverse conditions, blooming fully in June and to some extent for balance of Summer. 1½ to 2 ft. Pkt. 10c; ½ oz. 35c.

2508 TOMENTOSA YELLOW. R. G. A dwarf variety growing 6 to 8 inches tall, with mats of fern-like foliage and umbels of golden yellow. Bloom July to September. Pkt. 15c; ½ oz. 50e.

Alyssum Saxatlle

Aconitum, Monkshood

Carry tall spikes of booded flowers, valuable for cutting and garden display. Thrive best in rich moist soil in partial shade. The seed is

2510 NAPELLUS DARK BLUE. Flowers of rich deep blue produced July and August. 4 to 5 ft. Pkt. 10c; ½ oz. 30e.
2512 WILSONI. Producing its violet-blue flower in September. Strong grower and very bardy. 5 to 6 ft. Pkt. 15c; ½ oz. 45e.

²⁵¹⁶ Adonis Vernalis

These bright yellow flowers like large Buttercups are out in April and May. The plants grow 15 to 18 inches tall, and carry attractive fernlike foliage. After blooming the plants die down to the ground. Best to sow seed in summer or early fall. Pkt. $10c; \frac{1}{10}$ oz. 30c.

Agrostemma, Mullein Pink

2521 CORONARIA, ROSE OF HEAVEN, Atrosanguinea.

R. G. Has brilliant blood red flowers like small single pinks, open from June to August. Early sown seed will bloom the first year. A fine cutting flower, and a clump in the border is very showy. 2 ft. Pkt. 5e: ¼ oz. 20c.

Anchusa, Bugloss

2533 ITALICA GRANDIFLORA. Dropmore. Lovely deep blue flowers which are trumpet shaped and borne freely from May until mid July. You can plant in partial shade. 3 to 4 ft. Pkt. 5c; 1/4

Anemone, Windflower

2541 CORONARIA, ST. BRIGID. R. G. The Anemones are among the prettiest of perennials and the St. Brigid strain with large, double and semi-double flowers, with their wide color range are called the best of all. The flowers are 1 to 1½ inches across, Flowering in May and June. 1 ft. Pkt. 10e; ¼ oz. 30c.

Aubretia Deltoides

The Aubretias are beautiful low growing spring flowering plants, very valuable in rock gardens or as edgings and borders. Transplant in fall where they are to bloom the following spring.

2607 LILAC BLUE. R. G. Charming lilac-blue or layender blooms on dwarf compact plants. Blooms freely during April and May. 6 inches, Pkt. 15c.

2606 LARGE FLOWERED HYBRIDS. R. G. Plants 6 inches tall producing a wide range of colors, Pkt. 15c; 16 oz. 40c.

Agrostemnia

Aconltum Napellus

Hardy Alyssum

2528 SAXATILE COMPACTUM. Basket of Gold. R. G. Well named as the plants are masses of golden yellow flowers in May. Plant and flowers quite similar to annual Alyssum. A fine border plant. 9 to 12 in. tall. Pkt. 10c; ½ oz. 30c. 2529 ARGENTEUM. R. G. Pretty yellow flowers and silvery foliage. An excellent rock garden variety of dense growth and blooming all summer. June to August. 12 to 15 in. tall. Pkt. 10c; ½ oz. 50c.

ing all summer, June to August. 12.00.
25.30 SERPYLLIFOLIUM. R. G. A most desirable variety for the rock garden. Producing tiny plants only a few inches high with silver gray foliage and bright yellow flowers. One of the earliest blooming. Pkt. 15c; ½ oz. 10c.
25.31 ROCK GARDEN SPECIES MIXED. R. G. A mixture of the rarer dwarf varieties such as Montanum, Rostratum, Corymbosum, etc. Bloom from April to August. Pkt. 10c.

Anthemis, Golden Marguerite

2518 KELWAYI. Bright golden yellow, daísy-like flowers on long stems with finely cut foliage. Blooms June to September. 2 ft. Pkt. 10c; ¼ oz. 25c.
2519 MONTANA. White flowers, very fine blooming, nice for massing in the border. Blooms all summer, one foot high. Pkt. 15c.

Arabis, Rock Cress

2581 ALPINA. R. G. These flowers will greet you in April and May, a sheet of pure white fragrant flowers over low carpet-like plants. A fine flower for edging or for covering bare spaces as it will grow in any sunny place. 6 in. tall. Pkt. 10c; ¼ oz. 25c. 2582 ROSEA. R. G. A lovely variety of Arabis only an inch or two taller than Alpina with flowers of vivid rose. Pkt. 20c.

2586 Arenaria, Sandwort

Montana. A very desirable trailing sort of nearly evergreen foliage forming a dense carpet of green foliage covered with large white flowers in Spring. A fine subject for the rock garden. Pkt. 15c.

Armeria, Sea Thrift

2591 FORMOSA. Attractive dwarf plants that will succeed in most any soil, forming evergreen tufts of bright green foliage, Many rose-pink flowers appear in June and July. 21 in. tall. Pkt. 10c; 14 oz. 30c.

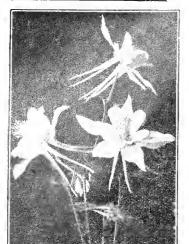

2592 MARITIMA SPLENDENS. R. G. A dwarfer variety growing 6 inches high and producing beautiful bright rose flowers in May and June. Pkt. 15c.

2593 LAUCHEANA, DWARF THRIFT. R. G. Best of the Armerias for Rock Gardens, Grows only 6 inches high with heads of Rosy crimson flowers in July and August. Pkt. 15c.

2591 MAURITANICA. A new strain of Armeria in clear pink. Flowers measure 2 to 3 inches across on stems 18 to 24 inches tall. Heaviest bloom in June and July, later blooms also, Pkt. 15c.

2601 Asperulg Sweet Was Lift Odorata. An herb, the leaves

2601 Asperula, Sweet Woodruff Odorata. An herb, the leaves used for making beverages, or when dried to lay among linens. Nice for carpeting shady places, growing 6 to 8 inches high! From May to July the plants bear heads of sweet scented snowy-white flowers, Pkt. 10c; 14 oz. 30c.

Aquilegias or Columbines

You are all famillar with these graceful beauties which bloom in spring and early summer. They are excellent for cutting or massing in clumps in the border. Will succeed in partial shade. $2\frac{1}{2}$ to 3 ft.

2556 Templin-Bradley's Long Spurred Hybrids
See Color Plate on Page 51. A selection of the finest long spurred Columbines including the famous strain known as Mrs. Scott Elliotts, which has received many awards wherever exhibited. Many rare and pleasing color shades and combinations. Pkt. 15c; ½ oz. 25c; ½ oz. 45c.
2565 DOBBIE'S IMPERIAL HYBRIDS. A very fine strain of English origin, sure to charm you with the excellence of the color assortment, of the long spurred beauties. Pkt. 20c; ½ oz. 60c.
2564 Crimson Star A new long-spurred variety having deep blood-crimson sepals and spurs and white petals, a very delightful and attractive color effect. Plants are erect and vigorous, 2½ feet tall and very free flowering. Pkt. 25c.

Dobbic's Imperial Hybrids

Dobbic's Inperial Hybrids

Dobbic's Imperial Hyb

Asclepias

2596 Butterfly Weed Tuberosa. A native plant bearing during July and August very showy umbels of bright orange flowers. Flowers are followed by long curious pods containing white feathery seeds. The opened seed pods may be dried for winter decorations. Easy to grow, but start where plants are to stand as plants have long tap roots and dislike moving. 2 to 2½ ft. Pkt. 15c; 16 oz. 40c.

Asphodeline, Jacob's Rod
2600 LUTEA. Stately plants 3 to 4 feet tall, with beautiful foliage, producing large spikes of golden yellow fragrant flowers in June and July. A very striking and attractive plant for the perennial border. Pkt. 10c; 16 oz. 30c.

Hardy Asters

Daisy

2602 Wartburg Star, Subcoeruleus. A spring flowering aster of bright lavender-blue with yellow centers. Plants 2 to 2½ feet high, flowers 3 to 3½ inches across. Blooms May and June. Pkt. 20c. 2605 SUBCOERULEUS BLUE, R. G. A distinct variety bearing daisy-like azure blue flowers with golden centers. Flowers often 2½ to 3 inches across on long slender stems well above the foliage. Blooms during June and July. 15 inches, Pkt. 10c; ½ 0z. 25c. 2603 LARGE FLOWERED MIXED. The hardy Asters are among the best of the late summer and fall flowering plants. They do much to lighten up the perennial and shrub borders, with their graceful masses of bright flowers. Excellent for cutting. Pkt. 10c; ½ 0z. 30c.

2604 ALPINUS MIXED. R. G. Excellent species for rock gardens, growing 12 to 15 inches high and bearing light airy flowers of rose, lavender, and blue shades. Contains many of the early May and June flowering varieties. Pkt. 15c; ½ 0z. 35c.

2613 Baptisia, Wild Indigo

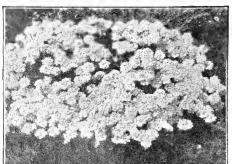

Australis. This is a good blue flower for June and July. The plants reach up 2 to 3 ft. high, carrying racemes of pretty pea-shaped indigo blue flowers. Pkt. 10c; 1/8 oz. 30c.

2626 Bocconia, Plume Poppy
Cordata Japonica. Great handsome plants 5 to 8 ft. tall with attractive foliage and large plumes of small pinkish-white flowers. A mass of color in July. Fine as a background. Pkt. 10c; ¼ oz. 20c.

Hardy Candytuft, Iberis

2701 Sempervirens

R. G. One of the prettiest of the hardy low border plants. In April and May the low compact plants are covered with white flowers, resembling the annual Candytuft. Excellent for rock garden, naturalizing, or as a border to taller plants. It does well in sun or shade and on practically all soils. The foliage is evergreen. 8 inches tall. Pkt. 10c; 1/8 oz. 35c.

Hardy Caudytuft

²⁷⁰² Gibraltarica white flowering variety, blooming in April and May. 10 to 12 inches high. Pkt. 10c; 1/8 oz. 25c.

²⁷³¹ Cerastium Snow in Summer

Tomentosum. The foliage is a pretty silvery white, the stems rather creeping, loaded with small single snow-white flowers in May and early June. Ideal for a ground cover. 4 to 6 in. tail. Pkt. 10c; 1/8 oz. 35c.

The double, ball-shaped flowers of white, pink, rose and red show their faces in spring—April to early June. Perhaps the most popular for low edgings in cool shady spots. For best results raise new plants from seed each year. Good rock garden subjects.

2617 MONSTROSA DOUBLE MIXED. Large flowered strain, All shades. Pkt. 10c; 1/8 oz. 40c.

The Boltonias grow 6 to 8 feet tall and are a showy perennial, excellent for a tall border or for a background planting. They bear great quantities of star or daisy-like flowers in August and September 1997.

2632 LATISQUAMA. Lavender-pink. Pkt. 10c; 15 oz. 25c.

Alpina. R. C. A splendid dwarf rock plant about 6 inches high with small blue flowers in June, and spreading tufts of foliage. Equally good for the front of the border. 6 in. tall. Pkt. 20c.

Callirhoe, Poppy-Mallow

2635 INVOLUCRATA. R. G. A trailing perennial with bright attractive foliage and bearing saucer-shaped rosy crimson flowers almost all summer and fall. Very useful in the rockery where it enjoys creeping about among the rocks. Pkt. 15c.

Hardy Centaureas
The hardy Centaureas are showy perennials with large thistle-like flowers on stems 2½ ft. tall. They are easy to grow and are not particular as to soil.

2715 MONTANA BLUE. Large flat flowers 2 inches in diameter, called Perennial Cornflower or Blue Bottle. June to September. 2 ft. Pkt. 10c; ¼ oz. 30c.

2719 MACROCEPHALA. Has very large, globular, bright yellow flowers often 3 or more inches in diameter. One of the most showy Centaureas, in bloom during July and August. 4 ft. Pkt. 10c; ¼ oz. 35c.

2720 DEALBATA Persian Centaurea. Bears striking rose pink flowers. July to September. Graceful silvery foliage. 1½-2 ft. Pkt. 10c; ½ oz.30c.

Chelone Turtienead Sheiiflower

2736 BARBATUS TORREYI. This variety has slender, tube-like, deep scarlet red flowers on graceful branching stems. Foliage rich dark green and very attractive. July and August. 2 feet. Pkt. 10c; ¹/₄ oz. 25c. 2737 HYBRIDA PRAECOX. An early flowering variety which produces large flowers in great profusion and in a great variety of rich color shades of pink, rose and red. The flowers are greatly desired for cutting because of their beauty and gracefulness. 3 to 3 ½ ft. Pkt. 10c; ¹/₄ oz. 30c. See also Penstemons (Chelone) Color page 51.

Cheiranthus

2764 STYLOSA. R. G. Trailing plant producing masses of elegant bright green foliage, making an unusually fine rock garden subject. Flowers are rosy-red and produced in clustered heads above the rich foliage. Blooms June to September. Pkt. 10c; 1/4 oz. 25c.

This Catalog Contains Hundreds of Good Varieties of Seeds, plenty at 5c per pkt.

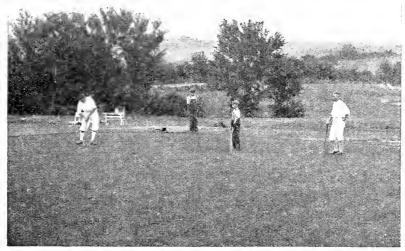

Lawn Seeds To Beautify Your Home Grounds

Your lawn is the foundation for all of your other plantings. The trees, shrubs and flowers that you have planted around your home cannot produce the perfect picture of beauty that you desire without the foreground of well-kept lawn. A good lawn is not difficult to produce.

Templin - Bradley's Fine Lawn Mixtures

Any one variety of grass alone will not make a completely satisfactory lawn, as make a completely satisfactory lawn, as each variety has its peculiar advantage. Thus when several varieties are blended in the proper proportions the advantages of all are combined in your lawn. We have spent years of experimental work in securing the proper varieties and proportions to use in each mixture for very best results. One pound of our lawn mlxtures will sow 200 to 250 sq. ft. of new lawn. For filling in au old lawu use one-half that amount.

Full directions for planting and the care of your lawn will be sent with every 5 lbs. or larger pack-age of seed or will be sent free on request.

Make Your Lawn as Beautiful as This Golf Green

Separate Grasses for Special Purposes

Will Solve Your House Plant Problems You Feed Your Pets--Don't Starve Your Plants Easy To Apply and the Results Will Please You

Potted plants and ferns soon use up the food in the soil given them when potting, and unless more food is supplied to them when this is exhausted, they merely stand still

or gradually decline.
With small applications of Watch-em-Grow at regular intervals, applied according to prescribed directions, these plants will continue luxuriant, healthy, new growth and producetheir beautifulbloom regularly as nature intended.

Watch-em-Grow is a clean odorless powder that quickly dissolves in water and is applied just as you water the plants. No trouble, no bother and no mess. When potting plants a teaspoonful of Watch-em-Grow mixed with a gallon of soil will supply sufficient food for the plants for six or eight months.

On rose bushes or other choice plants in the garden Watch-em-Grow is extremely beneficial.

The Proof in the Photograph The plant on the left was started with regular potting soil and some fertilizer. The plant on the right in addition was treated with a small amount of "Watch-cm-Grow." These two Cineraria plants were started at the same time under exactly the same conditions, with the single exception of the "Watch-em-Grow." Looks almost too good, doesn't it?

The Plant on Right Had Watch-em-Grow

Peat Moss

Improved Granulated

An organic material

An organic material that contributes humus content to the soil. It assures moisture to the soil, is capable of absorbing 12 times its weight in moisture. Double Coreopsis

Doronleum

Campanula Carpatica, Harebells

A dwarf Campanula forming compact clumps only 8 to 10 inches high. The flowers are dainty, cup-shaped, 1½ inches across and evident from June to October. 2682 Blue. 2683 White. Either color. Pkt. 10c; ¼ oz. 35c.

2681 Campanula Carpatica Mixed. Pkt. 10c; 1/4 oz. 35c.

Coreopsis Lanceolata Tickseed

Large golden yellow fringed flowers on long wiry stems fine for cutting, and blooming practically all summer. One of the showiest and best of all perennials, and you should plant several masses of them in your border. They grow about 2 ft. high.

2754 GRANDIFLORA SINGLE. Large single yellow flowers fine for cutting and a fine addition to the garden. Pkt. 10c; ¼ oz. 15c.

2755 GRANDIFLORA DOUBLE. Improved. Similar to Grandiflora single, except that each flower has double row of petals. Pkt. 15c; ¼ oz. 35c.

2756 Mayfield Giant A splendid new strain growing 3 to 3½ ft. tall and bearing masses of extra large golden yellow flowers on long firm stems. Superior to original semi-double. See Color Plate on Page 51. Pkt. 10c; ¼ oz. 30c.

Corydalis BLEEDING HEARTS

2761 CHEILANTHIFOLIA. A dainty little plant related to the Bleeding Heart, with yellow flowers in terminal racemes and with fernlike foliage. Plants 10 to 12 inches high, growing easily in rich, well drained soil. Does well in shade, Blooms April to June. Pkt.

Dicentra BLEEDING HEART

See Color Plate on Page 83

OLD FAVORITES, with their long graceful racemes of beautiful heart shaped rose and white flowers. Excellent for the perennial border and do well in the shade.

2S12 SPECTABILIS. These beautiful flowers are at their best in May and June. Hardy and easy to grow. Bloom from April through June. 2½ to 3 feet tall. Pkt. 20c.

2S13 EXIMEA—Plumy Bleeding Heart. The flowers are rosy-pink and bloom from June to September. Very lovely foliage, much dwarfer than Spectabilis, growing only 10 to 15 inches tall. Pkt. 20c.

²⁸¹⁰ Dictamnus, Gas Plant

FRAXINELLA. Forming bushy plants bearing long showy spikes of flowers which are suitable for cutting. The foliage is fragrant. The seeds are slow to germinate, but once established the plant is practically permanent. The pink and white flowers are borne in June and July. In still hot weather the leaves give off a lemon scented gas which will ignite in a puff of flame from a match. 3 ft. Pkt. 10c; 1/8 oz. 35c.

²⁸²⁶ Dodecatheon, Shooting Star

Clevelandi. R. G. Sometimes called the American cowslip, bearing umbels of drooping flowers, formed like small cyclamen. Flowers are of a delicate lilac tint and borne from April to June. They like cool moist soil and a shady location. 1 foot. Pkt. 15c.

Alpine Snowflower Edelweiss,

2854 LEONTOPODIUM, Alplnlum. R. G. This is the famous Edelweiss of the Swiss Alps. Silvery gray leaves almost flat on the ground. Stalk, spring up from the center, bearing 3 to 4 starlike flowers. Plants easy to grow in any good sandy garden soil. 4 in. tall. Pkt. 20c.

Flowering Spurge Luphorbia

2879 COROLLATA. A branching plant 2 feet tall, with fine stems and foliage. Bears loose umbels of pretty white flowers from June to August. Very lovely for cut-flowers by itself or with mixed flowers. Pkt. 15c.

Delphinium, Hardy Larkspur

Their popularity is growing each year because of the stately magnificence of the flower spikes, and their beautiful shades of coloring. Belladonna, Bellamosa, and Hybrids with good culture grow 3 to 6 ft. tall, bloom in June and July, and if cut back and fertilized after bloom, will give more flowers in late summer or early fall.

2775 Templin-Bradley's English Hybrids
BLACKMORE AND LANGDON'S PRIZE STRAIN DELPHINIUM
This strain is the product of many years of patient hybridizing and selection by one of the outstanding horticulturists of England. It is the best strain seen in Europe's wonderful Delphinium plantings, on a personal trip by Mr. Bradley. The recipient of many gold medals and awards, a realprize strain. The shades of coloring and the size and refinement of the flowers are unexcelled. Pkt. 25c; 37 oz. 50c.

2774 Hollyhock or Wrexham Strain Delphinium

A distinct new type of Delphinium with massive yet refined spire-like spikes that taper to the tip. The individual florets are very large and closely arranged on the stems. The flowers are in the most beautiful shades of blue, lavender and purple, singles, semi-doubles and doubles. Pkt. 25c; \(\frac{1}{32}\) oz. 40c; \(\frac{1}{16}\) oz. 75c.

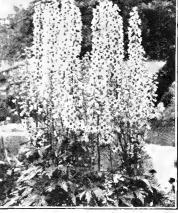

WREXHAM TYPES IN SEPARATE SHADES. We offer this splendid strain this year in separate shades for the discriminating grower.

2776 ART SHADES.

2777 BLUE SHADES.

2778 DARK BLUE SHADES.

Price, any of above shades. Pkt. 25c.

Separate Shades

Regal Hybrids

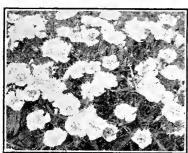

Regal Hybrids

2770 BELLADONNA. The most continuous blooming of all, blooming from early June until frost. The elear turquoise—blue flowers are very delicate and beautiful and are most popular. Pkt. 10c; ½ oz. 40c.

2771 BELLADONNA IMPROVED. A very earefully selected strain of the popular Belladonna type giving excellent uniformity of type and color. Pkt. 15c; ½ oz. 35c.

2772 BELLAMOSA Similar to Belladonna in form and habit but with a color of much deeper and richer blue. Price 10c; 1/8 oz. 40c.

2773 Gold Medal Hybrids
A good strain at a low price. These hybrids embrace a
nice collection of hybrid Delphiniums. The shades
range from pale lavender to deep indigo blue, a glorious
mixture. Pkt. 10c; 1/8 oz. 30c.

Page 78

Chinese Delphinium, Butterfly Varieties

The Chinese Delphinium or Delphinium Chinensis are perfectly hardy perennials but are sometimes classed as Annuals because if the seed is sown early they will fully develop and bloom the first year. Their flowers are borne as loose sprays rather than in spike form. They are fine for garden display or cutting.

2781 CHINENSIS, BLUE and WHITE 2782 DWARF BLUE BUTTERFLY

2783 CHINENSIS, CAMBRIDGE BLUE. Pkt. 10c. Scc Aiso Annuals Page

²⁷⁸⁰ Regal Hybrids

A new and outstanding strain of hybrids which we believe is the equal of many of the very high priced strains. Large double flowers of the richest color tones and of the finest flower forms, yet achieved in

the Delphiniums.
Plants are vigorous and hardy growing to 6 feet in height. We inspected the field of blooming plants from which this seed was harvested and assure you it was one of the finest displays of Delphiniums we ever saw. If you buy this seed you will certainly have a strain of the finest parentage. Pkt. 15c; 18

2779 | Ceberg | THE WHITE DELPHINIUM |
A new perennial variety of Delphinium producing lovely white bloom on spikes IS to 20 inches long and growing 3 to 4 feet tall. Plants are of strong healthy growth and will produce by their second year tall heavy spikes of bloom. Pkt. 25c; \(\frac{1}{16}\) oz. \$1.00. \(\frac{2787}{YELLOW}\) ZALIL. Yellow Delphiniums are rare and Zalil is worth trying. About 3 ft. tall, with flower formation quite similar to the blue kinds. Seed germinates slowly. Pkt. 15c; \(\frac{1}{16}\) oz. 60c. \(\frac{2788}{2788}\) SCARLET CARDINALE. Having bright scarlet flowers, but dwarfer plants than the other strains,

let flowers, but dwarfer plants than the other strains, about 2 to $2\frac{1}{2}$ ft. tall. Germinates slowly. Pkt. 15c; $\frac{1}{16}$ oz. 40c.

Dianthus, Hardy Garden Pinks

Spice or Clove Pinks

Every garden should contain at least a few elumps of these old fashioned fragrant pinks. Excellent for border, blooming in June. 15 to 18 inches tall.

2798 DOUBLE MIXED COLORS. Av mixture of all shades. Pkt. 10c; 1/8 oz. 30c.

2796 SEMPERFLORENS (Florist's Perpetual Pinks). R. G. These beauties are almost everblooming and come in a nice variety of colors, in double, semi-double and single blooms. 15 in. tali. Pkt. 10c: 14

2802 SCOTICUS, DOUBLE SCOTCH MIXED. Large double fringed flowers profusely borne during spring and early summer. Flowers are very fragrant. A very fine eolor assortment. Pkt. 20c.

2801 HIGHLAND QUEEN. R.G. One of the most brilliant of all Dianthus, bearing an abundance of lustrous scarlet. Blooms over a long period, June to November, so exceptionally good for bedding, borders, and the rock garden. Pkt. 20c.

2791 ALLWOODI MIXED. Large and for the most part fully double, almost like carnations. Splendid clusters of bloom borne in June and throughout the summer, splendid color assortment. I 5 inches. Pkt. 25c.

Rock Garden Pinks

The following varieties of Hardy Pinks are especially well fitted for use in the Rock Garden and they seem to give their best results in such a situation.

2793 CAESSIUS, CHEDDAR PINKS. R. G. dwarf compact form producing very dense green mats of foliage. The bright rosy-pink fragrant flowers are produced freely in May. 6 in. tall. Pkt. 10c; \\ \} oz. 30c.

2794 DELTOIDES BRILLIANT. R. G. A delightful small compact plant with narrow leaves producing an abundance of glowing crimson red flowers during May and June. 4 in. tall. Pkt. 10c; ½ oz. 35c.

2800 NEGLECTUS, or Glacier Pinks. R. G. Bearing in May and June very attractive cherry red flo Splendid for your rockery. 6 in. tail. Pkt. 25c.

2805 GRANITICUS. R. G. Very lovely dwarf variety with deep red flowers 4 to 5 inches across. Blooms May and June. Pkt. 10c; 1/8 oz. 40c.

2799 ROCK GARDEN PINKS MIXED. R. G. A mixture of the species best adapted for rock garden plantings. Suitable for border plantings also of course. **Pkt. 10c**; 1/8 oz. 40c.

2792 ALLWOODI ALPINUS. R. G. A most excellent hybrid of the Allwoodi type producing diminutive plants useful in rockery. Fine color assortment and free blooming. 9 inches. Pkt. 25c.

Echinops Globe Thistle

2846 RITRO. Globe shaped bristly flowers of metalic-blue, borne in July and August. Popular for drying for winter bouquets. Grow 2 to 3 feet tall. Pkt. 10c; ¼ oz. 20c.

Erinus, Liver-Balsam

2859 ALPINUS R. G. In May and June these little plants with their rosettes of leaves, bear pretty rosypurple flowers. Fine for planting in the crevices of old walls or between steps or in the Rock Garden. Grow 4 to 6 inches high. Pkt. 15c.

Erigeron, Fleabane

2856 SPECIOSUS GRANDIFLORUS. Bright purple Aster-like flowers, freely produced all summer. Fine for cut-flowers, desirable for the perennial border, Pkt. 15c; ¹8 oz. 35c.

Gentiana, Gentian

Beautiful low edging plants that produce their welcome flowers in the spring. They are also among the best plants for rockeries. They like moist shady location and light loam soil, and are rather difficult to establish and once established they should not be disturbed. Use no lime in the soil.

2896 ACAULIS, Blue Gentian. R. G. Best variety of rich gentian blue. 4 in. tall. Pkt. 15c; $\frac{1}{16}$ oz. 40c.

Digitalis or Foxglove

Foxgloves are biennials, so after blooming cut down and sow more seed each season. Wherever planted Foxgloves give the appearance of dignified beauty. Bloom June and July.

2815 The Shirley It is agreed among experts that this is the finest strain of Digitalis ever introduced. Of the same form as common types but with still longer and larger flower spikes, the flower head often being 3 ft. long, covered with big bell-shaped flowers. The color assortment is rich indeed, from white and shell-pink to deepest rose, many dotted with crimson or choeolate. 5 to 6 feet tall. Pkt. 10c; ¼ 0z. 25c.

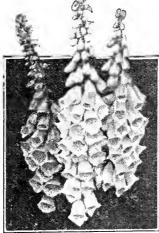

2816 Good Mixed A good mixture of white, pink, rose and mottled colors. Pkt. 10c; ¼ 0z. 20c.

2817 Salmon Hybrids (Lutzii). Attractivesalmon shades.

Eupatorium Ageratum

Dainty little flowers produced in dense heads at the top of the branches. Make adorable cut flowers.

2877 COELESTINUM. Light blue flower heads, bloom during September and October. 3 feet. Pkt. 15c.

Hedysarum Honeysuckle
2923 CORONARIUM. Attractive shrubby border plant, bearing in July, racemes of deep red, fragrant flowers. Does best in well drained soil in full sun. Grows 2 feet tail. Pkt. 10c; 14 oz. 30c.

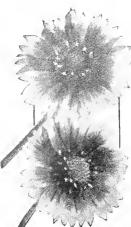

Helleborus

Christmas Rose

2918 NIGER. A delightful perennial with pure white flowers that bloom early, often blooming in the snow and continuing through March. Grows 9 inches high and prefers a location that is partially shaded in the summer. 9 in. tali. Pkt. 15c; ¼ oz. 30c.

Echinops Ritro

Gaillardia Dazzler

Hardy Gaillardias

Easily grown, very showy, fine for cut-flowers and almost perpetual bloomers, July to November. If sown early, will bloom the first year. 1½ to 3 feat tell.

2890 BURGUNDY. Solid maroon except slight tips of yellow. Grandiflora type. Pkt. 20c; 16 oz. 35c.

35c.
2891 MAXIMA. Flowers of solid color in yellows and golds. 2½ to 3 feet tall. Pkt. 10c; ¼ oz. 35c. 2897 TANGERINE. Beautiful tangerine orange flowers of good size. Pkt. 15c; ⅓ oz. 30c. 2887 DAZZLER. An improved strain with immense flowers of hright, golden yellow with rich maroon center. Pkt. 15c; ⅓ oz. 30c. 2888 PORTOLA HYBRIDS (In color, page 19). Extra large flowers, often 3½ inches across. The petals are broad and overlapping. Brilliant searlet, tipped yellow. 2¼ to 3 feet tall. Pkt. 10c; ⅓ oz. 25c. 2886 GRANDIFLORA MIXED. Combinations of yellow and maroon-red. Rich for garden display. Pkt. 10c; ¼ oz. 25c.

Gypsophila Baby's Breath

A class of hardy perennial flowers that is almost indispensable

to the garden from which cut-flowers are gathered. Gypsophila gives a daintiness to all bouquets.

2914 PANICULATA SINGLE. Sce picture. Immense panicles of white gauze-like flowers. 2 ft. Pkt. 10c; ¼ oz. 25c.
2915 DOUBLE FLOWERING, "Snow White." Popular for win ter bouquets. Showier than the single. Pkt. 20c; ½ oz. 45c.
2919 PACIFICA. Tall Bushy plants with tiny pink flowers. Blooms after Paniculata so prolongs cutting period. Pkt. 20c; ½ oz. 40c.

Gypsophila for your Rock Garden 2916 REPENS, Prostata, R. G. Grows 6 inches tall, prefers a dry open place. Graceful white flowers. Pkt. 10c; 18 oz. 30c.

2917 REPENS ROSEA. Pink flowers of dwarf trailing habit, Beautiful for Rock Gardens. Pkt. 15c: 16 oz. 30c.

Heleniums Heleniums are large, Daisy-like flowers in shades of yellow, bronze and orange with conspicuous centers. Grand for cutting or for garden dis-

2932 AUTUMNALE HYBRIDUM PRAECOX. Highly developed strain of hybrids producing heautiful shades of yellow, bronze, crimson and hrown. 3 feet. Pkt. 15c.

2933 RIVERTON GEM. Old gold, suffused with terra-cotta, changing to Wallflower-red, August to October. 3 to 4 fcet. Pkt. 15c.

Helianthemum, Sun Rose
2936 MUTABILE HYBRIDS. R. G. An excellent ground cover and rock garden plant for dry sunny slopes and terraces. Tolerates very hot dry soil. A shrubby plant growing 12 inches high with evergreen foliage. Flowers of pale rose, lilac, and white—pretty with their yellow stamens. Blooms June and July. 1 ft. Pkt. 10c; 1/4 oz. 35c.

1/4 oz. 20c.

Gypsophila Paniculata

Double Hollyhocks

variety similar to Mrs. Bradshaw in growth, but hearing hright golden yellow flowers. Pkt. 10c; 1/8 oz. 35c.

Geums Color Page 51 The Geums are becoming more popular each year, for their free flowering and attractive plants are a valuable addition to any hardy garden. Very easily grown from seed and produce a continuous supply of flowers for cutting.

2901 MRS. BRADSHAW. This variety hears double bright red flowers 1½ inches across during May and June on stems about 18 inches tall. The foliage is at the base, Pkt. 10c; ½ oz. 35c.

2902 LADY STRATHEDEN. A beautiful new

Coral Bells
2961 SANGUINEA SPLENDENS. R. G. Very desirable plants, the foliage in compact masses 8 to 10 inches high. The flower stems reaching up 18 to 24 inches bear graceful spikes of the showiest bright coral red flowers. Excellent for the hardy border and especially good for the rock garden. Blooms fine for cutting, borne during July and August. 2 ft. Pkt. 15c.
2962 SANGUINEA GRANDIFLORA HYBRIDS. Includes all the attractive shades known to Heuchera, white, pink, scarlet and crimson. 2½ ft. Pkt. 15c.

Hibiscus, Mallow
Large free growing shrub-like plants forming clumps 4 to 5 ft. high, with handsome green foliage hearing throughout the late summer immense single flowers 4 to 6 inches across. Plants are easily grown from

2972 MALLOW MARVELS MIXED. Produces giant flowers in August and September, white, pink and crimson. Mixed Pkt. 10c; ½ oz. 20c. 2971 GIANT GOLDEN BOWL or SUNSET. Very large flowers of rich cream yellow with maroon center. Pkt. 10c; ½ oz. 25c.

lberis Handy Candytuft See Page 32

Incarvilled Hardy Gloxinia
Comparatively new in American gardens, hut it well deserves a place as it produces many showy fine flowers throughout the summer. The flowers are trumpet-shaped, attractive and gloxinia-like.

3007 VARIABILIS HYBRIDS. Colors ranging from white and yellow to deep pink. 2½ to 3 ft. Pkt. 15c; ½ oz. 40c.

3008 DELAVAYI. Bright rosy purple flowers borne freely in June and to a less extent throughout the summer. Likes sun and need light protection over winter. 2 to 2½ ft. Pkt. 15c.

Lavendula Sweet Lavender

3026 A shruhby perennial ahout 1½ ft. high with gravish green foliage, and hearing during July, August and Septemher whorls of small blue flowers. The leaves have a very pleasant aromatic odor, much sought for. The plant requires some winter protection in most Northern States. Pkt. 15c; ¼ oz. 35c.

Leontopodium See Edelweiss Page 36

Lewisia

3030 HOWELLI. R. G. A rare and lovely creeping plant forming a rosette of narrow crinkled leaves. Flower stems 6 inches above foliage, carry star-like flowers of apricot, streaked rose. Spring sown seeds will bloom the following year. Give the seedlings a well drained, sunny place and do not over-water them. Pkt. 25c.

Helianthus

Heuchera

Hollyhocks

These stately, majestic, handsomely colored flowers, growing 5 to 7 feet tall are attractive for screens and backgrounds and are one of the most popular of all the hardy garden flowers. They are necessary for the old-fashioned garden and with their colossal spikes of rose-like hlooms, produce bold and showy effects. They are easily grown from seed but it is best to treat them as biennials, sowing fresh seed early each spring. They bloom July and August.

Lovely New Hollyhocks

Helianthus Sunflower

2939 AUGUSTIFOLIUS or Autumn Glory. Excellent for hack ground, clump in the border, with its branches hearing masses of clear golden yellow flowers in Octoher and Novemher after most flowers are past. 5 to 6 ft. Pkt. 10c; 1/4 oz. 35c.

2954 Hesperis Sweet Rocket

2954 MATRONALIS MIXED. One of the old-fashioned hardy perennials that have always remained in favor. A very useful plant for naturalizing among shrubs or planting in the permanent horder. Bears multitudes of very fragrant flowers of white violet and purple in loose spikes or heads similar to Phlox. Blooms May and June. 2 to 3 ft. Pkt. 10c;

3003 TRIUMPH DOUBLE FRINGED. New, of hranching habit, waved and fringed flowers in shades of crimson, pink, white, yellow and purple. Early hloomer 4 to 5 feet tall. Pkt. 15c; 1/8 oz. 40c.

3042 PHILIPPINENSE FORMOSANUM. A wonderful new lily grows easily from seed. At the Arnold Arboretum seed produced flowering plants in seven months. Similar to the Easter lily, white trumpet-shaped flowers, slightly marked with reddish brown on base of petals. Perfectly hardy. 2 to 3 feet. Pkt. 15c.

3045 PRAECOX WHITE QUEEN. A beautiful lily of the Longiflorum family, producing long snow-white trumpets. Under good

5040 PRAECUX WHITE QUEEN. A beautiful lily of the Longiflorum family, producing long snow-white trumpets. Under good conditions will bloom in 12 months from seed. Pkt. 30c.

3044 TENUIFOLIUM, Coral Lily. Bears quantities of small, glossy scarlet flowers with recurved petals. Perfectly hardy, blooming in June and July. Seed is sometimes slow to germinate but well worth patience as it is beautiful. 2 ft. Pkt. 15c.

Lllium Phillipinense

3197 DECUS-SATA GRANDI-FLORA MIXED. Lovely colors taken from named varieties of Hardy Phlox Large blooms on 3 foot stems. Seeds slow to germinate but worth germinate but worth waiting for. Pkt. 10c; 16 oz. 30c.

Phlox

Oriental Poppy

Hardy Poppies

Papaver

For a gorgeous display, few flowers can compete with the brilliant Poppies in June and July. Immense silken cups of glowing colors with black blotch at base of petals.

base of petals.

If, after blooming, the tops are carefully taken off, not to injure the crown, they often bloom again in the fall. Height 2½ to 3 feet.

3176 ORIENTAL SCARLET. Tremendous cup of brilliant scarlet, with purple-black blotches. Pkt. 10c: ½ oz. 25c.

3178 BEAUTY OF LIVERMERE. Deep oxbloodred with black throat. 3 ft. Pkt. 15c; ½ oz. 30c.

3179 THE FELTHAM. New distinct strain with various colors, scarlet, orange, apricot and salmon

various colors, scarlet, orange, apricot and salmon but with no black blotches. Pkt. 15c. 3180 MRS. PERRY. Shrimp pink or apricot. The best of the pink Orientals. Pkt. 15c. 3177 ORIENTAL HYBRIDS. Some brilliant new shades have been developed, running through orange, salmon to scarlet. Pkt. 10c; ½ 0z. 25c.

Alpine Poppy, Papaver Alpinum 3187 ALPINUM MIXED. R. G. A charming miniature Poppy in brilliant shades of scarlet, orange, yellow, apricot, pink and white. Rock Garden Poppy. 6 inches high. Pkt. 15c; 16 oz. 45c.

Primulas—Hardy Primroses

Delightful little flowers in all the brilliant colors that mean so much to your garden in April and May. They have few rivals for planting along shady paths or in the Rock Garden. Seed germinate slowly and fall planting is preferable. You will enjoy their beauty.

3251 AURICULA ALPINA MIXED. Combinations of yellow, brown and red. Early,

3252 JAPONICA MIXED or Japanese Filmost. Boliectale Spines. 18 to Primroses," very showy, blooms in June. Mixed colors, purple, lilac and pink. 18 to 21 inches tall. Pkt. 15c; \(\frac{1}{3}\) oz. 40c.
3253 CASHMIRIANA. Large lilac, 1 foot tall. Pkt. 20c.
3255 LITTONIANA. Large spikes, similar to Red Hot Poker. Heads before opening are bright red, opening to lilac and purple shades. 2 feet tall. Pkt. 20c.
3250 VULGARIS, The True English Primrose. Fragrant canary-yellow, 6 to 8 inches tall. Pkt. 10c. \(\frac{1}{3}\) oz. 40c.

inches tall. Pkt. 10c; 16 oz. 40c.
Polyanthus Primulas 3248 PERFECTION MIXED. Select strain of large flowering Polyanthus, containing all available colors and combinations of white, pink, rose, crimson, yellow and gold Pkt. 10c; \(\frac{1}{32}\) oz. 40c.

3247 GIANT MUNSTEAD. Large flowered variety, early blooming and includes pleasing shades of yellows and white. Pkt. 15c; \(\frac{1}{32}\) oz. 40c.

Physostegia, False Dragonhead

An attractive flower for the Perennial border. Long blooming season, rich foliage, easy to grow and lovely spikes of delicate rosy pink flowers. Excellent for cut-flowers. Prefers rich soil and sunshine.

s rich soil and sunshine

3208 VIRGINIA PINK. July and August. 3½ feet tall. Pkt. 10c; ½ oz. 35c. 3210 COMPACTAROSEA. R. G. Compact, deep pink. 12 to 18 inches tall. Pkt. 10c.

Nudicale, Iceland Poppy

Iceland Poppies are fine Rock Garden subjects. They bloom practically all summer and form neat plants with tufts of attractive foliage. Make lovely table decorations. Stems stand about 1 foot high.

tufts of attractive fohage. Make lovely table decorations. Stems stand about 1 foot high.

3185 COONARA PINK. New variety in shades of pink, salmon and apricot. Pkt. 10c; ½ oz. 25c.

3181 SUNBEAM GIANT MIXED. Fine color mixture, ranging from white, through straw yellow to orange and orange-scarlet. Like the finest paper in texture. Pkt. 10c; ½ oz. 25c.

3182 DOUBLE MIXED. A selected strain. A large percentage will produce double flowers. Pkt. 10c; ½ oz. 35c.

3183 EL MONTE. An excellent cut-flower with long stiff stems. Flowers extra large of rich tangerine orange. Pkt. 15c; ½ oz. 30c.

3184 SINGLE MIXED. Variety of colors. Pkt. 10c; ½ oz. 25c.

3186 Fakenham Hybrids. These gorgeous new Poppies are almost twice the size of other Iceland Poppies. Bloom later, have long, stiff stems. Colors cover the whole range known to Poppies with many new shades and tints. Pkt. 15c; ½ oz. 35c.

Penstemon Sec Color Page 51

3192 SENSATION GLOXINOIDES. Resembles. Gloxinias and comes in lovely shades of pink, rose, red, lilac and purple. Grows 2 feet tall. Pkt. 10c; ½ oz. 25c.

3195 GRANDIFLOROUS MIXED. One of the showiest Penstemons, with its leathery leaves and stems that rise up 2½ to 3 feet with spikes of pretty lilac and pink flowers during May and June. Fine for cutting. Pkt. 10c; ½ oz. 30c.

Polemonium, Jacobs Ladder
3236 COERULEUM GRANDIFLORUM BLUE.
Produce during May, June and July, erect stems bearing terminal heads of attractive violet blue flowers. The leaves are clustered mostly at the base of the stem. They like partial shade and considerable moisture.

2 ft. tall. Pkt. 10c; 1/4 oz. 25c.

Pyrethrum Sec Color
Page 51

Low compact growth with lace-like foliage of bright green, quantities of Daisy-like flowers. They bloom during June and July.
3261 SINGLE MIXED. White, rose and pink. Pkt. 10c; ½ oz. 30c.
3262 DOUBLE MIXED. (See illustration.) They are not all double flowers but percentage increases as plants become older. White, pink and rose. Pkt. 15c; 1/6 oz. 50c.

3264 HYBRIDUM GRANDIFLORUM. Single. Large flowered, fine for cutting. Very attractive. Pkt. 10c; ½ 60z. 25c.

10c; ½ oz. 25c. 3263 ATROSANGUINEUM. Select strains of dark, blood-red. Excellent quality. Pkt. 10c; ½ oz. 30c.

Playtcodon Chinese Bellflower

A bushy perennial growing $2\frac{1}{2}$ feet tall and bearing in late summer, many large five-pointed, bell-shaped flowers. The buds are like little balloons. The separate colors do not always come 100% true from seed, the blue usually containing some white flowers and vice

3222 GRANDIFLORA BLUE. Pkt. 10c; 1/8 oz.

3221 BLUE AND WHITE MIXED. Pkt. 10c; 1/8 oz. 30c.

3226 MARIESI DWARF BLUE. Compact, bushy plants only 12 to 15 inches high. Deep blue flowers often 3 inches across. Pkt. 15c; 15 oz. 40c.

Hardy Salvia Meadow Sage

3291 AZUREA GRANDIFLORA. Small tubular flowers of sky-blue, borne in long terminal spikes. Blooms in August and September. Easily grown on light sandy soil in a sunny location. In Northern states, protect over winter with a light mulch. 4 to 6 feet tall. Pkt. 10c; ½ oz. 40c.

SALVIA—Farinacea is a tender perennial which we suggest growing as an annual and list it on page 26.

Saxifraga, Rock Foil

3293 MOSSY VARIETIES MIXED. These varieties produce tufts of mossy leaves with white, pink and purple flowers. They are among the best Rock Garden subjects. Pkt. 25c.

Shasta Daisies Chrysanthemums Leucanthemum See Color Plate on Page 51

These hardy Chrysanthemums are of the Shasta Daisy type, so wonderful for garden display or cut flowers. 2738 BURBANKS SHASTA DAISY ALASKA. The finest hardy daisy, pure white, 2½ to 3 inches across. July and August. 2½ ft. Pkt. 10c; ½ oz.

2744 DOUBLE SHASTA DAISY. A new and unusual strain which produces a large percentage of big double Daisies, almost like Asters. Pkt. 30c.

2748 MAWII. A new pink Shasta Daisy. Flowers 1½ to 2 inches across. Plants one foot high. Rare. Pkt. 20c.

2739 MRS. C. LOWTHIAN BELL. One of the largest flowered. June to October. 3 ft. Pkt. 10c; 1/8 oz. 30c.

27 11 LACINIATUM MAXIMUM. This is a beautiful daisy with white flowers about the same size as the Shasta Daisy but the petals are recurved, twisted

the Shasta Daisy but the petals are recurved, twisted and fringed giving the flower a most graceful appearance. 1½ to 2 ft. Pkt. 10c; % oz. 30c.

2743 MAY QUEEN. Spring Marguerite. A very excellent variety most desirable for its early bloom, which often begins to appear in late April. Flowers medium sized and on good stems. 2 feet. Pkt. 10c; ½ oz. 40c.

2712 ELDER DAISY. Very valuable early variety as you can cut flowers in May for Memorial Day. Flowers not quite as large as Shasta but more are produced on each plant. 2 ft. Pkt. 10c; ¼ oz. 30c.

Physalis, Chinese Lantern

3204 FRANCHETI. An interesting plant with its pods of bright orange-red. They greatly resemble Chinese Lanterns and make gay and colorful winter bouquets. Pkt. 10c; ¼ oz. 30c.

Ranunculus, Buttercup Daisy

3278 ASIATICUS SUPERBISSIMA. Large semidouble and double flowers. Brilliant colors, the center often differing from the balance of the red and yellow of the flowers. May and June. Like partial shade. 1 to 1 ½ ft. tall. See illustration. Pkt. 10c; ¼ oz. 30c.

Romneya, Bush Poppy

3283 COULTERI. Also called California Tree Poppy. Shrubby growth, woody stems and large Poppy-like white, fragrant flowers. Satiny in texture, golden yellow stamens. June and July. 4 to 5 feet tall. Pkt. 10c; ½ oz. 35c.

Rudbeckia, Cone Flower

3287 PURPUREA (Echinacea) Purple Cone Flower. Rosy purple with dark central disk. Blooms in September. 3 feet tall. Pkt. 10c; 1/8 oz. 35c.

Hardy Scabiosa

Perennial Scabiosa are quite like the Annuals, though a little more graceful in form. Long blooming season, June to September. In the extreme Northern states, give a slight mulch for winter protection.

3297 CAUCASICA BLUE. Blue Bonnet. Single row of broad petals, center consisting of many tiny florets. Clear lavender-blue, very dainty. Extra long stems. 2½ to 3 ft. Pkt. 10c; ½ oz. 30c.

3306 JAPONICA. This Japanese variety forms bushy plants 2 feet high and bears beautiful lavender-blue flowers on long wiry stems. Long blooming season. Pkt. 10c; ¼ oz. 25c.

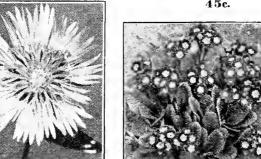

3300 ISAAC HOUSE HYBRIDS. See these In color on page 51. An improved Caucasica, having longer stems and larger flowers, in lovely shades from light lavender to deep heliotrope-blue. Petals are ruffled and fringed. Attractive. Pkt. 10c; 16 OZ. 40c.

3301 COLUMBARIA PINK. A South African Scabiosa, dwarfer than Caucasica. Short, compact flowers 2 to 2½ inches across on long stiff stems. flowers 2 t Pkt. 10c.

Sidalcea

A desirable hardy perennial that is very little known. Well worth a place in every garden. Produces spikes $2\frac{1}{2}$ to 3 ft. in height, densely covered from July to September with pretty single rosy-pink flowers. Each flower about an inch against the second s flower about an inch across

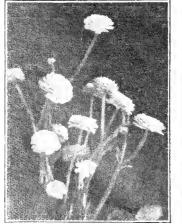

3327 ROSE QUEEN. Bright Rose. Pkt. 10c; 1/8 oz. 30c. % 62. 30c. 3328 Hybrids Many shades. Pkt. 10c; 1/8 oz. 45c.

Polyanthus Perfection

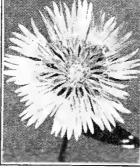

Sidalcea

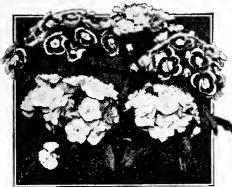

Ranunculus, Buttercup Daisy

Singic Pyrethrum

Stokesla

A Fcw Heads of Templin-Bradley's Glant Sweet William Sedum, Stone Crop

Sedums are excellent for Rock Gardens and for border plants. They prefer sandy soil.

3316 ACRE. R. G. Gold Moss or Wall Pepper.
Leaves of bright green and peppery in taste. In June the plants are covered with small bright yellow flowers. This variety makes a splendid ground cover as it grows only 2 to 3 Inches high. Pkt. 10c; 16 oz. 60c.

3317 SPECTABILE. R. G. Showy Stonecrop. Fine tall variety. Bears flat clusters of rosy-red flowers in August and September. Leaves are thick and ornamental. Fine for barren spots. 1½ to 2 ft. Pkt. 20c.

Sempervivum

3321 HEN AND CHICKENS, Perennial Species Mixed. Very useful border and Rock Garden Plants. A mixture of a great many sorts which will enable you to raise a fine collection of plants at low cost. Grow 4 to 6 Inches high. Pkt. 25c.

Silene, Catchfly
Charming rock plants, blooming nearly all summer.
Easy to grow under ordinary conditions.
3388 SCHAFTA. R. G. Masses of bright pink double

so S S Char I A. R. G. Masses of oright pink double flowers from July to October. Very easily grown from seed. 4 to 6 Inches tall. Pkt. 10c; ½ 80z. 40c. 3339 ASTERIAS GRANDIFLORA. Globular heads of carmine scarlet flowers. 1½ ft. tall. Pkt. 10c; ½ 0z. 30c.

Stokesia, Stoke's Aster

3354 CYANEA BLUE. Another very fine subject for the blue garden, the plants bearing large flowers (3 to 4 inches) of lavender blue that resemble the Aster and also the Cornflower. The long blooming season of Stokesia (July to October) is rare in perennials. Plants of erect growth. 1to 2 ft. hlgh. Pkt. 10c; 18 oz. 30c.

Thalictrum Meadow
Rue

Stately plants with foliage resembling Maiden Hair Fern, fine for bouquet trim. Dainty flowers in terminal clusters. Protect slightly for winter as they are not extremely hardy.

3396 DIPTEROCARPUM. Rosy-purple, in August and September, 4 to 5 feet tall. Pkt. 15c; 16 oz. 30c.

Veronica, Speedwell

A beautiful and desirable family of plants at home anywhere in your garden but exceptionally fine for the border or Rock Garden. Thrive well in a well drained soil in an open location where they receive plenty of sun.

Sweet Williams, Dianthus Barbatus

Sweet Williams need no long description, they are so well known and popular. Easy to grow, splendid for massing in perennial border, make a gorgeous display during May and June. Plants are normally 15 to 18 inches high.

3372 SINGLE MIXED. Pkt. 50c; ¼ 0z. 20c.
3373 DOUBLE MIXED. Pkt. 10c; ¼ 0z. 30c.
Single Giant Sweet Williams in Separate Colors.

3366 DARK CRIMSON. 3364 SCARLET BEAUTY. 3365 WHITE.

3362 HOLBORN GLORY. Giant flowering in many colors with white eye. 3363 PINK BEAUTY or NEWPORT PINK. Watermelon or rosy-pink, Large

Price any of above varieties. Pkt. 10c; ¼ oz. 25c.

3370 Sweet William Collection One packet each of five separate colors of Single Giants listed above. A 50c value for only 10c.

3361 Single Giant Mixed Sweet Williams

Fine mixture of brightest colors and shades, not present in other mixtures, and Margined and Auricula varieties. Pkt. 10c; 1/4 oz. 25c.

Ihymus or Ihyme

3399 SERPYLLUM. Mother of Thyme. R. G. A tiny Rock Garden plant with creeping purple scented foliage. Fine for stepping stones. Violet, white and rose. 2 to 3 inches tall. June and July. Pkt. 15c.

Trollius Globe Flower or Golden Ball See Color Plate, Page S3.

Beautiful gold and yellow perennials. Stems 18 inches long, flowers large double globe-shaped, usually 1½ inches across. Bloom in May and June, sometimes a second crop is produced in the fall. Like moist, cool spots in partial shade. Seed slow to germinate, sometimes not starting until the year following the sowing.

3.104 FINEST HYBRIDS. Rich shades of yellow, gold and orange. Pkt. 15c; ½ oz. 50c.

3.105 EUROPEUS GOLDEN BALL. Large globular flowers of soft, ricb yellow. 20 inches tall. Pkt. 10c. 3403_LEDEBOURI. Deep orange. 2 ft. Pkt. 15c.

Tunica, Coat Flower

3410 SAXIFRAGA. R. G. A neat little plant producing small light pink flowers all summer. It somewhat resembles Gypsophila and if started early will bloom the first season. It is suitable for edgings in almost any location and for rock gardens. 5 to 6 inches tall. Pkt. 10c; 1/4 oz. 25c.

Hardy Violas See Color Plate on Page 51

Viola Cornuta, Hardy Tufted Pansy
Hardy Violas combine the free blooming habits of
the Pansy with the hardy character of the Violets.
Plants will not run out like the Pansy nor are the
flowers as large, but are produced in profusion during
the entire season the entire season.

3.1.19 JERSEY GEM, CORNUTA HYBRID. Compact plant, flowers of deep violet-blue with an occasional variation in tint. Continuous bloom over long period. S inches. Pkt. 25c.

3452 APRICOT. Cornuta Hybrid of rich yellow, suffused orange. Very showy. Pkt. 15c; 16 oz. 40c. 3457 ARKRIGHT'S RUBY. Beautiful Viola of bright ruby-crimson with terra cotta shadings can now be produced true to color from seed with only a slight variation in shade. Pkt. 15c; Large Pkt.

3450 ADMIRATION. Rich rosy-purple. Pkt. 10c; % oz. 40c.

3453 ROSE QUEEN. Beautiful rose. Pkt. 15c;

3448 Viola Cornuta Mixed A splendid assortment of all available colors in the large flowering varieties. Pkt. 10c; 1/8 oz. 35c.

3460 Viola Bosniaca A very lovely small desirable for the border or Rockery. Small deep purple flowers freely produced all summer. 3 inches. Pkt. 15c; 15 oz. 30c.

New "GEM" Violas

VEGETABLE PLANTING TABLE

If you are in doubt about how or when to sow the seed or plant the plants of certain vegetables, this table will give you the required information. Full cultural instructions are given for each vegetable on the page where it is listed. We are always interested in providing any information that will enable our customers to achieve the greatest possible success with their gardens. Caution: Don't cover the seed too deep. It will germinate more quickly if only a little soil is on the seed.

Top Cross Bantam

1935 Vegetable Novelties

Which We Especially Recommend

It is the new and special varieties that help to make your garden of more interest, more pleasure and more profit.

Vegetables for Your Own Table

There is no more satisfactory way of obtaining good fresh vegetables of the best quality for your own use than to grow them in your own garden, and gather them just as you need them. Vegetables begin to lose their tenderness and good flavor very soon after they have been gathered, and when they have lain in the market for a day or even several hours they have lost much of their best qualities. Consider also the convenience of being able to step into your garden and select a nice fresh lot of several varieties just when you are ready to prepare your dinner.

Templin-Bradley's Vegetable Seeds

One of the essentials of a good vegetable garden is good seed. In our selection of varieties and strains within varieties we are looking through the eyes of the planters of vegetable seeds, the home gardeners and commercial growers. Every possible care is taken to provide you gardeners with the finest vegetable seed obtainable.

All-American Vegetable Selections

Have You Been Reading In The Magazines About
The All-American Flower & Vegetable Selections?

For the past three years, the All-American Selections Committee of the American Seed
Trade Association, have conducted trials of new introductions in ten widely scattered
locations in the United States for the purpose of determining the usefulness of all new
varieties of seeds offered in this country. Gold Medals, Awards of Merit and Honorable
Mention have been distributed on the basis of merit by unbiased judges. All new
varieties so honored in the past three years appear in this catalog with the indication
of the exact award in the description. This will guide you in keeping your garden up to
date on the really worthwhile new things. The purpose of this All-American Selection
is to prove the worthiness of a new variety before offering it to you and is therefore
directly in your interest.

All-American Gold Medal 1933. Long

3516 Bean-Tendergreen round, tender, meaty, light green snap bean of finest flavor. Matures early and the vines are exceptionally strong and vigorous, a delicious Bean. 4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

3578 Beet-Perfected Detroit All-American Award of Merit 1931. Considered the best strain of blood beet yet created. Early, round, dark red, no white rings. Produced by inbreeding and reselection over a period of 8 years. Pkt. 15c; oz. 25c; 4 lb. 65c; lb. \$1.75.

3620 Cabbage-Just Right All-American Special Mention tish round heads and short stems. Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ lb. \$2.00.

3631 Cabbage-Penn State Ballhead All-American Award of Merit 1931. A short stem dark bluish green Ballhead type, 12 inches high. Heads are extremely hard, heavy, uniformly globe-shaped and with small cores. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50.

3673 Carrot Morse's Bunching All-American Gold Medal drical with rounded shoulders and well stumped, 2 inches in diameter and 9 inches long, Color deep red-orange, roots free from wrinkles. A fine bunching Carrot. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50.

3712 Corn-Kingcrost Bantam All-American Special Mention 1931. This is a double cross among four inbred strains. Early and uniform, 4½ to 5 feet tall, yellow grained ears 7½ inches long, 10 to 12 rows each. More uniform and better quality than Golden Bantam. ¼ lb. 15c; lb. 50c; 3 lbs. \$1.25.

3876 Muskmelon-Imperial All-American Award of Merit 1935. Cellent flavor. See page 53. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

All-Am erican Gold Medal 1931. Bright fiery scarlet with a suffusion of orange. Perfectly round, small top and a thread-like tap-root. Recommended by the Royal Horticultural Society. Pkt. 10c; oz. 15c; ¼lb. 15c.

4094 Tomato-Scarlet Dawn All-American Gold Medal 1935. Wilt-Resistant, Rust-Resistant. Wonderful new Tomato of deep Marglobe red color, globe-shaped. Ranked second in the All-American trials. Pkt. 15c; ½ 0z. 70c; 0z. \$1.25.

4010 Radish-Glowing Ball 4052 Spinach-Viking All-American Award of Merican

4050 Spinach-Nobel Giant Leaved All-American Award of Mcrit 1933. The best smooth leaved variety for spring and summer sowing. Leaves extra large, smooth and of good texture. Round seeded. Oz. Sc; ¼ lb. 20c; lb. 50c.

1935. A meritorious variety, medium to dark green, longstanding, giant leaved, The leaves are smooth in summer but inclined to crinkle in cool weather. Oz. 10e; 4lb. 25c; lb. 75c.

Hybrid White Spine

4091 Tomato-Pritchard or Scarlet Topper. All-American Gold Medal 1933. Disease-Resistant. The plant is comparatively small but branching and a true self topper. Fruits are medium size smooth, solid, heavy, globe-shaped, rich dark red. Pkt. Sc; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40.

Other Vegetable Novelties

3764 Cucumber, Hybrid White
Spine A much improved type of white spine.
The fruits are much longer, slender and of

a deep rich green, the color being retained well after gathering. An excellent cucumber for slicing for your table, or if you grow vegetables to sell, the appearance of Hybrid White Spine is all in its favor. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.25.

3706 Corn, Top Cross Bantam A new Hybrid Sweet Corn a few days earlier than Golden Cross. Ears 7 to 7½ inches long, 10 to 12 rowed. Resistant to Stewart's disease. Far better than the standard strains of Bantam. 14 lb. 15c.

4120 Tomato, Yellow Ox-Heart Has all the qualities of the Ox-Heart with its big heavy meaty fruits but the flesh and skin are a rich golden yellow. Pkt. 10c; ½ oz. 10c; oz. 70c.

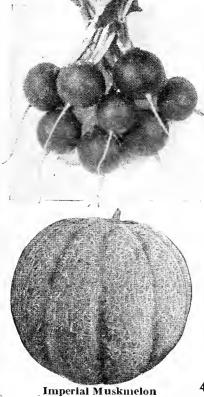

1935 Garden

For Your

3972 Peas, Giant Early Cropper An extra early, very heavy cropping new variety of much merit. The pods are large, dark green, 4 inches long and contain usually 7 large, sweet, light-green peas. Earliness, heavy bearing and fine table quality make this a most desirable variety both as a home garden variety and for market growing. See illustration above. 14 lb. 15c; lb. 45c; 3 lbs. \$1.25.

3973 Peas, New Giant Wonder A new Pea similar to Nott's Excelsior. Vines grow 15 inches tall, pods are plump, straight, blunt-ended, 3 inches long. 14 lb. 15c; lb. 45c.

3979 Peas, Morse's Market
Best nid-season Pea for home garden. Vines are robust,
24 to 30 inches tall. Pods 5 to 5½ inches long, ¾ to ¾
inches broad, straight, pointed, smooth, dark green,
well filled. ¼ lb. 12c; lb. 10c.

Washington Asparagus

3501 Asparagus, Mary Washington
This is the best of the newly developed Rust Proof
varieties, and is recommended by the U. S. Dept. of
Agriculture. It is a selection from Martha Washington
and produces large straight tender green stalks of
excellent quality.

SEED. Asparagus is not hard to grow from seed though
the results are not as quick as though you had started
by planting the roots. Start seed in early spring, covering an inch deep. Cultivate well during the summer,
transplanting the roots to their permanent bed the
following spring. One ounce should sow a 60 ft. row
and produce 200 to 300 plants. Pkt. 10c; Oz. 15c;
14 lb. 30c; lb. 75c.

3854 | effuce Creamy Hearts

3854 Lettuce, Creamy Hearts
One of the easiest to head and best quality to eat
of all the head lettuce. The heads are medium large,
the leaves are thick and buttery yet crisp. Really
a splendid home garden variety. Pkt. 10c; Oz. 1Sc.

Burpee's Stringless

Beans

TO HAVE PLENTY OF BEANS THROUGHOUT THE SUMMER—A fine idea is to plant both early and late varieties every two weeks from early Spring through the Summer. As most beans are ready to eat in from 45 to 50 days, keep planting just as long as there is that much time left before frost. This will give you plenty of the luscious health-giving beans for your table and for canning from early Summer to late Fall.

CULTURE—Make your first planting as soon as the soil is warm and danger of frost is past. Plant in rows 2 feet apart, dropping the seed 3 to 4 inches apart and 2 inches deep. Cultivate thoroughly but not when the vines are wet.

QUANTITY OF SEED—One pound of beans (except Limas) should plant a 100 foot row, 90 pounds will be required for an acre of ground. Bush Lima beans—one pound will plant 75 hills and 40 pounds will

Dwarf Green Pod Beans

³⁵¹⁶ Tendergreen

All-American Gold Medal Ipod.) If you want a wonder-fully delicious early snap Bean, plant Tendergreen. It is long, round, tender, meaty, light green and the finest flavor. Our customers friends tell us it is the best bean they ever ate. It matures early and the vines are exceptionally strong and vigorous. [4] b. 15c; lb. 10c; 3 lbs. \$1.00.

3510 Full Measure

(Round Pod). One of the best round podded varieties. Yields large quantities (even more than Tendergreen) of fine-grained, large, dark green tender pods. Very good table quality. 14 lb. 15c; lb. 10c; 3 lbs. \$1.00.

Cracker Jack Wax

(Flat Pod). Broad, flat, golden yellow, gracefully curv-

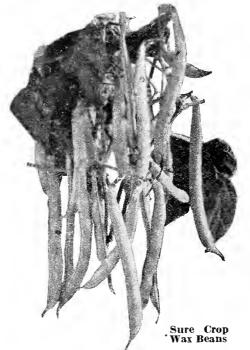

golden yellow, gracefully curved. In our experience, Webber is invariably ready to pick before any other wax bean and will yield more than any other except Sure Crop Wax. It is very vigorous, healthy and wonderfully productive. 14 lb. 15c; lb. 40c; 3 lbs. \$1.00.

3523 Improved Golden (Flat Pod). Pods perfectly straight,

very broad, flat, but thick through, fleshy and stringless. An early abundant cropper. It is a greatly improved strain of the old style Golden Wax. It will pay you to plant this strain of Golden Wax. ¹4 lb. 12c; lb. 35c; 3 lbs. 90c.

3507 Burpee's Stringless (Round Pod). The most popular of the round podded varieties. Early, very productive—pods tender, fleshy and free from strings. Ready in 50 days. 14 lb. 12c; lb. 35c; 3 lbs. 90c. 3509 Giant Stringless (Round Pod). Similar less, but pods are a trifle longer, straighter, and a shade lighter green, Exceedingly productive. 4 lb. 12c; lb. 35c; 3 lb. 90c.

3515 Early Red Valentine (Round Pod). and dependable early variety. Pods are round, fleshy, of medium green color and average 4½ to 5 inches long. ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3527 Stringless Refugee Wax (Round Pod). Tender enough to melt in your mouth and absolutely stringless. Better in all ways than the old Refugee Wax. Early and productive. Round pods 5 inches long, very fleshy and curved. 4 lb. 12c; lb. 35c; 3 lbs. 90c.

3528 Pencil Pod Black Wax (Round Pod). The best of the black-seeded wax varieties. Early. Pods large, round, 6½ to 7 inches long, straight and entirely stringless. 4 lb. 12c; lb. 35c; 3 lbs. 90c.

3529 Round Pod Kidney Wax (Round Pod). Also called Brittle Wax. An excellent variety that deserves much attention. Produces handsome pods 5 to 6 inches long, bright, rich yellow in color and absolutely stringless. For table use this variety is hard to equal, its tender fleshy, yet brittle pods are of the finest quality and are freely produced. Seeds are white with brownish-black eye. 4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

Inoculate Your Beans with Nitragin see 55

Dwarf Wax Pod Beans

3521 Sure Crop Wax (Oval Round Pod). best black seeded varieties as it is early, has attractive tender pods 5½ to 6½ inches long, nearly straight and is a "sure cropper." ¼ lb. 12c; lb.35c; 3 lbs. 90c.

3525 Unrivalled Wax (Oval Flat Pod). A new extra early bean of great value and well named. Long, slim almost transparent, nearly round, only slightly flattened, only straight, a little curved at tip, very tender ½

most transparent, nearly round, only slightly flattened, quite straight, a little curved at tip, very tender. 1/4 lb. 12c; lb. 35c; 3 lbs. 90c.

3526 Wardwell's (Flat Pod). Yields heavy pickings of the finest looking, largest and best quality pods imaginable. Long, straight, broad and golden yellow, fleshy but brittle and fine-grained. Delicious flavor and tender. 1/4 lb. 12c; lb. 35c; 3 lbs. 90c.

3530 Stringless White Wax Davis has long been a favorite because of the handsome appearance of the pods. This new strain has much better eating quality, being free from fibre or stringiness. 1/4 lb. 18c; lb. 50c; 3 lbs. \$1.25.

Webber

Field or Baking Beans

3552 New Robust The best white bean for baking. Also called "1000 to 1" Field Bean. The dry beans are the same shape and color as the popular Boston Pea Bean, but it has been proven by Experimental Stations that the New Robust out-yields all other white beans. 14 lb. 10e; lb. 30e; 3 lbs. 75c.

3555 White Marrow Large, plump, oval-shaped, white beans for baking. Vigorous vines that are very productive of the highest quality beans. 14 lb. 10e; lb. 30e; 3 lbs. 75c.

3553 White Kidney Also called Royal Dwarf. Produces large upright plants, bearing plenty of pods, which are dark green and about 6 inches long. Seed large, white, kidney-shaped and of excellent quality. Use as green, shelled or dry. 4 lb. 10c; lb. 30c; 3 lbs. 75c.

3554 Red Kidney Quite like White Kidney except that the beans are deep red in color. 1/4 lb. 10c; lb. 30c; 3 lbs. 75c.

3508 E a r l y Bountiful (Flat Podded.) Best

flat-podded stringless variety. Pods 6 ½ to 7 inches long, stout, flat and nearly stringless. Color light green. Very early, vigorous, hardy, productive. Fine quality. ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3514 Refugee Stringless (Round Pod). A stringless strain of the popular Refugee. Pods round, light green, stringless and of high quality. 4 lb. 12c; lb. 35c; 3 lbs. 90c.

3513 Ruby Dwarf Horticultural Agood variety for green shell beans, or can be used early as a green pod snap bean. Plants are productive and mature pods are broad five inches or more long, color yellow splashed with red. They are about equal to Limas in quality. 14 lb. 15c; lb. 40c; 3 lbs. \$1.00.

Lima Beans

Two Fine Pole Limas

3546 King of the Garden A favorite with gardeners because of the great size of pods, which contain 4 to 5 very large fine quality green beans. The vines produce continually until killed by frost. An improved strain of Large White Lima. 4 lb. 15c; lb. 40c; 3 lbs.

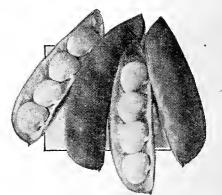

3547 Siebert's Early The earliest of the Pole Llmas, vigorous and remarkably productive of large curved pods about 5 inches long. The beans are very easy to shell and of excellent quality. ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

Dwarf or Bush Lima

3536 New Wonder or Burpee's Improved Bush Lima. The recognized standard of Bush Lima Bean quality. Large robust, compact, plants; productive. Pods uniformly large, produced in clusters and maturing in midseason. Large flat beans of superior quality. Pkt. Sc; 1/4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

3537 Fordhook The plant is ideal for productiveness and disease resistance, bearing the large pods in clusters of 4 to 6 well up above the ground. The pods and beans are of the Potato Lima type, large, thick and handsome. Early, being ready to eat in 75 to 80 days yet productive over a long period. Pkt. Sc; 1/4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

3538 Henderson's Early The earliest of all Lima Beans
—by planting it gardeners in even the northernmost States can enjoy Limas from their own
gardens. Pods are small but borne so plentifully that
the yield is large. Beans of excellent flavor. 4 lb.
12c; lb. 35c; 3 lbs. 90c.

New Wonder Bush Lima

Pole or Cornhill Beans

CULTURE—Same as bush lima beans except that they must be provided with something to climb upon. If planted in hills, poles will answer the purpose, or if planted in rows a continuous wire or heavy twine trellis is good. Pole Beans yield many more pods per plant than dwarf varieties. One pound will plant 100 hills.

3557 Kentucky Wonder or Old Homestead. The green podded Pole Beans. Early, wonderfully prolific, bearing continually until frost. Long pods in clusters, May be planted with corn. 4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

3563 Kentucky Wonder Wax One of the earliest and most productive of the wax Pole Beans. Pods 7½ to 8 inches long, thick, fleshy and brittle. Light yellow, seed chocolate brown. ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3558 Golden Cluster Wax A splendid Wax Pole inches long, golden yellow, thick, fleshy and stringless. White seeded. 1/4 lb. 12c; lb. 35c; 3 lbs. 90c.

3559 Lazy Wife Popular for snaps, shell beans or for beans clusters, long, broad, thick, fleshy, green pods, white seed. 1/4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

3561 Horticultural Cranberry Wren's Egg. Used for Dry seed speckled. 14 lb. 12c; lb. 35c; 3 lbs. 90c.

3562 Yard Long Asparagus Bean. An interesting novelty from the old country. Long, slim, round pods, often 2 to 3 feet long. The pods are edible. Pkt. 10c.

Beets

GROW YOUR OWN BEETS—Root crops give more food value for the space occupied than any other vegetable. Beets are the most popular of all root crops. Beets may be stored for winter use. Best of all, the small beets pulled and used soon after, are much sweeter and more tender than any you could buy. Try some buttered tender baby beets from your own garden this year. Make at least two plantings of beets so that you have plenty for early use and for winter storage as well.

3576 Detroit Dark Red The most popular of all beets.

Detroit Daik Red ular of all beets. Detroit makes a beautiful appearance served on the table or bunched for market, as it retains its deep red color. A big cropper with small upright tops, permitting close planting. The roots are globe shaped, see picture at left. Skin and flesh dark, blood red with very little lighter zoning. An excellent winter keeper. Pkt. 10c; oz. 15c; ¼ lb. 50c; lb. \$1.25.

TABLE BEETS CULTURE. Beets like well enriched moist soil. Sow the seed 1 inch deep in rows 12 to 16 inches apart, and thin out to stand 4 inches apart. First sowing may be made as early as the soil is in good workable condition, later plantings up is in good to July 1st.

QUANTITY OF SEED. One ounce should sow a 50 to 75 foot row, 5 to 6 pounds an acre. Packets of the standard varieties will contain about $\frac{1}{4}$ ounce.

3581 Ohio Canner A beet that has been meet the exacting demands of the canner and which therefore makes an unusually fine home garden variety. Roots very round and uniform and with small tops. Flesh is tender and extremely dark red, retaining its color after canning. Slower in growth than Detroit so gives a long period of use in the home garden. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50. All American 1933.

Detroit

Perfected Detroit

An improved strain with which we are An improved strain with which we are coming close to perfection in uniformity of size and shape of roots and extreme depth of color. Pkt. 15c; oz. 25c; 4lb. 65c; lb. \$1.75. All American 1934.

3579 Extra Early Egyptian One of the very earliest, especially valuable for forcing for early market. Tops small, roots distinctly flat and moderately thick. Flesh dark red with lighter zones. Pkt. Sc; oz. 15c; 1/4 lb. 40c; lb. \$1.00.

3580 Edmand's Blood Turnip Roots nearly round dark red Flesh purplish-red with very little

round, dark red. Flesh purplish-red with very little zoning. Pkt. Sc; oz. 15c; ¼ lb. 10c; lb. \$1.00.

An improved strain of old 3573 Crosby's Egyptian Egyptian and now the standard for early market. The roots are flattened globe shaped (see picture below). Skin deep red, flesh slightly zoned. This strain of Crosby's Egyptian is suitable for the most critical market gardeners planting. Much extra work has been done on this to perfect uniformity in shape and color of roots. Pkt. Sc; oz. 15c; 1/4 lb. 50c; lb. \$1.25.

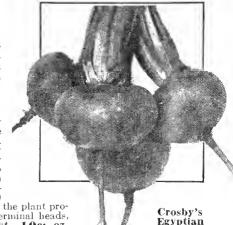

Broccoli, Hardy Cauliflower

3601 Large White Broccoli A vegetable very similar to Cauliflower, but hardier and less particular of conditions. Produces large white compact heads, tender and of delicate cauliflower flavor. Grow like Cauliflower. Pkt. 10c; oz. 35c; ¼ lb. \$1.25; lb. \$4.00.

Italian Green Broccoli

3602 Italian Sprouting A distinct variety and a vegetable that has become very popular. Served as Asparagus it is very Served as Asparagus it is very tasty, some considering it better than Cauliflower, yet it is easier to grow than Cauliflower. Grows quickly producing a cauliflower-like bluish green head in about 90 days. After the head is removed the plant produces branches bearing smaller terminal heads, which may also be used Pkt. 10c; oz. 35c; ¼ lb. \$1.25; lb. \$1.00.

Mangel Beets for Poultry and Stock

QUANTITY OF SEED. One ounce should sow a 75 to 100 ft. row. 5 to 6 pounds an acre.

3586 Mammoth Long Red The heaviest yielding of all mangels, often 2½ ft. long and very heavy. Grows half out of ground, easy to harvest. Oz. 10c; ¼ lb. 25c; lb. 75c.

3589 Danish Sludstrup

Produces large oval orange colored roots than grow more than half above ground. Flesh white tinged yellow and of extremely high sugar content. An unusually valuable dairy beet. Oz. 10c; ¼ lb. 25c; lb. 75c.

3588 Giant Half Sugar

The richest of all mangels in sugar content and feeding value. Ready to harvest earlier than others. Skin rose colored; flesh white. Oz. 10c; ¼ lb. 25c; lb.

Sludstrup

Sprouts Brussels

3612 Long Island Improved

Small heads of delicious quality are abundantly produced along the stem, the plants growing about 2 ft. high. Cultivate same as late cabbage. Produces tender little heads from October to December. Pkt. Sc; oz. 30c; ¼ lb. 90c; lb. \$2.50.

Brussels Sprouts

Swiss Chard or Spinach Beet

No other vegetable will produce more nutritious greens

No other vegetable will pr from a small space than Swiss Chard. It grows rapidly forming large leaves with broad flesh stems and mid-ribs. Sow the seed in April or May and thin the plants out to stand 1½ ft. apart.

3596 Lucullus

Has very large heavily crumpled, thick leaves and creamy white stalks. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. \$1.00.

3597 Large White

Ribbed Dark Green.
Has enormous leaves not quite as crumpled as Lucullus and pearly white stalks extremely thick and broad. Pkt. Sc; oz. 20c; [4] lb. 15c; lb. \$1.25.

Swiss Chard

Cabbage—Selected Strains

Many inferior strains of Cabbage arc offered on the market at low prices because prices on the super-selected strains seem high. However, in Cabbage seed, the best is the cheapest in the long run. Therefore, we offer only the highest quality that it is possible to obtain from the most reliable

CULTURE—Sow the seed of early varieties in hot beds or boxes indoors in February and March, transplanting to the open ground in April and May at which time seed of the mid-season varieties may be sown for later transplanting. Seed of the late varieties should be sown in good garden ground early in May and transplanted later. Cabbage should stand 18 to 24 inches apart in rows 30 to 36 inches apart. Cabbage should be thoroughly sufficiently throughout the season.

Itivated throughout the season. **QUANTITY OF SEED.** An ounce should produce about 2,500 plants, $\frac{1}{4}$ lb. enough for one acre.

Early Cabbages

Early Jersey Wakefield

Bearly Jersey

Bearly Jersey Wakefield

Bearly Jersey Wakefield

Bearly Jersey Wakefield

Bearly Jersey Wakefield

Bearly Jersey

Bearly

3621 Glory of Enkhuisen

A round, solid head and early but about one week later than Copenhagen Market. Matures in about 90 days. A very profitable cabbage both for the early market and for Fall use. Desirable variety for Kraut making. Heads medium sized, close leaved and very good keepers. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

Drumhead Savoy

Late Cabbages

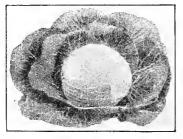

3626 Danish Ballhead For quality, no other winter cabbage equals Ballhead. It is a sure header, very heavy, solid and fine grained. Always brings the highest market prices. One of the best keepers, coming out of the pit in March or April fresh and solid. This is the short stemmed strain which is considered the most desirable. Pkt. Sc; oz. 25c; ¼ lb. 80c; lb. \$2.50.

3641 Drumhead Savoy Many consider Savoy the finest quality of all cabbages. The leaves are finely eurled and the heads solid. If you have never grown Savoy Cabbage, try it this year, you'll like it immensely. Pkt. 5c; oz. 25c; ¼ lb. 80c; lb. \$2.50.

3630 Early Flat Dutch An early and especially fine Flat Dutch, Flat Dutch, Heads are round, flat and very solid and average a little smaller than the Premium Flat Dutch. It is a very good keeper. Stems are of medium length. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

3628 Premium Late Flat Dutch Probably more than any other late variety, because everybody knows it is always reliable. Uniform, large flattened heads of fine quality and a good keeper. Largely, grown to supply Kraut factorand a good keeper. Largely, grown to supply Kraut factories. Beats all others in tonnage per acre. Pkt. 5c; oz. 20c; ½ lb. 60c; lb. \$2.00.

3622 All Head Early As early as most of the early summer eab-bages; the deep, flat heads are remarkably solid and uniform in color as well as in shape and size. Also makes a fine winter cabbage if planted late and a splendid sort for kraut-making. Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. \$2.00.

Copenhagen Market

Disease Resistant Cabbage

In sections where Cabbage "Yellows" is damaging, it pays to plant strains bred for disease resistance. The seed of the two disease-resistant varieties listed below, is gathered from plants grown on diseased soil and which proved immune.

3623 Marion Market Early. This is the disease-resistant Copenhagen Market, It is a few days later but otherwise it has all the good points of that variety. Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.10; lb. \$3.50.

3629 Wisconsin No. 8 Hollander Late. A "Yellows" disease-resistant copenhagen Market, It is a few days later but otherwise it has all the good points of that variety. Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.10; lb. \$3.50.

3629 Wisconsin No. 8 Hollander Late. A "Yellows" disease-resistant fattened and more solid, with splendid keeping qualities. Especially vauable in sections where cabbage plants are effected by "Yellows" disease, as it is practically 100% immune. Pkt. 10c; ½ oz. 18c; oz. 30c; ¼ lb. \$1.00; lb. \$3.00.

Danish Ballhead

Premium Late Flat Dutch

3742 Chives

Red Cabbages

3636 Red Delicious Early. This is the cabbages and yet it has hard, solid heads, round and very uniform. A delicious cabbage to eat and attractive in color. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.50.

3637 Mammoth Rock Red Late. The surest heading late Red Cabbage. Deep red in color at the heart. Large, vigorous plant, very hardy with medium length stem. A favorite for coldslaw. Pkt. 5c; oz. 25c; ¼ lb. 80c; lb. \$2,50.

Chinese Cabbage

While not a true cabbage this vegetable is as easily grown as the true cabbage, and is considered by many superior in quality. It resembles celery to some extent in its habits of growth as well as in flavor. Much esteemed for salads. Sow either early for spring crop or in late summer for fall crop.

Chlhli

3648 Chihli Produces a long slender head 15 to 18 inches tall, solid and crisp. This is a self-folding variety and hearts are well blanched tender and sweet. Early and very sure heading. Superior to Pe-Tsai. Pkt. Sc; oz. 30c; ¼ lb. 90c; lb. \$2.50.

3647 Wong-Bok

Shorter and much thicker heads only 8 to 10 inches long, but firm and tightly folded. The thick hearts are full, erisp, and tender and of excellent quality. A selfolding variety. Much esteemed for salads. Pkt. 5c; oz. 25c; 1/4 lb. 75c; lb. 82 25.

Cauliflower

Many inferior strains of Cauliflower arc offered on the market because prices of the best superselected strains seem high. However in Cauliflower seed, the best is by far the cheapest in the long run and we offer you only the best that our growers can produce. We could have Cauliflower seed grown for us at half the prices but you would not get half as good results.

CULTURE—Cauliflower is grown much the same way as early Cabbage, the seeds started in hotbeds or boxes in February or early March. An extra transplanting into other boxes or cold frames before setting outdoors is beneficial. In these set 2 inches aparteach way. When the heads begin to form gather the outer leaves and tie together to protect from the hot sun.

QUANTITY OF SEED. One ounce will produce 2000 plants, 5 ounces an acre.

3651 Early Snowball, Temley Strain Snowball is the earliest and best for the home gar-

snowball is the earliest and best for the home gardener who has rich, moist soil, for market and for the greenhouse grower. The plants are compact, with closely growing outer leaves, heads solid, medium large and snowy white. Pkt. 15c; ½ oz. 30c; ½ oz. \$1.00; 1 oz. \$1.75; 2 ozs. \$3.25; ¼ lb. \$5.50.

This is a valuable strain that possesses the quality of forming good heads on dry soil and during stretches of dry weather, when other varieties fail. The head is beautiful, large, snow white and is protected by large leaves making it easier to "whiten" than Snowhall. Only a trifle later than Snowball, perhaps not quite as good for greenhouse growing, but a wonder for the open ground. A sure header. Pkt. 12c; 1/8 oz. 30c; 1/2 oz. \$1.00; 1 oz. \$1.75; 2 ozs. \$3.25; 1/4 lb. \$5.50.

A small perennial plant of the onion family, readily propagated from seed. The leaves have a delicate onion flavor and are much used in salads and for flavoring soups, stews, etc. Plant forms a small clump which produces an abundance of foliage for frequent cutting. Pkt. 10c; ¼ oz. 30c; oz. \$1.00.

"French Endive" or

3739 Witloof Chicory Grow your own This French Endive or Witloof Chicory is a most delicious and appetizing salad and is easily grown. Sow the seed in the open June 1st and lift the roots in the fall. For forcing, pack the roots closely together in boxes and cover with 6 inches of sand or light earth, water and place near heater to keep warm. When sprouts break through the surface, they are ready for the table. Serve with French dressing. Pkt. 10c; oz. 40c; 1/4 lb. \$1.20.

Early Snowball Cauliflower

Chantenay

Carrots

Grow Your Own and Enjoy Their Lusciousness

Carrots deserve a space in your garden. In fact make several plantings so that you can have some early, midseason and late.

CULTURE—For the earliest crop sow seed in April, as soon as the soil is in good workable condition. Later plantings can be made in May and June. The soil should not be heavily fertilized, especially with manure. Cover the seed about ½ inch deep, spacing the rows 12 to 16 inches apart. It is important to thin the plants to stand not closer than 3 inches. Give frequent hoeing and cultivation. Carrots pulled just as soon as sizeable are at their best, without a hard core.

QUANTITY OF SEED. One ounce should sow a 200 ft. row, 2 to 3 lbs. an acre.

3666 Chantenay or Model The name suits this variety as it is a model all around carrot. The illustration is typical of its shape and it is smooth, fine grained, of very good eating quality. When fully developed the roots are about 6 inches long and 2½ inches in diameter at the shoulder. Though a medium early variety the roots may be pulled while small so it gives you baby carrots with the earliest. An excellent fall and winter keeper. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25; 5 lbs. \$5.50.

3670 Red Cored Chantenay

Also called "Coreless" Chantenay. A selection from the regular Chantenay with decidedly deeper orange color and with small, very tender cores of almost uniform color with the surrounding flesh, making it very desirable for salads or dicing. Size and shape very similar to the regular Chantenay and very uniform in size and appearance. Pkt. Sc; oz. 20c; ½ lb. 55c; lb. S1.40. and appearance. F 55c; lb. \$1.40.

 3662 Danvers Half-Long $^{\mathrm{t}\,\mathrm{ne}}_{\mathrm{roots}}$ average 11/2 inches in diameter and 5 to 6 inches long, holding their thickness well to the point. A favorite with market gardeners for bunching as size, shape, color and sweetness are ideal. Pkt. 5c; oz. 15c; \(^1\)4 lb. 40c; lb. \$1.25; 5 lbs. \$5.50.

3668 Orange Coreless This is a beautiful carrot for the home garden and market. In shape it is quite like Nantes but a trifle more tapering, smooth, 7 to 8 inches long and 134 to 2 inches across at the shoulder. On real good deeply worked soil the roots are longer (10 to 12 inches). Color is orange red. This carrot is a remarkably good keeper, yet is tender, with a very small core (practically coreless). Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.65.

Danyers Half-Long

Scarlet Nantes

3667 Scarlet Nantes

One of the best table carrots, tender and delicious. Nantes is half-long or stump rooted, but instead of tapering like Danvers it is cylindrical in shape and grows about 6 inches long, slender and fine looking. The flesh is orange red, fine grained and free from hard fibre or core.Pkt.10c; oz. 20c; ¹/₄ lb. 50c; lb. \$1.50; 5 lbs. \$6.75.

3671 Long Orange

An excellent, heavy producing, intermediate-season variety. Roots 10 to 12 inches long about 2½ inches broad at the shoulder, tapering regularly to a point. Color deep orange. Pkt. 5c; 0z. 15c; ¼ lb. 35c; lb. \$1.00; 5 lbs. \$4.25. 3672 Imperator A beautiful Carrot of deep, rich orange. Long, and smooth with sloping shoulders and tapered to semi-blunt end. 7 to 8 inches long. The orange flesh is tender and with indistinct core. orange flesh is tender and with indistinct core, Of excellent table quality and with the attractiveness to make it a splendid market and shipping variety. The tops are strong enough for good bunching. Pkt. Sc; oz. 15c; ¼ lb. 40c; lb. 1933

S1.25.

3664 Oxheart or Guerande Asplendid second early variety of short stocky shape two to three inches in diameter and with abrupt blunt tip making it an excellent variety for shallow or heavy soils. Keeps well in storage holding its quality well, and is a very heavy yielder often producing 15 to 20 tons per acre. Pkt. 5c; oz. 15c; ½ lb. 35c; lb. \$1.00; 5 lb. for \$1.25.

3673 Morse's Bunching

All-American
Gold Medal
1934
A new type
developed to fill
a demand for a
longer and better colored bun-

ching Carrot. Roots are almost cylindrical with rounded shoulders and well stumped, 2 inches in diameter and 9 to 10 inches long. Color deep red-orange, rootsfree from wrinkles. Pkt. 10c; oz. 20c; ½ lb. 50c.

Mastodon Giant White Best and stock and poultry feed Carrot grown, and wonderfully heavy yielder. It grows partly out of the ground, making it easy to harvest. Oz. 10c; ¼ lb. 30c; lb. 90c; 5 lbs. \$3.75.

Orange Coreless Carrot

Celery

CULTURE—Sow seeds early in hotbed or cold frame. As soon as the plants are about 3 inches high, transplant to a nicely prepared bed in the border, or to boxes, setting them 4 to 5 inches apart. When about 8 inches high, and stocky, set them out 6 to 8 inches apart in rows 3 ft. apart and cultivate well during summer. Earth up for blanching in autumn, but never hoe or earth up when the foliage is moist or wet. The late crop may be set out in July.

QUANTITY OF SEED. One ounce should produce 500Q to 7500 plants, 4 ounces enough plants for an acre.

3686 Golden Detroit A selection from Dwarf Golden Self-Blanching and eliminates the faults. Plants heavy, compact and full hearted. Especially valuable for shipping. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50.

3681 Golden Plume or Wonderful Golden Plume or Wonderful derful is really a wonderful new celery. It grows quickly, produces semi-dwarf, heavy stalks, thicker than Self-blanching, with a well blanched solid heart. The color is a beautiful golden, and the flavor is par excellence. Not a winter keeper or long shipper, but excellent for nearby markets and home garden. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50.

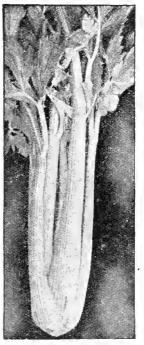

3682 Dwarf Golden Self-Blanching of dwarf compact growth, with thick, heavily ribbed stalks, which blanch easily to a clear waxen yellow. More extensively grown for both home and market than any other variety. Original strain, best quality. Pkt. Sc; ½ oz. 25c; oz. 10c; ¼ lb. \$1.25; lb. \$1.00.

3684 White Plume most easily blanched celery in cultivation, hence its popularity. Foliage light green shading to nearly white at tips. Blanches silvery white. Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.50.

3685 Giant Pascal A standard fall and winter variety of vigorous, compact growth. Stalks short, thick and broad. Excellent quality for home use, but too tender to stand shipping. Golden yellow heart, and fine nutty flavor. Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.25.

3693 Celeriac, Large Smooth

Prague Supering Super

Golden Plume

Cress

3749 Cress Curled or Pepper Grass. Grown extensively as a small salad plant. Sow thickly in rows 1 ft. apart. Ready for table in 30 days so make successive sowings. The leaves are finely cut and feathery with a very refreshing pungent flavor. Pkt. 10c; oz. 15c.

3750 Water Cress A hardy perennial water plant, the leaves of which are used for salads or garnishing. May be grown in a stream of water or small pond. Full directions are printed on each packet. Pkt. 10c; ½ oz. 25c; oz. 40c.

3746 Corn Salad or Fetticus A delicious salad fall, winter or spring use. The plant somewhat resembles Spinach, and is just as easy to grow, being of quick growth and hardy. The leaves form a compact rosette. The leaves are made tender by frost. Serve as Lettuce, or cook like Spinach. One ounce will sow a 50 foot row. Pkt. 10c; oz.20c; ¼ lb. 60c.

³⁷⁸¹ Dandelion Improved Thickleaved

This sort is much better than the common cultivated Dandelions, being very thick in leaf and of a deep green color. Grows into an upright compact tuft of leaves, easy to bunch and tie for blanching. Pkt. 10c; oz. 50c; 14b. \$1.50.

Giant Paschal

3700 Golden Bantam The good qual-Bantam is too well known to need long description. Our sales of the past few years show it to be the most popular variety we list. Ears 6 inches long, with 8 rows of broad kernels as sweet as honey. 14 1b. 12c; lb. 35c; 3 lbs. 90c.

3708 Golden Giant This valuable Golden Sweet Corn was introduced to combine size and earliness. It is a cross between Golden Bantam and Howling Mob, producing heavy stalks, usually carrying two 12 to 14 rowed ears. 41b. 12c; lb. 40c; 3 lbs. \$1.00.

3697 Wonder Bantam A larger, more prolific type of the favorite Golden Bantam. Ears are 8 to 10 inches long and are borne higher on a sturdy stalk. 14 lb. 12c; lb. 40c; 3 lbs. \$1.00.

3710 Whipple's Early Yellow This variety is shown on the front cover. Ears large, 8 to 10 inches long having 14 to 16 rows of deep, tender kernels of very fine eating quality. Ready to use only a few days later than

Golden Bantam—larger eared and more productive. 1/4 lb. 15c; lb. 45c; 3 lbs. \$1.15.

3719 Golden Evergreen The product of a between Golden Bantam and Stowell's Evergreen, this variety combines the fine flavor and quality of the Bantam with the size and uniformity of the Evergreen. Producing 7 to 8 inch ears of 12 to 14 rows of rich golden yellow kernels. 4 lb. 15c; lb. 45c; 3 lbs. \$1.15.

Pop Corn

CULTURE—Grown like Sweet Corn, but may be planted closer in the row, or hills 18 to 24 inches apart. Allow the ears to mature thoroughly before cutting. Store on the ear in a cool attic or barn, away from rats or mice. One pound will plant 500 to 600 hills.

3726 Japanese Hulless Australlan Hulless or

Japanese Hulless
Tom Thumb. A dwarf-growing corn, a heavy yielder of attractive ears, peculiar in form, being nearly as thick as long. The kernels are similar to the best strain of White Rice, only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality, fine flavor and absence of hull or shell Seed Stock. 1/4 lb. 10c; lb. 25c; 3 lbs. 65c.

Seed Stock. 4 lb. 10c; lb. 25c; 3 lbs. 65c.

3732 South American Mushroom

A sensational new variety of Pop

Corn, that has met with immediate popularity. Of vigorous growth, 6 to 8 feet tall

producing two and often three ears, 8 to 9 inches long of deep orange kernels, smooth
and round, which pop larger than any corn known, and of a rich creamy yellow, deliciously tasty. Seed Stock. 4 lb. 10c; lb. 25c; 3 lbs. 65c.

3734 Golden Baby Rice or Golden Hulless. An excellent small-kerneled
variety of pop corn which pops entirely hulless,
large and flaky. Of finest quality and flavor. Ears medium short and stocky with closely
arranged kernels of a rich golden yellow color. Seed Stock. 4 lb. 10c; lb. 25c; 3

lbs. 65c.

3728 Mammoth White Rice Standard white variety, early and heavy yielding but in quality, superseded by Japanese Hulless, Seed Stock. 1/4 lb. Se; lb. 25c; 3 lbs. 65c. 3730 Queen's Golden Standard yellow kerneled variety that pops out creamy white. Seed Stock. 1/4 lb. 10c; lb. 25c; 3 lbs. 65c.

DO YOU KNOW WHY HOME GROWN SWEET CORN ALWAYS TASTES BEST? Because within a few hours after the tender ears are pulled off the stalk they begin to lose their sugar and they rapidly deteriorate in flavor. You can seldom buy absolutely fresh sweet corn—so unless you have grown your own, you probably do not realize how deliciously sweet it can be.

Culture. A constant supply of sweet corn may be had from your garden by planting a succession of early, midscason and late varieties and by planting each of the kinds every week or ten days. Plant after all dauger of frost is past and the ground is warm, in rows 2 to 3 feet apart and 8 to 10 inches apart in the row. Corn likes frequent cultivation until the ears are formed.

Quantity of Seed. 1 lb. will plant about 300 hills or 400 to 500 feet of row, 12 to 15 lbs. will plant an acre,

3713 Bradley's Golden Early Market The earliest large true sweet corn of golden color. The ears are of good size, 12 rows, 7 to 8 inches long, well filled with broad butter-yellow kernels. Plenty of good qualities-early, yellow, large and delicious. ¼ lb. 15c; 1 lb. 45c; 3 lbs. \$1.15.

Yellow Varieties

3705 Golden Gem or golden eared corn, being one week earlier than Sunshine, of more dwarf habit and producing a sweet, 8 rowed ear equal in size to Golden Bantam, although two weeks earlier. [4]b. 15c; lb. 50c; 3 lbs. \$1.25.

3701 Early Golden Sunshine

Mayflower

3712 Kingcrost Golden
Bantam
See Novelty
page 43.
All-American 1934.

Larry Colden Sunshine
Has good sized 12 rowed ears 7 to 8 inches long and is one week to 10 days earlier than Bantam. Sunshine was developed at North Dakota Experiment Station, where earliness and hardiness are necessary qualifications. 1/4 lb. 12c; lb. 40c; 3 lbs. \$1.00.

Listing of Varleties. We have listed all the varieties of sweet corn in the order of earliness. Of course the length of time from planting to the edible stage varies with conditions, but the listing is as accurate as possible.

White Varieties

3696 Early Mayflower
The ears are surprisingly large for an early variety, averaging 10 rows of the tender sweet kernels and about 7 inches long. It is of excellent quality. 1/4 lb. 12c; lb. 40c; 3 lbs. \$1.00.

3698 Mammoth

White Cory The old favorite extra early sweet corn. Ears 10 to 12 rowed, 7 to 8 inches long, fairly sweet, tender and white. Stalks about 4 feet high, usually producing two nice ears on each stalk. 4 lb. 10c; lb. 30c; 3 lbs. 80c.

Golden Bantam

3711 Howling Mob A large eared, early eorn of fine quality. Usually producing two ears on stalk. Ears 7 to 9 inches long with 12 to 14 rows of kernels. Pure white and very sweet. 1/4 lb. 12c; lb. 35c; 3 lbs 90c. 3 lbs. 90c.

3 lbs. 90c.

3709 Black Mexican By many considered the tenderest and sweetest of all. Cooks pure white while young and tender, turning to bluish-black when ripe. Ripens medium early. 4 lb. 12c; lb. 35c; 3 lbs. 90c.

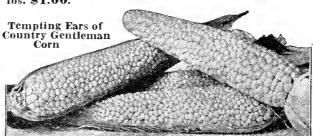

3720 Early Evergreen A very desirable home and market garden sort about one week earlier than Stowell's Evergreen. Ears average 7½ to 8 inches long, with 14 to 16 rows of white kernels, deeper and slightly narrower than Stowell's. 4 lb. 12c; lb. 40c; 3 lbs. \$1.00.

3716 Country Gentleman Or "Shoe known variety which is par excellence when quality is

known variety which is par excellence when quality is desired. The kernels are so deep that there is little room left for cob. Market gardeners who supply hotels and high class restaurants depend on this for their main crop. The ears are 6 to 7 inches long, small white cob. 1/4 lb. 15c; lb. 45c; 3 lbs. \$1.15.

3718 Stowell's Evergreen Select Strainmain crop variety, much used for the home garden, market and canning. It is very tender and sugary, remaining in condition a long time. Our stock is the true deep, broad kerneled strain. 1/4 lb. 15c; lb. 45c; 3 lbs. \$1.15.

true deep, broad 31bs. \$1.15.

New Hybrid Sweet Corns
We are now able to offer for the first time, new strains of Hybrid Sweet Corn that are the results of many years of experimental crossing and breeding.

Increase Yields 50% or more

The advantages to you in planting Hybrid Corns are briefly as follows: They produce vigorous sturdy and disease resistant plants, no weak plants, no nubbins. These desirable features enable this kind of corn to outyield the standard varieties under all

of corn to outyield the standard varieties under an sorts of conditions.

The stalks are very uniform and there is a much larger proportion of marketable ears of even size and shape. The uniformity and vigor of the plant growth means uniform maturity so that the gardener can harvest the crop with a minimum of importure or over rine ears. immature or over ripe ears

We recommend the following varieties:

3699 Golden Cross Bantam A true hydroduced by the Purdue Experimental Station. The stalks are sturdy. Ears $7\frac{1}{2}$ to 8 inches long, 10 to 12 rowed and are extremely uniform. Highly resistant to Stewart's disease. 4 lb. 15c; 1 lb. 50c; 3 lbs. \$1.25.

3707 Top Cross Sunshine A much improved strain of Sunshine. Not quite as early as standard Sunshine but a few days earlier than Golden Cross Bantam. Produces a 12 rowed ear of excellent quality. 4 lb. 15c; 1 lb. 50c; 3 lbs. \$1.25.

3706 Top Cross Bantam See Novelty page 43

3712 Kingcrost Bantam See Novelty page 43

New York Spineless Egg Plant

CULTURE—Egg plant likes rich moist soil. Start seed early in hot beds or boxes and transplant once before setting out in the open ground, which should not be until the ground is thoroughly warm. In the garden the plants may be set 2 feet apart in the rows which are 2½ to 3 ft. apart.

QUANTITY OF SEED. One ounce should produce 1500 to 2000 plants, 4 ounces enough for an acre.

3784 New York Spineless The best main crop variety about 10 days later than Black Beauty, but larger and more prolifie. Each plant often bears 8 to 10 nice "Eggs" of deep rich purple. Fruits perfectly spineless. Our strain of seed Is of Superfine Quality. Pkt. 10c; ¼ oz. 18c; oz. 50c; ¼ Ib. \$1.50.

3785 Black Beauty so best for the Northern States. A dwarf growing variety bearing fruits 2 to 3 lbs. in weight. Holds the dark purple color for a long time. About 10 days earlier than New York and not quite as large. Pkt. 10c; ¼ oz. 18c; oz. 50c; ¼ lb. \$1.50.

Floyd Bradley's Garden "How" Book Free if your order amounts to \$2.00 or more—It will help you.

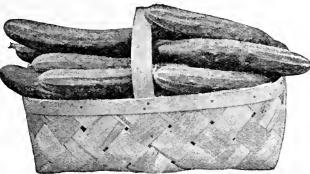

A Basket of Improved White Spine

Two Fine New

Cucumbers

2765 Longfellow Extra Long Slicer. An excellent new variety, long, slender dark green. Under ideal conditions, this variety will grow 12 to 14 inches long by 2½ inches in diameter. The deep green color held well. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50.

Splendid Slicer

Extra Long Green Cucumber

BestPickling Cucumbers

3780 National Pickling A superior strain of pickling cucumber developed by the Michigan Agricultural College under the supervision of the National Pickle Packers Assn. Fruits straight and symmetrical, 6 inches long when mature. Pkt. 10c; oz. 25c; 1/4 lb. 80c; lb. \$2.50.

3775 Jersey Pickle Very prolific and exceed-planted for pickles. The fruits are short, smooth, light green and of excellent quality. We recommend Jersey Pickle for the home garden, as it is a good slicer as well as a pickler. Has tapering ends. Pkt. Sc; oz. 25c; 1/4 1b. 75c; lb. \$2.25.

3776 Chicago Pickle Meets the most exacting pickle makers. It is the right size, shape and color, and is a heavy yielder. Has square ends. Pkt. Sc; oz. 25c; 1/4 lb. 75c; lb. \$2.25.

3774 Express Pickler Express is the earliest picking cucumber, bearing a remarkable number of small uniform fruits. Only 3½ to 4 inches long when fully grown. Pkt. Sc; oz. 25c; ¼1b. Soc; 1b. \$2.50.

3777 Boston Pickle Green Prolifie. A short fairly smooth symmetrical variety, extremely early and productive. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.25.

DO YOU LIKE SLICED CUCUMBERS IN

HOT WEATHER? When you can go out in your garden and pick a few nice slicers just before meal time, they taste ever so much better than those purchased outside.

CULTURE—A light warm soil is best for Cucumbers, although they will do very well in most any good well drained garden soil. After all frost danger is past sow the seed in hills 4x4 or 4x6 feet apart. Cover ½ inch deep planting 8 to 10 seeds in each hill. Later when the danger of insects is over remove all but 3 or 4 of the strongest plants.

QUANTITY OF SEED. One ounce should plant

Standard Slicing **Varieties**

3756 Improved White Spine The standard universally satisfactory variety more extensively grown than any other. Normal size 6 to 7 inches long and 2½ inches in diameter. Pkt. 5c; oz. 20c; ¼ lb. 70c; lb. \$2.00.

3758 Davis Perfect Long, slim, smooth and especially attractive for its dark green color. Fruit 10 to 12 inches long and the tender, sparkling, white flesh makes it most desirable for slicing for the table. Pkt. Sc; oz. 25c; 1/4 lb. 75c; lb. \$2.50.

3761 Early Fortune The fruits are of good length, rich dark green, well shaped and with thick white flesh and small seed cavity. A great improvement over White Spine in length and color, retaining its color long after picking. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.25.

3762 Long Green Improved A model size, form and color. Uniformly long and smooth, deep green in color. A money maker for the market gardener and a universal favorite for home use. Fruit 12 to 15 inches long, flesh solid and crisp with few seeds. Extensively planted as a pickling variety as well as a slicer. Pkt. 10c; oz. 30c; 41b. 90c; lb. \$3.00.

Chicago

Cucumber Longfellow

Hybrid White Spine

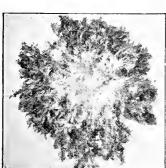

Endive

3794 Green Curled The best known variety.

during autumn and early win ter. Also may be served like Spinach. Seeds should be sown in July and transplanted in rows in last of August. For early summer use, sow seed in early spring. Blanching may be done by tying up the outer leaves or by covering with straw.

Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25.

3795 Batavian Broad Leaved Full Hearted. Escarolc Broad, deep green

Green Curled Endive

Broad, deep green waved leaves and thick creamy white midribs. Innerleaves form a cluster head which blanches white, crisp and tender. A dis-tinctly improved type of Batavian with very com-pact full heart of fine quality. Pkt. 10c; oz. 20c; 1/41b. 45c; lb. \$1.25.

Vegetable Seeds Market Gardeners See Page 80

Helpful Chart Vegetable Planting See Page 42

3826 Dwarf Green Curled Quickly grows a mass of tender fleshy green leaves that are popular for boiling greens. The plant is quite hardy and freezing seems to improve the quality. The plants with their moss curled, rich green leaves are ornamental to the garden also. Start some seed in early spring and another planting in midsummer. Pkt. Sc; oz. 12c; 1/4 lb. 35c; lb. \$1.10.

3827 Tall Green Curled Scotch Produces an abundance of dark green heavily curled and wrinkled leaves of excellent quality. Grows 24 to 30 inches tall. Pick the lower leaves as they mature allowing plant to grow on to furnish a continuous supply. Pkt. 10c; oz. 15c; 1/4 lb. 40c; lb. \$1.25.

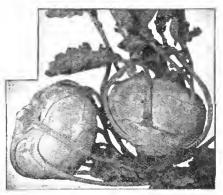

Kale, Dwarf Green Curled

Forms turnip-like bulbs on the stem above the ground. These grow quickly and should be used while young and tender when they are very sweet and nutritious. Simply sow in rows covering $\frac{1}{2}$ inch deep, and thin the plants to stand 6 or 8 inches apart.

3831 Early White Vienna The bulbs are green, early and tender, with small tops—a good forcing strain. Pkt. 5c; oz. 20c; 14 lb. 70c; lb. \$2.00.

3832 Early Purple Vienna The bulbs are surface; the flesh light green. A few days later than white Vienna, a little larger and more heat resistant. Pkt. 10c; oz. 20c; 14 lb. 70c; lb. \$2.00.

Kohlrabi, Wbltc Vienna

A single head of Grand Rapids Lettuce. Large but crisp and tender.

New York or Wonderful

Lettuce

CULTURE—To be of best quality, Lettuce should be quickly grown. It likes plenty of moisture and fertility and will stand cool, even quite cold soil and weather. Sow seed thickly covering 1% to 1/4 inch deep in rows 12 to 16 inches apart, thin as soon as well started to stand 6 to 8 inches apart. Heading varieties need slightly more room and transplanting is beneficial. Plants for extra early may be started under glass or in a box in a sunny window. Any sunny corner of the garden may be prepared early and a little lettuce started. QUANTITY OF SEED. One ounce should sow about a 125 ft. row and produce around 3000 plants, 3 lbs. will produce enough for an acre.

Curled or Loose Leafed

(Black Seed). In our trial grounds each season this is the first lettuce to reach edible or marketable stage. The big loose heads with bright green crinkled and curled leaves are very attractive, tender and crisp. Used almost exclusively for forcing during the winter, as well as for early crops outdoors. The heads remain fresh several days. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.20.

3840 Early Prize Head Red Let tuce." (White Sced). One of the best of the thin-leafed varieties for the home garden. Leaves very large, curled or crimped, bright green, tinged with brownish-red at the edges, tender, crisp and sweet. Pkt. 5c; oz. 15c; 1/4 lb. 40c; lb. \$1.20.

(White Seed). One of the most satisfactory varieties for early outdoor planting, forming large, loose heads of an attractive light yellowish green. The leaves are ruffled and curled, and always very tender. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.20.

3842 Black Seeded Simpson A standard with bunching, non-heading, crisp, light yellowish green leaves. Grows quickly and is of fine quality. Pkt. 5c; oz. 15c; 4 lb. 40c; lb. \$1.20.

Crisp Heading Varieties

The varieties of this group have distinct brittle or crisp glossy texture in the leaves and the leaves usually have curled edges.

Cos or Celery Lettuce

3849 New York

Seed. One of the largest varieties grown, forming immense heat-resisting heads, during the summer months.
Outer leaves dark green, but the heart blanches white, crisp and tender. This variety is shipped and sold by produce men and grocers as Iceberg. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.75.

3851 Improved Hanson White Seed. In table quality the Hanson is perfection itself, being free from bitter taste. Forms medium sized, tender, crisp heads. Leaves curly with fringed edges. Pkt. Sc; oz. 15c; ½ lb. 40c; lb. \$1.20.

3853 True coberg White Seed. A large crisp heading variety, very firm and solid. Leaves light green, fringed and wavy with edge tipped bronze. The heart is white. Of very good flavor and excellent for home garden but not a shipping variety Pkt. Sc; oz. 1Sc; ¼ lb. 50c; lb. \$1.40.

3911 Mushroom Spawn

American Spore Culture, Brick Form

This spawn is produced from original spore culture under the French process which permits the indefinite reproduction of selected varieties without dilution of the strain, and free of any trace of parasitic disease. Each brick weighs 1½ to 1½ lbs. and will spawn about 10 square feet of bed. Full cultural directions are supplied with each Brick. We offer the cream white variety which is the preferred. Prices: 1 brick 45c; 5 bricks \$2.00; 10 bricks \$3.50 postpaid.

Easy To Grow

This Book "Modern Mushroom Culture'

by J. F. Styer a modern work on the subject of mushroom growing. \$1.60 per copy.

Heading Lettuce

Cabbage or Butterhead Varieties The varieties of this group have leaves f thick, buttery texture, with straight or lain edges.

of thick, buttery texture, with straight or plain edges.

3854 Creamy Hearts A cabbage heading variety with thick, fleshy light but bright green leaves. Hearts golden yellow, crisp and buttery. Heads somewhat conical when young but large and round when mature A fine producer and sure-header, very fine for home garden or market use. Pkt. 10e;0z. 18c; 1/4 lb. 50c; lb. \$1.40.

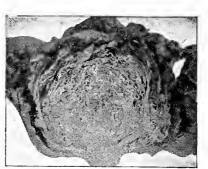

3847 Temley Evergood White Forms a head very quickly and has tender, golden yellow inner leaves and heart. It is certainly delicious to eat. The headis medium small but hard and compact. It heads well under almost all conditions. Pkt. 5c; oz. 15c; 1/4 lb. 40c; lb. \$1.20.

3848 Big Boston fine big, tender, cabbage-heading lettuce. Sure to please the most critical grower. The most popular of all head lettuces. The heads are medium large, finely shaped with a slight tinge of brown on the outer leaves. Pkt. 5c; oz. 15c; 1/4 lb. 40c; lb. \$1.20.

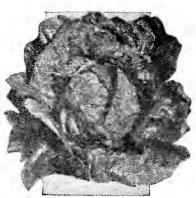

3852 California Cream Butter (Royal Summer Cabbage or German Rutter.) (Black Seed.) A reliable heading

3852 California Cream Butter (Royal Summer Cabbage or German Butter.) (Black Seed.) A reliable heading variety. The heads are a rich, creamy yellow inside and of a tender buttery flavor. Outer leaves green, spotted brown Stands hot dry weather remarkably well. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.20.

3855 May King The earliest heading lettuce. A standard for greenhouse forcing and doin, equally as well out of doors in early spring. Very compact heading, of light yellowish green tinged reddish-brown and the heart blanching a rich golden yellow of excellent quality. Pkt. 5c; oz. 15c; ¼ lb. 40ce lb. \$1.20.

Creamy Hearts

Temley Evergood

Jig Boston

Cos, Romaine or Celery Lettuce

An entirely distinct type of lettuce with stiffly upright leaves and prominent mid-ribs.

3857 Paris White or Trianon A medium folding variety with smooth dark green leaves. Heads compact and solid with well blanched interior. Crisp, sweet and tender. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

All-American Gold Medal Popular in the South Course and Spring greens. Pkt. 10c; oz. 15c; ¼ lb. 35c;

3912 Mustard Spinach" Tendergreen"

A Japanese plant of the mustard family which has become popular with gardeners for its extremely quick production of edible crop of excellent, mild, tender, mustard-like greens. The large green leaves are ready for use in 4 weeks from planting of seed, and are prepared and used the same as Mustard or Spinach greens. A planting every

greens. A planting every three or four weeks will in-sure a continuous supply of greens throughout the greens throughout the season. Pkt. 10c; oz. 15c. Also listed under Spinach.

3861 American Flag Leek This vegetable belongs to the onion family and is a fine fall and winter substitute for green onion. The leaves are flat and the stems large and bulbóus. Pkt. 8c; oz. 15c; ½ lb. 50c; lb. \$1.50.

Leck, American Flag

3860 Mixed Lettuce This is certainly a very interesting as well. Both loose leaf and heading varieties. Pkt. 5c; oz. 10c; 1/4lb. 30c; lb.\$1.00.

Aromatic & Pot Herbs

Most of the varieties of herbs thrive best in sandy soil and some are stronger and better flavored when grown on that which is rather poor. Sow as early as the ground can be made ready, in drills

Sow as early as the ground can be made ready, in drills sixteen to eighteen inches apart, taking pains that the soil is fine and pressed firmly over the seed, or they may be planted as a second crop—the seeds sown in beds in April and the plants set out in June. Most of them should be cut when in bloom, wilted in the sun and thoroughly dried in the shade.

3815 Mammoth Dill An annual herb of finely cut fern-like foliage growing to 2 or 2½ feet. Seeds are much used for seasoning. Most popular for making Dill pickles. Pkt. 10e; oz. 15e; ¼ lb. 35e; lb. 90c.
3811 ANISE. An annual. Seeds used medicinally and in cooling condiels.

3812 SWEET BASIL. An annual. The leaves and

tender tips used in soups, stews and sauces.

3813 CARAWAY. A well known herb. Seeds used in confections, cakes and also medicinally.

3814 CORIANDER. A hardy annual. Seed used for flavoring confections and for garnish-3816 SWEET MAJORAM. The leaves and tender shoots used for flavoring either when green or dried. 3817 SAGE. A hardy per-

ennial Leaves used either green or dried for flavoring.
3818 SUMMER SAVORY.

The young shoots, leaves and flowers are used for seasoning, especially with string beans.

Emcrald Gem

Muskmelons—Cantaloupes

CULTURE—Muskmelons delight in warm, rather rich soil, and it will pay you to dig in each hill a shovelful of well rotted manure. Do not start outside until the soil and weather are warm—so for extra early crops plant some seed in the hotbed or window box. When it is warm enough to plant outside make the hills 3x4 ft, apart. Put ten or a dozen seeds in each hill, covering about 1 inch, and when the plants are well up thin to three or four plants.

Melons left on the vines until they are dead ripe are immeasurably better than any you can buy in the stores. When ready the melons should be a little soft and they will part readily from the stem.

QUANTITY OF SEED. One ounce will plant about 60 hills, 2 to 3 lbs. an acre.

3864 Golden Lake Champlain

Golden Champlain

The Golden Lake Champlain is without question the earliest yellow fleshed melon on the market today. Its vigorous growth, productiveness, hardiness and good quality have been yellow, deep and so temptingly sweet. In shape nearly round—medium size and heavily netted. Pkt. 10c; oz. 15c; ¼lb. 40c; lb. \$1.25.

3865 Golden Hearts Here is a melon to make your mouth water, the deep golden salmon flesh is so sweet. The melon is

medium small, the size much in demand for the fancy hotel trade, averaging 5 to 6 inches in diameter, yet heavy because of the thick flesh and small seed cavity. It ripens right down to the rind. Often there will be as many astwelve melons to the vine.

Pkt. 10c; oz. 15c; 4lb. 40c; lb. \$1.25.

3874 Benders Surprise A popular for the home garden as well as for the market growing. When ripe, skin is of light greenish yellow and the flesh is rich salmon color, thick and of fine eating quality. Melons are of good size, of quite uniform oval shape and ripen early. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.50.

Cream Sometimes called the Queen of Mclons. One of the best known and most desirable melons to plant. Size medium, large, oval, deeply ribbed. Color dark green, with lighter bands between the ribs, Flesh very thick, orange salmon, and of superb quality. Pkt. 5c; oz. 15c; 14 lb. 40c; lb. \$1.25.

3870 Extra Early Osage Our strain for the gardener who wants the top prices for the earliest Osage, or who wants the first Osage on his own table. A week earlier than Miller's Cream, a trifle smaller and just as good quality. Pkt. 5c; oz. 15c; '4 lb. 10c; lb. \$1.25.

3879 Ohio Sugar Sweetest green fleshed Mclon. Ohio Sugar is really a green fleshed Tip Top and the best to eat of any green fleshed melon in the market. The flesh is very thick, tender, yet firm and sugary. The melon is round or slightly oval, distinctly ribbed and netted. Pkt. 5c; oz. 15c; 1/4 lb. 40c; lb. \$1.25.

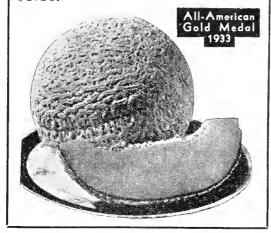

3872 Sugar or Honey Rock

3878 Rocky Ford The best known green green, thick, juicy and of delicious flavor. Our seed is Northern grown, insuring early maturing crops. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

The Honey Dew is sometimes called a winter melon as it matures 3 to 4 weeks later than the other varieties and it will keep for quite some time in storage. It is not adapted to short seasons but where it can be grown to maturity it is certainly delicious. The fruit is quite large, 8 to 10 lbs., nearly round, smooth skin, color almost white turning to a light lemon-yellow as it ripens. Pkt. 5c; oz. 15c; 1/4 lb. 10c; lb. \$1.25.

A well named melon with deep orange flesh of a delightful flavor that must be eaten to be fully appreciated. Fruits are oval, medium in size, not ribbed but finely netted. Flesh is deep and well colored to the rind. Rind is extremely tough and the flesh firm making it a very fine market melon and one that will hold well on the vines until fully ripe. Pkt. 10c; oz. 1Sc; 1/4 lb. 50c; lb. \$1,50.

³⁸⁷⁶ Imperial Muskmelon

40c; lb. \$1.25.

Golden Hearts Just the right size for the table

All-American
Award of Merit
1935

A luscious new melon with orange flesh, netted yellow fruit of Rocky Ford size and of excellent flavor and texture. It can be vine-ripened and still keep indefinitely, making it a splendid melon for both home and market gardeners. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

3866 Emerald Gem Grows just the right size for your table, and is sweet as honey. The melon is not large, but very prolific and early. In shape it is round, slightly flattened at the ends. Skin emerald green under the netting. Flesh bright orange-yellow. Pkt. 5c; oz. 15c; 1/4 lb. 40c; lb. \$1,25.

Halbert's Honey

agon Wondermelon Improved Kickley's Sweets. Best for general use. Shape and color of Kleckley's Sweets but larger, tougher, stronger rind and of unsurpassed sweetness and flavor. You will like it Medium early. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 75c.

3902 Stone Mountain New, of finest qual-sweetest of all large sized melons. Round, dark green, with medium thick rind and flesh of rich crimson, solid with medium thick rind and flesh of rich crimson, solid and free from stringiness. Prolific, matures in 90 days. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

3895 Kleckley's Sweets A better melon Kleckley's Harder rind, suitable for short distance shipping or market and of uniformly large size. Exceptionally sweet and luscious, crisp and of bright scarlet color. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 75c.

3898 Halbert's Honey Medium large, oval, bright crimson, sweet and melting, without trace of pulp. Rind very thin, flesh ripens uniformly throughout. White seeded. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

3900 Tom Watson One of the old favorite its popularity. Long green, heavy and of large size. Flesh light red and of fine quality. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c.

SLUG SHOT-lb. for 25c. Will Destroy Melon and Cucumber Beetles.

Watermelons

Of late years some very early varieties have been introduced fully equal to the late ones in quality. Even in the northern states it is now possible to grow your own watermelons. Early varieties ripen in about 75 days.

CULTURE:—Watermelons are grown very much like Muskmelons, but the hills require more space, 6x6, or 6x8 ft. After the soil and weather is warm drop a dozen seeds in each hill, covering one inch deep and later thinning out to the three strongest plants. Cultivate as

3894 Cole's Extra Early Also called Harris riety to grow where seasons are short as it is ready to eat 10 days earlier than the late varieties like Tom Watson. Very hardy and productive, of medium size and nearly round. Skin mottled dark and light green, flesh dark red and very sweet. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c. 3907 New Winter

Round, pale yellow when ripening, bright red, sugar-sweet flesh. Take the melons from the garden before frost and store in a cool cellar and they will keep until Thanksgiving Day. Pkt. Sc; oz. 12c; 1/4 lb. 30c; lb. 90c.

Cole's Early

The Name

3908 Citron, Red Seeded Make delicious preserves, Cultural directions printed on packet. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c.

Peanuts

CULTURE—Plant the same time as corn, in rows 2½ ft apart. Drop the shelled nuts 8-10 in. apart, cover 1 in. deep. When the plants are nearly full grown throw earth up to them. This will cause the nuts to

3948 Extra Early Spanish With this vable even in the North to mature a nice crop of peanuts. The nuts are not extremely large but are solid and sweet. Plant on light sandy soil in full sunshine. Pkt. 10c; 1/4 lb. 20c; lb. 50c.

Wondermelon

Prizctaker and Red Wethersfield

Onion Seed

DO YOU LIKE ONIONS? There is no reason why you cannot grow plenty for early bunching as green onions and the big bulbs for cooking in fall and winter also. A small space will yield lots of onions and they are easy to grow. The first requisite is good seed, and the second, early sowing. Get your onion seed in as soon as the soil is workable.

CULTURE—Onion seed should be sown as early in the spring as the ground can be worked as they willstand considerable cold weather. Cover in rows \(\frac{1}{2}\) to \(\frac{1}{2}\) inches apart. Thin the young plants to stand about 2 inches apart or more, depending on the variety and the richness of the soil. Onions like a rich moist loam and will develop more and larger bulbs per foot on that kind of soil.

QUANTITY OF SEED. One ounce should sow a 150 ft. row, 4 to 5 lbs. per acre.

White Portugal

Yellow Varieties

3913 Sweet Spanish or Valencia

A variety that will grow immense bulbs in your own garden as tender and sweet as the Spanish Onions that are imported for you. This new onion is globe shaped with light yellow skin and pure white flesh, mild and sweet. A much better keeper than the original Spanish types. From seed planted directly outdoors you can grow bulbs of great size. You can also start the seed inside in flats, They transplant very casily. Pkt. 10c; oz. 40c; 41b. \$1.25; lb. \$4.00.

3914 Prizetaker A splendid large growing or home use. With favorable conditions they may be grown from seed to weigh two pounds or more. Handsome straw-yellow skin, resembling the imported Spanish Onion. The flesh is mild and tender. Pkt. Sc; oz. 30c; 1/4 lb. \$1.00; lb. \$3.00.

3924 Ebenezer or Japanese An excellent producing sets, exceptional keeping quality. The bulbs are deep but flattened and of medium size. Dark yellow skin, with firm flesh Pkt. 5c;oz. 30c; 1/4 lb.\$1.00; skin, with fire lb. \$3.00.

³⁹²⁷ Yellow Dutch or Strasburg The full

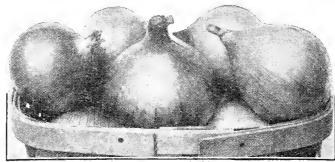

grown onions are bright yellow bulbs, somewhat flattened, with mild, sweet flesh and fine keeping qualities. A most popular variety for growing yellow onion sets. Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.25.

Three Splendid Yellow Globe 3918 Yellow Globe Danvers lar variety

is very extensively grown for market, in the great onion growing sections. The bulbs are flattened, globe-shaped, of good size, and bright straw-yellow in color. Flesh is white, tinged yellow. Slightly earlier than Southport. Pkt. 10c; oz. 40c; ¼ lb. \$1.25; lb.

3922 Ohio Yellow Globe This type is so named because it helped to make sections of Ohio famous for Onions. It is almost perfect globe sometimes slightly oblong in upper half and flattish at the bottom. The color is a pure deep yellow. Has firm hard flesh and excellent keeping qualities. This type is popular all over the country. It is identical with Michigan Yellow Globe, A trifle later than Danvers.Pkt. 10c; oz. 40c; 1/4 lb. \$1.25; lb. \$4.00.

3923 Southport Yellow Globe An excellent late or main crop variety similar in size and shape to the other Southports, but with bulbs of rich yellow. Flesh is white, of mild flavor and of very fine keeping quality. A very heavy producer of fine handsome bulbs, Pkt. Sc; oz. 35c; 4 lb. \$1.15; lb. \$3.50.

Southport Red Globe

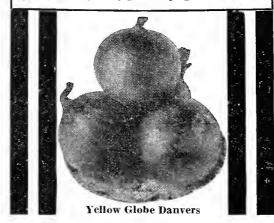

Red Varieties

3916 Red Wethersfield This is a popular variety for winter markets. The skin is deep purplish red; flesh white, sometimes slightly tinged pink; mild and sweet. Pkt. Sc; oz. 30c; ¼ lb. \$1.00; lb. \$3.00.

3915 Southport Red Globe A beautiful large Red Onion for fall and winter markets, being an excellent keeper. Medium size, globe-shaped, slightly oblong, deep purplish red in color. Pkt. Sc; oz. 35c; 1/4 lb. \$1.15 lb. \$3.50.

Southport Globe Onions

The Southport Onions are excellent and dependable general purpose onions for the home or market garden. They are all of fine appearance, excellent quality and especially good keeping varieties.

White Varieties

3917 Southport White Globe

The most attractive white onion grown. Perfect globe shaped, and clear, transparent skin; flesh crisp, fine grained and mild in flavor. Pkt. 10c; oz. 40c; ¼ lb. \$1.25; lb. \$4.00.

3921 White Portugal Or Silver-skin. Of medium size, flattened and pure white and the most widely planted of the white varieties. Flesh fine grained, firm and hard, and long keeping. Much planted for sets. Pkt. 10c; oz. 35c; 1/4 lb. \$1.20; lb. \$3.75.

Onions for bunching or home use, forming fine long white onions of excellent quality and of fine appearance when bunched, but forming no bulb. Pkt. 5 c; oz. 30c; 14 lb. \$1.00; lb. \$3.00.

3929 Extra Early White Barletta

One of the earliest. Largely grown for pickling but also makes a good bunching onion. Bulbs small, almost round at pickling stage, becoming slightly flattened as they mature. Flesh white, mild and sweet. Skin silvery white. Pkt. Sc; oz. 25c; 1/4 lb. 75c; lb. \$2.25.

Onions For Sets

For those who wish to grow their own onion sets from seed, we would recommend the following varieties: Yellow Dutch or Strasburg, which produces, quickly, sets of exceptional uniformity. Ebenezer or Japanese, for smaller yellow sets or Yellow Globe Danvers.

Okra or Gumbo

A very easily grown vegetable that A very easily grown vegetable that produces a large crop of fine healthful food. Okra needs a rich well drained soil to give the best results. Sow when apple trees are in bloom and thin to 10 to 12 inches apart. Okra is excellent either stewed or fried and when used for Gumbo soup is very delicious. An ounce of seed will sow 100 feet.

3933 White Velvet Bears slender, white, fleshy pods, which may be cooked like Asparagus or cut up into soups, stews, catsup, etc. The pods are in the best condition if used when 2 to 3 inches long. Pkt. 10c; oz. 15c; 1/4lb.25c; lb.70c.

Parsley

CULTURE—Parsley seed is slow to germinate and soaking a day before sowing will hasten growth. Cover only ¼ inch deep and do not let the soil crust over the surface. Thin the plants to stand 4 to 6 inches apart, and you can start cutting the leaves as soon as they are sizable. Make several sowings of Parsley seed to have a continual

supply of fresh leaves, QUANTITY OF SEED. One ounce should sow a 150 ft. row. Our standard packets will contain 18 to 1/6 ounce of seed.

3936 Lincoln Green Parsley The finest curly strain of Parsley imfully selected from exhibition plants. For an extra fine curled Parsley you should choose Lincoln Green. The plants are compact. Pkt. 10c; oz. 20c; 1/4 lb. 50c;

1b. \$1.50.

3937 Champion Moss Curled The standard curled leaf variety for garnishing soups or stews. Our strain is extra nice fine curled. Pkt. 5c; oz. 15c; ¼ lb. 30c; lb. \$1.00.

3939 Plain Leaved The leaves are flat and deeply cut, but not curled, and of deep green color. Used for flavoring and drying. The plant is very hardy. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

3938 Turnip Rooted Forms an edible root resembling a small parsnip, which is used in flavoring soups, etc. The foliage is like the plain parsley. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

Parsley, Lincoln Green

This Book Will Help You
4743 1001 GARDEN QUESTIONS ANSWERED by Hottes. Answering everyday garden questions in a practical way, covering practically every field of gardening,
320 pages. Cloth \$2.10. Paper \$1.60.

Parsnip

CULTURE—Parsnips are easily grown though the seed is slow to germinate. The soil should be worked fine and the seed covered not more than $\frac{1}{2}$ inch. Keep the surface moist to prevent the soil crusting over the seed. It is a good thing to sow a little radish seed right in with the parsnip. These come up quickly breaking the soil and marking the row so that cultivating may begin. Thin out to stand 3 inches apart.

QUANTITY OF SEED. One ounce should sow a 150 ft, row, 5 to 6 lbs. an acre.

3944 Large Sugar Improved Hollow Crown or Guernsey. An improved strain of the well known Hollow Crown. Roots are not as long but of greater diameter. Very productive. Large white roots, tender and sweet. Generally considered the best. Then why should we confuse the buyer by listing 3 or 4 other varieties. Pkt. 5c; oz. 10c; 4 lb. 35c; lb. \$1.00.

3945 Short Thick Decidedly with short thick roots, only 6 to 8 inches long in the thickened part. Desirable for shallow soil and easy to pull. Flesh tender and sweet. Pkt. 10c; oz. 15c; ¼ lb. 50c.

1935 Vegetable **Novelties** See Page 43

Large Sugar Parsnips

Garden Peas

PEAS FROM YOUR OWN GARDEN picked only an hour or two before eating are twice as sweet as those you would purchase. Try them and you will be convinced.

CULTURE—A planting should be made every 10 days from earliest spring until hot weather. Another planting in late summer for fall often gives good results. The extra early smooth seeded varieties are hardy and may be planted as early as the soil can be worked, the wrinkled varieties a little later.

a little later. QUANTITY OF SEED. One pound should sow a 50 ft, row, 120 to 180 lbs. an acre.

THE LAXTONIAN GROUP
A group of varieties of comparatively recent introduction. They have very large pods for dwarf varieties and peas of supreme quality.

Perhaps the best of the Laxtonian group. It is a few days earlier than Hundredfold. Pods, 4 inches long, containing 7 to 9 peas. The pods are curved, pointed and of deep green color, 10 to 20 inches tall. This variety will give you edible peasin 8 to 9 weeks after planting. 4 lb. 15c; lb. 45c; 3 lbs. \$1.25

3971 Hundredfold An early large podded dwarf variety, 18 to 20 inches tall. A strain of Laxtonian and to be preferred to Laxtonian or Blue Bantam. The pods are 4 inches long containing 6 to 8 large dark green peas of excellent quality. Ready for picking in about 60 days, only a few days later than Progress. 41b. 15c; 1b. 45c; 31bs. \$1.25.

We have discontinued these varieties considering Laxton's Progress and Hundredfold the best of the group. If you have been growing either one of these three, you may safely shift to Progress or Hundredfold and you will be more than pleased.

3952 May Morn Plant as early as you would Alaska as the seed will stand cold, wet soil. It pods up quickly also, so it is possible to have May Morn in edible stage before any other large podded high quality pea, 15 to 18 inches tall, broad 4 inch pods. 4 lb. 15c; lb. 45c; 3 lbs. \$1.25.

3956 Little Marvel A very fine early dwarf wrinkled pea, with blunt very dark green, 3 inch pods, filled with good quality peas.

3955 Nott's Excelsior The standard early dwarf wrinkled pea A sure group but are very freely produced and they bear well, even under adverse conditions. A very fine, highly bred variety of sturdy, compact, dwarf growth, 15 to 18 in. high. Pods chock-full of luscious peas of unusually sweet flavor. 14 lb. 12c; lb. 40c; 3 lbs. \$1.15.

lbs. \$1.15.

Extra Early Alaska

Record

Hundredfold

3957 Sutton's Excelsior Only a few days later than Nott's Excelsior, but larger podded and of greater total productiveness. 4 lb. 12c; lb. 40c; 3 lbs. \$1.15.

Edible Podded Peas

3981 Mammoth Melting Sugar

Height 4 feet. Well deserves its name. Should be cooked and eaten pods and all, the same as wax beans. Gather the pods when half grown. 4. lb. 15c; lb. 45c; 3lbs. \$1,25.

3982 Dwarf Gray Sugar Height 30 in ches. Similar to Melting Sugar but of dwarf growth, 2¾ to 3 inches in length. The seeds are round and gray. ¼ lb. 10c; lb. 35c; 3 lbs. \$1.00.

Inoculate your Peas, Beans and Sweet Peas

All Legumes-plants that bear their seed in pods form a partnership at the base of the roots with bacteria that are able to secrete nitrogen and give

Peas, Beans and Sweet Peas belong to the Legume family and therefore should be inoculated with NITRAGIN to stimulate the germs. The Bacteria will form on the roots like lumps or nodules, making

more productive crops.

NITRAGIN is an old reliable Inoculator and is used by Agricultural Colleges. It is packed in a rich soil-like granular medium, easy to mix with your seed. Inoculate for Good Yield.

4340 Garden Package Plenty for a 25c

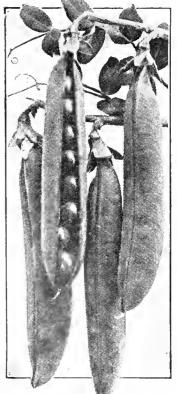

As the varieties in this group grow As the varieties in this group grow 2½ to 3½ feet tall, they are better when given supports on which to grow. As a rule they bear more pods over a larger period than the real dwarf varieties.

3972 Giant Early Cropper

A Fine New Pea. This is an exception to the rule that the larger podded varieties require a longer season as it is practically as early as Alaska, ready with edible pods in about 8 weeks. The seed is smooth and hardy and read he planted extra early. The and can be planted extra early. The pods are large, dark green, 4 inches long and usually contain 7 large, sweet, light-green peas. 14 lb. 15c; lb. 45c; 3 lbs. \$1.25.

3970 Gradus An early variety of very fine quality, bearing very profusely pods averaging 4 inches in length, filled with 6 to 9 peas, exceedingly sweet and tender. Vines are vigorous, growing 3 to 3½ feet tall. Peas are ready to use in 55 to 60 days. Seed large and wrinkled. ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

The New Pea Giant Early Cropper

3969 World's Record An Improved Gradus from which it gets its superb quality, but it is a much heavier and surer yielder. Vines 2 to 2½ ft. tall, pods handsome dark green 3½ inches long. ¼ lb. 15c; lb. 45c; 3 lbs. \$1,25.

3968 Thomas Laxton The best quality and heaviest yielding of all vines 2½ ft. tall. Pods long, broad, handsome, packed full of delicious sweet peas. You can pick enough for a nice meal in short order. Out yields the old Gradus by 25 per cent. ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

Two Smooth Seeded Extra Earlies

3966 Extra Early Alaska or Earliest of All. The hardiest of the extraearly varieties. Very productive. Peas smooth, bluish green, very fair quality. Height 2½ ft. ½ lb. 10c; lb. 35c; 3 lbs. \$1.00.

3967 First-in-Market $\begin{array}{c} \mathrm{Extra-early},\\ \mathrm{smooth} \end{array}$ white seeded, height 2½ ft. Well filled pods 2 to 2½ inches long. ¼1b. 10c; lb. 35c; 3 lbs. \$1.00.

Main Crop and Late Peas 3978 Improved Stratagem Large pods of the Tele-

phone type borne on sturdy vines about 2½ feet tall. An ideal late variety to follow the earlier ones. An excellent home garden and a profitable market variety. The long pointed pods average 4½ inches. ½ lb. 10c; lb. 35c; 3 lbs. \$1.00.

3975 Telephone large light green pods which will measure 4 to 5 inches long and contain 8 to 10 very large peas of delicate light green color and very excellent quality. Vines 4 to 4½ feet tall, very vigorous and productive. A very fine second early variety. ¼ lb. 10c; lb. 35c; 3 lbs. \$1.00.

3977 Dairy or Dwarf Telephone 3977 Daisy or Dwarf Telephone

A dwarf variety ripening somewhat later than Telephone but quite similar in all respects except height of vine and maturing time. Vines about 2 feet tall, bearing an abundance of large full pods of large fine quality peas. Pods 4 to 4½ inches long containing 8 to 9 large dark green peas. ½ lb. 15c; lb. 45c; 3 lbs. \$1.25.

Nott's Excelsior

3974 Alderman, Best Tall Main Crop Height 3½ feet. Of the well known telephone type, but of a darker green color. Very robust and productive. Peas of large size and unsurpassed in quality. Best of the large main-crop varieties. ¼ 1b. 12c; 1b. 40c; 3 lbs. \$1.15.

Two Delicious New Peas

3973 New Giant Wonder A new variety of Pea of similar form and habit to Nott's Excelsior, though even better as it is not susceptible to wilt. Vines grow 15 to 18 inches tall. Pods are plump, straight, blunt-ended, 3 inches long and thickly filled with large round Peas, deliciously sweet and delicately flavored. ¼ lb. 15c; ib. 15c; 3 lbs. \$1.25.

3979 Morse's Market We consider this to be the very best early purposes. The vines are robust, grow 24 to 30 inches tall. Pods 5 to 5½ inches long and 34 to 78 inches broad, straight, pointed, smooth, dark green and well filled with 8 to 11 Peas per pod. Received an Award of Merlt from British Royal Horticultural Society. 14 lb. 12c; lb. 40c; 3 lbs. \$1,15.

Note the mass of nodules

Callfornia Wonder

Perfection Pimiento

Early Giant Pepper

Tomato Salad

Peppers

CULTURE—Pepper seed must be started early in the hot bed or boxes in the house. The plants cannot stand cold and so should not be planted out in the open until May 15th, or all frost danger is past. Space the plants 18 to 24 inches apart each way, and keep well cultivated. Any good garden soil if not too dry will grow peppers. Do not plant hot varieties next to sweet ones.

QUANTITY OF SEED. One ounce should produce 1500 plants, one packet enough for family garden.

Ruby Klng Pepper

3988 California Wonder with the thickest flesh. Exceptionally thick flesh, usually ¼ inch and often ¾ inch thick. It is blocky in shape, square in cross section, 4 inches wide and 4½ inches long. Some specimens weigh as much as a pound, deep green then changing to crinson. It reaches full growth with the late sorts, marketable size fruits are ready with the early sorts. A heavy bearer of fruits of fine quality, being free from pungency, sweet and tender. Pkt. 10c; ½ 0z. 35e; 0z. 65c; ¼ lb. \$2.00; lb. \$6.00.

3995 Chinese Giant An early and prolific shapely fruits are often 5 to 6 inches through and 4½ to 5 inches deep. Fruits are bright green when young, maturing to a rich scarlet. Pkt. 10e; ½ 0z. 25c; ½ 0z. 40e; oz. 75c; ½ lb. \$2.35; lb. \$7.00.

3991 Hungarian Long Hot Wax an early hot variety much used for canning and pickling. A light yellow when young, turning to red when mature. The fruits are 2 to 3 inches in diameter and 6 to 7 iuches long, with thick flesh. Sometimes called "Banana" pepper, Pkt. 10c; ¼ oz. 25c; oz. S5c; ¼ lb. \$2.50.

3992 Small Hot Varieties A mixture of hot hot varieties, excellent for pickling peppers, sauce, Pkt. Sc; ½ oz. 20c; oz. 35c.; ¼ lb. \$1.00.

3989 Early Giant Harris' Early Giant. Not only very large but produces enormous fruits maturing earlier than others of the large varieties. A sweet pepper that will produce big crops even in the northern states where seasons are short. Peppers 5 inches high and 3½ inches thick, deep green turning to brilliant red; flesh thick with sweet, pleasant flavor. Altogether a most valuable market or home garden variety. Pkt. 10e; ½ oz. 30e; oz. 55c; ¼ lb. \$1.65; lb. \$5.00.

3990 Oshkosh A neart-shaped fruits. Plants are of semi-dwarf growth but very productive. Fruits medium sized, rich bright green, maturing to a bright canary-yellow. This is one of the finest salad peppers grown. Pkt. 10c; ½ oz. 30c; oz. 55c; ½ lb. \$1.65; lb. \$5.00.

3985 Perfection Pimiento When ripe the fruit is bright crimson, of medium size and shape, ideal for stuffing. The flesh is very thick; and the fruit is smooth. Pkt. 5c; ½ oz. 20e; oz. 35e; ¼ lb. \$1.00; lb. \$3.00.

3993 Long Red Cayenne Large Well known, early maturing. Fruits 4 inches long, 114 to 114 inches in diameter and tapering. Pkt. Sc; 1/2 oz. 25c; oz. 45c; 1/4 lb. \$1.35; lb. \$1.00.

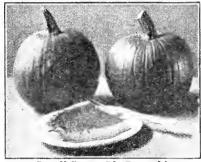

3986 Ruby King We have an improved strain of this popular standard variety. It is a very heavy bearer, thick-meated, and of mild flavor. Fruits average about 5 inches long, dark green when young, turning to ruby red when mature. Pkt. 10e; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35; lb. \$1.00.

3987 Red Chili Grow bushy plants with of waxy yellowish green, changing to rich red. Fruits 2 to 2½ inches long, 3½ to ½ inch thick and tapering. Pkt. 10e; ½ oz. 30e; oz. 55e.

3984 Tomato Salad, Sunnybrook
This pepper is almost like a tomato in appearance, being smooth, nearly round and bright scarlet. It is exceptionally mild and sweet and very thick meated. Pkt. 10c; ½ oz. 25e; oz. 45e; ¼ lb. \$1.35; lb. \$4.00.

3994 World Beater A fine variety in which and large size. The fruits are freely produced, and will measure 3 to 3½ inches through by 4½ to 5 inches in length. Pkt. 5c; ½ oz. 25c; oz. 45e; ¼ lb. \$1.35; lb. \$4.00.

Pumpkins

Small Sugar Ple Pumpkin

CULTURE—Grow same as winter squash. One ounce should plant 25 hills, 8 seeds per hill; about 3 pounds

an acre.

4000 Winter Luxury A very popular and for the home garden, producing abundantly. The fruits are slightly oval in shape, 10 to 12 inches in diameter and weigh 8 to 10 pounds. The skin is golden russet and finely netted. Flesh is thick, sweet and rich creamy yellow. Pkt. 10c; oz. 15c; ¼ lb. 45c; lb. \$1.25.3996 Small Sugar Pie Lest pic pumpkin it requires little description. The fruit is small to medium, with solid fine grained flesh. Pkt. 5c; oz. 12c; ¼ lb. 30c; lb. 90c.

3988 Jumbo or King of Mammoths. Fruit enor-

3998 Jumbo or King of Mammoths. Fruit enormous size—often 150 to 200 pounds. So grow a few for the county fair. Fair quality for pies and great for stock food. Pkt. Sc; oz. 15e; ½ lb. 45e; lb. \$1.25.

3999 Connecticut Field or Big Tom

The standard variety grown so often in corn fields to provide feed for cows. A fair pie pumpkin also. The vines bear well of large pumpkins with hard reddish orange shell. Oz. Se; 1/4 lb. 25c; lb. 75c; 5 lbs. \$3.25.

4753 GARDEN GUIDE. Fourth edition. A delight-4753 GARDEN GUIDE. Fourth edition. A delightful book of 384 pages full of practical information. Chapters devoted to the Flower, the Vegetable, and the Fruit Gardens, also Bulbs, Trees, Lawns, Shrubs, and Water Plants. When and how to plant, prune, spray, harvest, etc. A gem of garden literature. Illustrated. Cloth \$1.60, Paper \$1.05.

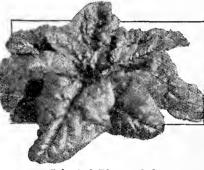

Spinach Selected Strains

Eat Plenty of Spinach There is no more healthful vegetable than Spinach and it is so easy to grow that everyone should plant it.

that everyone should plant it.

CULTURE—Sow the seed in April for spring use, in August for fall use and in September for wintering over. Sow thinly in rows 12 to 15 inches apart, covering the seed about one-half inch; thin the plants to four inches apart in the rows. Spinach delights in cool, moist wether.

QUANTITY OF SEED One ounce should sow a 100 ft. row, 10 lbs.

Sclected Bloomsdale Savory Spinach

4052 Viking

A new Spinach of Outstanding Quality

All-American Award of Merit 1935 Award of Merit
1935
This new Viking Spinach is a meritorious, medium to dark green, longstanding, giant leaved variety that promises to be far above the average in quality. It is comparable to Nobel Giant Leaved, though darker green and larger leaved. Smooth leaved in summer but inclined to crumple in cool weather. Oz. 10c; ¼ lb. 25c; lb. 75c.

4049 Reselected Bloomsdale Savoy

This is a very valuable variety, with vigorous, rapid growing, hardy plants, compact in growth. The leaves are large, thick, fleshy and savoyed or crumpled. It produces its first leaves quicker than any other variety of Spinach. Gives big crop in 6 weeks after early spring sowing outdoors. Oz. Sc; 1/4 lb. 20c; lb. 50c.

4047 Long Standing Bloomsdale $_{q\,uite}^{N\,\,o\,\,t}$ as early as Reselected but stands without going to seed 2 to 3 weeks longer. Heat resistant and with dark foliage. Oz. Sc; ¼ lb. 20c; lb. 50c; 5 lbs. \$2.00.

4045 Princess Juliana Ten days later than Bloomsdale but a distinctly long standing variety, very slow to develop flower stalks. Large, crumpled, rich dark green leaves. Valuable for both spring and fall planting. Oz. Sc: 14 lb. 20c; lb. 50c.

4050 Nobel Giant Leaved The best smooth leaved variety for spring and summer sowing. Leaves extra large, smooth and of good texture. Its season is between Bloomsdale Savoy and Long Standing Bloomsdale. Round Seeded. Oz. Sc; 1/4 lb. 20e; lb. 50c; 5 lbs. \$2.00. All American 1933.

4048 New Zealand Tetragonia or Everonless of Spinach. The only variety that will give you good cuttings of spinach greens all summer. Of fine quality producing its tender leaves throughout the hottest weather without going to seed. This is an entirely distinct species, with smaller leaves, produced in very great abundance. Oz. 10c; ½ lb. 30e; lb. 90c; 5 lbs. \$3.75.

4046 King of Denmark As compared with dale, it is a trifle earlier and remains in condition for use longer. The plants are larger, flatter and more spreading in habit. Oz. Sc; ¼ lb. 20c; lb. 50c; 5 lbs. \$2.00.

An Entirely New Vegetable
3912 Mustard Spinach "Tendergreen" A new vegetable of Japanese origin,
related to the Mustard family. Has a
most delicious flavor, combining the fine qualities
of both Mustard and Spinach.
Chemical analysis of Mustard Spinach shows
plenty of Protein, Mineral Matter, Lime and Iron.
You'll like this new "greens" for its flavor and
healthful qualities. Pkt. 10e; oz. 15e; ¼ lb.
35c; lb. \$1.00.

Extra Select Scarlet Globe

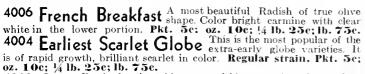

The Finest Radishes

CULTURE—Radishes are easily grown in nearly any soil but to be at their best they should grow quickly. For this purpose a light sandy loam is perhaps the best, rich but not recently fertilized with stable manure. A freshly manured soil produces ill shaped and often wormy roots. Sow as early as soil can be worked ½ inch deep, the rows 12 to 16 inches apart.

QUANTITY OF SEED—One ounce should sow a 100 ft. row, 8 to 10 lbs. an acre.

4005 Extra Select Scarlet

Globe A strain grown from transplanted roots, that is as near 100 percent perfection as it is possible to get. It has a fine scarlet color, sparkling white flesh, tops just large enough for bunching. This is a beautiful oval rooted type—you will be delighted with the uniformity of the roots as you puls them. Pkt. 10c; oz. 15c; ¼ lb. 35e; lb. \$1.00.

4008 Crimson Giant Globe also called Giant Butter. While Giant Globe is not ready quite as quickly as the other round varieties, it grows much larger often 134 to 2 inches in diameter, and yet still crisp and firm. These long standing qualities make it valuable for the home gardener or grower. Pkt. 5c; oz. 10c; 14 lb. 25c; lb. 75c.

Sparkle

4010 Glowing Ball This new forcing Radish is well named. It is a bright fiery scarlet-red with a suffusion of orange, making it an unusually brilliant color. It has a perfect round shape, a small top and a thread-like tap-root. Recommended by the Royal Horticultural Society of England Pkt. 10c;oz. 15c; ¼ lb. 45c; lb. \$1.25. All-American 1931.

Scarlet

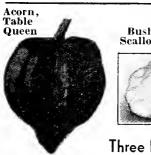

The standard long red or scarlet variety. Flesh pure white, crisp, tender and mild. Roots long slim bright scarlet with white tips, averaging about 6 inches in length. Small tops and quick maturing. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

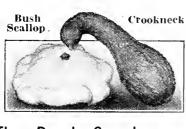

The finest White Radish grown. Long slender roots which remain tender and crisp until grown. Matures early, has small top which permits close planting. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

Fine Winter Radishes

It is possible for you to have delicious crisp, solid Radishes for winter and spring. They make tasty salads and can be used as a boiled vegetable. Just sow the seed in June or July. Thin out plants to stand 4 to 6 inches apart in the rows. Keep the Radishes in box of sand in cool place. 4021 China Rosc. Olive shaped, rose color skin, white flesh. 4026 Long Black Spanish. Long shaped, black skin, white flesh. 4027 Round Black Spanish. Black skin, white flesh, round. 1025 Celestial or Mammoth White China. Very large. 4023 Mixed Winter Radishes.

Prices on all above: Pkt. 10c; oz. 15c; ¹4lb. 10c; lb. \$1.00.

Three Popular Squashes

Summer Varieties

4055 Cocozelle Italian Vegetable Marrow. This is the most delicious and fine flavored summer squash yet grown. It is a bush type of plant, without runners and the fruit is long and slender, marbled with light and dark green. It best used when 6 to 8 inches long and ean be cooked like other summer squashes or sliced and fried in butter. Pkt. 10c; 0z. 15c; 1/4 lb. 10c; lb. \$1.15.

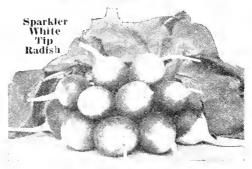

4057 Giant Summer Crookneck

The largest and one of the earliest of the summer varieties. Very productive of large, deep, orange, warty fruits often 2 feet long. Flesh is thick, firm and tender. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00.

4058 Yellow Bush Scallop Golden Custard. A mammoth strain of the Yellow Bush Scallop. Fruits are round and flat with scalloped edges, rich golden yellow and with thick tender flesh of finest quality. Very early. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00.

4060 Giant Summer Straightneck This novel squash has the "crook" taken out of the neck, having all the good qualities without the defects of its parent, Golden Giant Summer Crookneek. It is much easier to pack. The native fruits measure 18 to 20 inches long, deep orange in color, thickly warted, with deeper flesh and thicker more meaty neek than the old "Crookneck" type. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00.

4061 Early White Bush Scallop Patty Pan or Cynnling. Very early, fruits flattened and scalloped about 8 inches in diameter, comparatively smooth on the surface and creamy white in color. Flesh white, tender and sweet. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. S1.00.

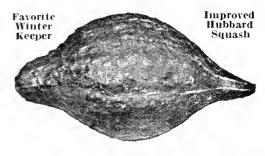

teiele

Squashes

CULTURE—Plant the seed after all frost danger is past, the small bush varieties 3 by 4 feet apart, the long vined varieties 6 by 8 or even farther apart, the crop will be larger if the soil in the hills is enriched with well-rotted stable manure or sheep manure. Plant 6 or 7 seeds in a hill, 1½ inches deep, and thin out to 3 strong plants after they are well up.

QUANTITY OF SEED. Of the small bush varieties 1 oz. will plant about 40 hills—2 to 3 lbs. per acre. Of the large seed winter varieties like Hubbard, 1 oz. will plant 15 to 20 hills—3 to 4 lbs. per acre.

4056 Acorn, Table Queen Moines, Queen Ann. The best little squash for "individual" baking or steaming. Dark green, 6 to 8 inches long and

baking or steaming. Dark green, 6 to 8 inches long and 5 to 6 inches in diameter, deeply ribbed, smooth hard shell. Just cut it in half, take out seeds, cook for 20 minutes and enjoy the delicious nutty flavor of this little "Table Queen". It stands ace high among the squashes. Try it, you'll like it. Pkt. 5c; oz. 12c; 1/4 lb. 35c; lb. \$1.00.

⁴⁰⁶⁸ Chicago Warted Hubbard

A new type of Hubbard produced by careful selection of the large, dark green, warted specimens of good stock. Strong healthy vines, hard, warty, dark green fruit with flesh of rich golden yellow, fine grained and dry. Excellent for winter use. Pkt. 5c; oz. 15c; ¼ lb. 15c; lb. \$1.25.

4069 Blue Hubbard The size and shape of old warted Hubbard, but clear blue green in color. Excels the old Hubbard in flavor and dryness of the flesh, Pkt. Sc; oz. 15c; 14lb. 45c; lb. \$1.25.

4070 Improved Hubbard The most popular Winter Squash. Delicious for baking and rivaling the best pump-kin for pies. Has deep orange flesh. Our strain grows large, has dark green, moderately warted shell end and has been selected to give fruit of greater weight and food value than the ordinary Hubbard. Pkt. 5c; oz. 12c; 14 lb. 35c; lb. \$1.00.

4071 Golden Hubbard Earlier and Smaller than our Improved Hubbard. Flesh thick, deep orange-yellow. Of splendid quality. Pkt. Sc; oz. 15e; 141b. 15e; lb. \$1.25.

4038 Rhubarb, Victoria A few plants of Rhubarb in a corner of your garden will furnish a surprising amount of material for delicious pies and sauces. Rhubarb is very healthful and is easily grown from seed. Sow in early spring, transplanting in early fall to permanent location. Do not pull the stalks the first year after transplanting, thus allowing the plants to become well established. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50.

4077 Sunflower, Mammoth Russian The best producing known for poultry. Every farmer should plant some of the seed in any out-of-the-way place at any time in May or June. Single heads will often measure 15 to 18 inches across and contain an immense quantity of seed. Hang the heads in the poultry house, where the hens can reach them. Seed for planting, oz. pkt. 5c: ¼ lb. 10c; lb. 25c; 3 lbs. 60c.

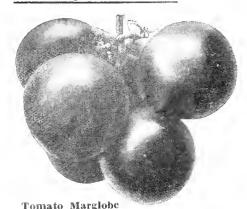

Salsify or Vegetable Oyster

CULTURE—Salsify is grown very much like Parsnip though the rows may be spaced a little closer. Do not plant in freshly manured soil as this has a tendency to produce ill shapen roots

QUANTITY OF SEED. One ounce should show a 50 ft, row.

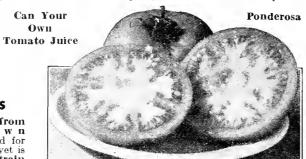

4041 Mammoth Sandwich Island It is one of the most vegetables. In soup it has a delicious oyster flavor. Also fine if fried in butter, or boiled and made into fritters. It is perfectly hardy and may remain in the garden for spring use. Dig early in the spring however before growth starts, Pkt. 10c; oz. 25c; 14 lb. 75c; lb. \$2.25.

Tomatoes

CULTURE—Tomato seed should be started early, by Mareh or at least early April in hot beds or in hoxes or pots in the house. An extra transplanting into other pots or cold frames is beneficial for root development hefore finally setting outdoors, when it is warm. Do not crowd tomato plants. You want short stocky plants rather than tall

QUANTITY OF SEED. One ounce should produce 2500 to 3000 plants. If set 36x24 inches apart you will need about 7200 per acre.

Tomato, Acme

Purple-Pink Fruited Varieties

The popular purple variety, early ripening of medium size slightly oval and smooth. Acme is a reddish-purple with deep scarlet flesh which is very solid and meaty. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

4111Beauty for medium early or main erop. Vines are vigorous and heavy bearing, while the fruits are medium to large, solid, very smooth and of excellent flavor, and they ripen up well around the stem. Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

4110 Livingston's Globe The most popular purple-pink sortfor market and canning. A very vigorous grower and heavy producer of firm solid fruits. The fruits are very deep, large and heavy of a glossy pink tinged with purple. Pkt. 5c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; lb. \$4.00.

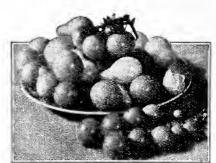

This is not only the largest, but also the heaviest Tomato grown. Color glowing purple-crimson. Considered by many the best table variety. Pkt. Sc; ½ oz. 30c; oz. 55c; ¼ lb. \$1.65; lb. \$5.00.

4112 Oxheart Oxheart is very large and heavy with thick flesh and few seeds. Gardeners, who have tried it, say it is the best tomato they ever had in flavor and all around quality. Pkt. 10c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.65; lb. \$5.00.

Yellow Fruited Tomatoes

4120 Yellow Oxheart Has all the qualities of the Oxheart with its big heavy meaty fruits. Color of flesh and skin is rich golden yellow. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$2.25.

4118 Golden Colossal The Best yellow tomato. You should see the great big delicious fruits of this variety. As large as Ponderosa and quite like it in every way except color, which is golden yellow. The flavor is very sweet. Fine for preserving. Pkt. 10c; ½ oz. 35c; oz. 65c; ¼ lb. \$2.00.

Small Fruited Prescrying Tomatoes

Scarlet Fruited Tomatoes

4084 Special Strain Earliana Seed from Fruits. This strain has been especially selected for depth, smoothness and uniformity of fruit and yet is earlier than the regular strain. Order Special Strain Earliana Superfine Quality. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ ib. \$1.50; lb. \$1.50. 4083 EARLIANA, REGULAR. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

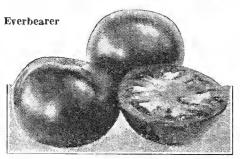

4081 Everbearer Valuable for its long bearing season. You can pick as early as Earliana, and yet keep on picking for a long season after. That is just how the Everhearer hehaves. Pkt. 8c; ½ oz. 25c; oz. 10c; ¼ lb. \$1.25; lb. \$3.75.

4082 New Burbank Burbank is attractive with bright red fruits, medium size, smooth, well formed and ripening evenly all over. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; lb. \$3.75.

4087 Red River An extra early with very firm fiesh. This variety was developed at the North Dakota Experiment Station, where they find it one of the very earliest, and the most solid and meaty early sort ever on trial. At a Canadian Station it outyielded all other sorts. The fruits are slightly flattened, smooth, bright scarlet with solid meat of splendid flavor. Pkt. 10c; ½ oz. 35c; oz. 65c; ¼ lb. \$1.75; lb. \$5.50.

4089 Bonny Best In season this fine tomato is right after the first earlies, such as Earliana. One of the very hest scarlet varieties for home garden or market. Fruits are round, smooth, medium size and ripen evenly. Flesh is firm, and vines very productive. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

4097 New Stone King of the Reds. The stan-fruit is uniformly large size, smooth, and very solid, and of best table quality. Fine for canning. Pkt. Sc; ½ oz. 20c; oz. 35c; ¼ ib. \$1.00; lb. \$3.00.

Disease Resistant Tomatoes

All-American Gold Medal 1935

4094 Scarlet Dawn

Wilt-resistant, rust-resistant A wonderful new Tomato of the deep Marglobe red color, globe-shaped, earlier and rounder than Pritchard, Scarlet Topper. Received Honorable Mention at the Cornell and the Connecticut Experimental Station trials as well as ranking second in the regular All-American trials. Pkt. 15c; ½ oz. 70c; oz. \$1.25.

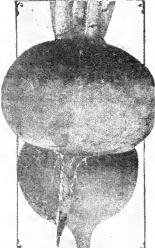

4095 Marglobe Disease Resistant. This variety was introduced by the U.S. Dept. of Agriculture for its resistance to "wilt" and "nail head rust." It is a scarlet fruited main crop variety; the result of a cross between Marvel and Globe, and has retained the best characteristics of each. Pkt. Sc; ½ 0z. 25c; 0z. 40c; ¼ lb. \$1.25; lb. \$3.50.

All-American Gold Medal 1933 A recently introduced discase resistant variety developed by the late Dr. Pritchard of the U. S. Dept. of Agriculture. The plant is comparatively small but branching and a true self topper. The fruits are medium size, smooth, solid, heavy, globe shaped, rich dark red both outside and inside. Ripens only a few days later than Earliana. Superior tomato in yield and quality. Pkt. Sc; ½ 0z. 25c; 0z. 45c; ¼ lb. \$1.40; lb. \$4.00.

4099Break O'Day A new wilt-resistant Tomato of the U. S. Dept. of Agriculture. Of the same color, shape and size as Marglobe but somewhat earlier. Bright red, extra early and deep globe shaped. Pkt. Sc; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; lb. \$4.00.

Small Fruiting Tomatoes Grow your own Preserves

4123 Small Preserving A mixture comprising Red and Yellow Cherry, Peach, Pear, Plum, Currant and Husk Tomatoes. Very desirable for preserves and canning. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25.

Purple Top White Globe

Turnips and Rutabagas

CULTURE—For the early crop sow as early as possible to prepare the soil, covering ½ inch deep in rows 8 inches apart, thinning when small to stand 6 inches apart. A continual supply of tender turnips may be had by sowing a few every two or three weeks until late spring. The sced for the main crop of winter turnips is started in July. Sow either in drills or broadcast.

QUANTITY OF SEED. One ounce should sow a 150 ft. row, 1½ lbs. an acre if drilled, 3 lbs. if broadcast.

4137 Purple Top White Globe handsomest and most desirable varieties grown. Our strain has been selected for smoothness, depth of roots and uniformity. Flesh is fine grained and firm. It is best to eat before roots reach full size. Pkt. 5c; oz. 10c; ¼ lb. 75c; 5 lbs. \$3.25.

25c; lb. 75c; 5 lbs. \$3.25.

4138 E. Lee E. J. W.L.: Dell The earliest turnip we

4138 Extra Early White Ball The earliest turnip we sized bulhs crisp and tender, pure white and almost perfectly round arc produced in six weeks from seed. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c; 5 lbs. \$3.25.

4135 Extra Early Purple Top Milan F lat, smooth, of medium size, with bright purple top and few leaves. Flesh white and sweet. The best for early spring planting, also suitable for fall planting. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c; 5 lbs. \$3.25.

4136 Purple Top Strap-Leaf The standard for this part for early or late planting. Flattened, good sized, small top with but few leaves; flesh very fine. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c; 5 lbs. \$3.25.

Iwo Rutabagas or Swede Turnips

Rutahagas have firm flesh and keep well as a winter vegetable. Pack in moist sand in cellar or in pits. Plant Seed in July for winter use.

4145 American Purple Top American Swede. Proshaped roots. Purple above ground and yellow below. Flesh very solid, rich yellow, fine-grained and very sweet. Pkt. 5c; oz. 12c; 1/4 lb. 35c; lb. \$1.00; 5 lbs. \$4.25.

4147 Early Neckless A yellow purple top variety 15 to 20 quality and fine appearance, the roots are round slightly flattened and neckless. Pkt. 5c; oz. 12c; 4 lb. 35c; lb. \$1.00; 5 lbs. \$4.25.

A Little Planning, A Little Planting and Your Home Grounds Become a "Thing of Beauty."

Bulbs Shrubs Roots

What This Department Offers You

The things you will wish to plant for a lasting effect in your garden are the bulbs, shrubs, roots, vines, roses and small fruits offered on the following pages. Because all of this stock is of a different nature from seeds, we have to handle it in an entirely separate department. That is also the reason they require different packing and weather conditions to insure delivery to you in first class shape. Gladiolus, dahlias and cannas must be kept dry and cannot be allowed to freeze, even while in mail and express cars. On the other hand, sbrubs, vines, roses, roots and small fruits must be packed with damp moss about their tender roots.

Roses **Plants** Vines

Summer Flowering Bulbs

Among the hulbous and tuberous rooted flowering plants are some of the most satisfactory for garden display and cut flower material throughout the summer. The Dahlias, Gladiolus, Tuberous Begonias, Cannas, and other bulb rooted plants all give a marvelous display with their many hright flowers from mid-summer until frost and with almost certain success for they are all very easily grown. While not hardy they may be taken up in the fall, stored in the cool hasement and planted again the next spring. Only the finest and most satisfactory varieties are offered here. finest and most satisfactory varieties are offered here.

Hardy Perennial Plants

This class is most useful and desirable in every garden and supplies more material for our gardens than any other class of hardy plants. From this class we get material for the hardy border, for the perennial garden, for the rock garden and for many situations in our permanent ornamental plantings. They, while hardy enough to survive the cold of winter, die to the ground and each year send up new top growth increasing in size and vigor. Their adaptability to almost any situation and their interesting forms and habits in rockeries and borders make them most attractive and interesting.

Hardy Shrubs and Vines

Hardy Shrubs and Vines

The hardy flowering shruhs are the plants of greatest permanence and perhaps greatest value in adding permanent beauty and harmony to the home grounds. Their great value lies in their ability to give so much of beauty and attractiveness with so little attention. Variety should be a feature in every planting of hardy shrubs; this will not only avoid monotony but will increase the beauty and attractiveness of the entire planting. Each shrub with its particular season of bloom, its different color, its individual form of growth will add its part in making the entire planting an attractive and interesting feature of the garden through each month of the season. The hardy vines have an important use in the planting of the home grounds and their attractive foliage and bloom are not only beautiful hut also useful for shade or screen.

Roses

Of the many classes of roses, the Hybrid Perpetual, the Hybrid Tea and the Clinbing Roses are in greatest demand. We offer you only top grade, hardy, field grown plants. You can not buy better roses, anywhere. The price you pay determines what you get in roses You can raise your eyehrows at cheap rose offers.

Roses

A Nursery Before 1876

Long before Mr. Templin and his father and brothers started to sell seeds by mail, to American Gardeners in 1876, they operated a beautiful, complete nursery here in Ohio, the real nursery center of America. Naturally, this branch of our business, therefore, is far from heing a side line with us. In the days prior to 1915 we used to import car loads from European growers as well as growing great quantities of our own nursery stock. Since 1915, when imports were prohibited, we enlarged our own growing to take care of the demand. On our own property at Medina and at Painesville, expert growers who have spent their lives at this delicate work, are at your service.

New Facilities

To further improve our service to the hundreds of thousands of customers in all parts of America, we shall ship direct to you from our Painesville Nursery, all Perennial Plants, Iris and Peonies, Hardy Phlox, Hardy Shruhs, Hardy Vines, Roses and Small Fruits, instead of bringing these plants into Cleveland as in the past. This will remove one handling and get the plants to you freshly dug. All Seeds, Begonia, Gladiolus, Canna, Dahlia and miscellaneous Summer Flowering Bulbs will he shipped from Cleveland as in the past. We know you will appreciate this improved service.

The Rock Garden

The Rock Garden

Many interesting little plants from all corners of the earth have been made available to us by the demand created by the rock gardens. Plants that seem more nearly fitted to this type of gardening than to any we had previously undertaken. What a delight it is to become acquainted with these wonderful little perennial plants that have for years been awaiting our demand in the mountains and valleys of remote countries. Among the first to recognize the charm of these plants in the rock gardens, Mr. and Mrs. Bradley, seeing them during their visits to European gardens as they began to be used there, at once felt that the American gardeners should be able to obtain them to add their charm and interest to the gardens of America. Since that time their influence has been great in helping to bring you these new and delightful garden subjects. You need not forego the pleasure of these plants and a rock garden because of limited space. Did you know that a charming little rockery may be huilt with a dozen rocks and as few as ten plants?

DORMANT NOT DEAD. Practically every item in this section of this catalog is in a dormant state. It is due to their ability to "sleep" over each winter that they are of really permanent worth to you. They loose their foliage in winter just as the trees do. Some of them like gladiolus, dahlias and cannas, must be taken indoors in the winter and stored in a cool place. Others like vines, roses, shrubs and small fruits may be left outdoors outdoors

GIVE THEM TIME. Remember after planting, that all plants will not hegin to show signs of development in the same length of time. This word of caution is added because now and then, people will write in to advise us that some of their plants have not begun to leaf out and they are afraid that they are not alive. After waiting sufficiently long, they find the leaves begin to take shape and that their conclusion was made too hastily. So, be sure to give your newly planted stock plenty of time.

CULTURAL INSTRUCTIONS. Every order filled in our Nursery Department will have packed with the goods, a pamphlet which tells you how to keep the plants until the ground is ready, how to prepare the soil and all necessary information to aid you in the right start.

A Bronze Medal Free For Your Garden Club

Any Garden Club or Horticultural Society in the United States may obtain one of these Floyd Bradley Horticultural Achievement Medals in Bronze, free of all charge. The Club to award it as a prize at Flower Show, Garden Contest or similar meeting.

All that is necessary is for the Club at a regular meeting to pass a resolution, authorizing an officer to apply to us for one. Tell the officer to send us a copy of the resolution, preferably on Club letter head, giving date of show and to indicate class of exhibit for which it is to be a prize. It is not necessary for the Club or any member to be a customer of ours. We do this solely to encourage the work of Garden Clubs, which we consider the greatest single factor in the growing love of finer gardens by the American people. This offer is for Clubs only and not for individuals. It is not for sale and can be obtained only as outlined above.

Floyd Bradley's Own Garden "How" Book

This 48 page book has been prepared for the use of our customers who wish more information than can be crowded into a seed and nursery catalog.

The subjects it covers are of every day interest to you, whether you have a vegetable, flower or fruit garden—a rock garden or pool—a landscaping job of beautifying all or part of your home grounds

You May Have A Copy, Free

If your order amounts to \$2.00 or more, and you request us to do so, we will send you a copy of this book, Free. If your order is for less than \$2.00, add 25c for your copy. Or, if you wish a copy before you send us your order, just send us 25c and ask for Floyd Bradley's Own Garden "How" Book.

The well-known autonmn flowers of our grandmothers' gardens that produce such an abundance of beautiful flowers at a time when

flowers at a time when they are most appreciated. In the following we have selected varieties that have proven hardy in the North with slight protection. An assortment of the hardy "Mums" certainly should be in your garden, they give such a wealth of bloom in the fall when flowers are scarce. Bring bouquets into the home where they will keep fresh for a week or more.

Beautiful New Hardy Mum

See color plate on next page

Mrs. I. De Ver Warner

Beautiful Dahlias

It is not many years since the only dahlias were comparatively small and quite uniform in type. By careful breeding, new forms, giant size and remarkable colorings have made the old types obsolete and today there are hundreds of splendid varieties, worthy of a place in any flower show. Dahlia lovers have formed strong Dahlia Societies in almost every state as well as the American Dahlia Society of national scope. These organizations encourage the introduction of new kinds and grade them according to merit. We offer you the following [varieties at moderate prices. They have been carefully grown to bring out the best in each variety. Instructions for growing, packed with each order, free.

Century of Progress Dahlia Collection See color plate on opposite page

At the Century of Progress two days were dedicated to Dahlias. Sept. 18th was Jane Cowl Day and the next day was Jersey's Beauty Day. No other Dahlias were so honored. If you saw these two varieties on display, you surely liked them. So our back cover color plate collection offers both of these with two other varieties at a bargain price. Plant them in your own garden and show your friends as nice flowers as they saw at the Century of Progress Dahlia Show last summer in Chicago. Dahlia Show last summer in Chicago.

5366 Giant Ruby A big rubyred or scarlet decorative of good size, shape and substance, Just what you will like to round out color combinations. Long, stiff stems with head held high. Each 35c; 3 for \$1.00

Templin-Bradley's Famous Gladiolus

A Rainbow of Color for Your Garden

Do you realize the garden and cut-flower possibilities stored up in the easy to grow Gladiolus Bulbs? There is a wealth of color and beauty in the tall, straight spikes of wide open, wonderfully marked flowers, which last so long and make such ideal bouquets.

We started producing our own Gladiolus bulbs in 1915 and in these twenty years many new and unusual varieties have been hybridized so that today it is possible for you to fill your garden with Glads of every color of the rainbow, except of course green which is supplied in the long graceful leaves.

You will want to order many of the earefully selected varieties listed here to make your garden a rlot of color and to have plenty of cut-flowers for your house and for your shut-in friends.

Color Plate Gladiolus, See Opposite Page

CULTURE: Plant the bulbs or "corms" as they are called, in trenches or in holes about six inches deep and from six to eight inches apart, covering them with loose fine earth, pressing it down well around the bulb. Gladiolus bulbs do well in any good, well drained garden soil, providing it is in a sunny location. Plant the first bulbs right after the last frost in the spring, plant more every two weeks until July 1st and you will have flowers from mid-July until the first frost next Fall.

5533 Betty Nuthall Slightly ruffled flowers of warm coral-pink with orange throat and light featherings of carmine. One of the best of the late introductions. Each 10e; 3 for 25c; 12 for 80c.

5548 Charles Dickens A purple-violet of great richness and depth of spikes, often 5 feet or more tall. A very popular variety of attractive color and form. Each 10c; 3 for 25c; 12 for 80c.

5632 Golden Dream A pure golden yellow flower, of Golden Measure form but of better and richer color. The deep throat is slightly striped wine and the anthers carry a wine stripe. The best yellow to date. Each 7c; 3 for 20e; 12 for 55e.

5726 Mr. W. H. Phipps A delicate La France pink over-laid with salmon-rose. Lower petals lightly striped and splashed ruby. Large flowers, long spikes. Each 7c; 3 for 20c; 12 for 55c.

5986 Color Plate Gladioli Collection

5732 Mary Frey A delicate lavender-pink almost a lilac tone, soft and variety. Each 10c; 3 for 25c; 12 for 80c.

5734 Mrs. P. W. Sisson A clear light pink with just a suggestion of creamy tint. Flowers of large size well arranged on tall spikes. Each 7c; 3 for 20e; 12 for 55c.

5783 Pfitzer's Triumph One of the best Gladiolus ever introduced. Very overcast scarlet with small velvet red marking in throat. Each 12c; 3 for 30e; 12 for 95e.

5984 Veilchenblau A large flowered Gladiolus of richest Iris blue coloring. An exceptionally vigorous grower. Each 12e; 3 for 30e; 12 for 95c.

1 Bulb each of Total Value 75c, Only 50c

Four New Gladiolus

5724 Mildred Louise Large florets, 5½ 22 buds to a spike. Beautiful triangular shaped, salmonpink upper petals with lower petals tipped strawberrypink, blending to pinard-yellow in the throat. Each 50c; 3 for \$1.25.

5800 Picardy Sensational flower of delicate apricot-pink. Florets extremely large, slightly ruffled. Each 25e; 3 for 65e.

5826 Red Phipps Tall fine spikes of soft, rich red. Eight or more large florets open at one time. A very fine new variety of charming beauty. Each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

5848 Schwaben Girl Pure pink, without any other shade or blotch. A fine self-color. Huge spike, 8 to 10 big open flowers with round petals. One of the earliest Glads. Each 50c; 3 for \$1.25.

5880 Set of 4 New Glads, \$1.50

Ten Lovely Gladiolus

5514 America Immense flowers of Peach-blossom pink. One of the most popular Glads. Each 7c; 3 for 20e; 12 for 55e.

5775 Orange Wonder A gorgeous flower orange. A most unusual shade in Glads and one that will give delightful tone to your garden. Each 15e; 3 for 10c.

5989 10 Glads for \$1.00 1 each of above 10 varieties

10 Sets-100 Bulbs-\$7.50

100 Gladiolus Bulbs for only \$2.00

10 Each of 10 Leading New Varieties. No Changes. Postpaid. Each variety separately labeled. The most valuable assortment you can buy.

5531 Berty Snow Large flowers of soft tinge of pink. Excellent substance and well spaced on a good spike. Eight or more open at once. A flower of unusual delicate beauty.

5571 Dr. F. E. Bennett A very striking flower of peach-red overlaid with flame-scarlet, Throat speckled ruby and white. An outstanding variety that will give you gay color for the garden and house. Tall heavy spike.

5633 Golden Measure

Rich yellow petals

Golden Measure deeper yellow with crimson circle around base of anthers. Slightly ruffled, large flowers, many open at a time

5739 Mrs. Von Konynenburg

Good blue Glads are extremely scarce and this new Holland variety is most welcome. It is a beautiful lilac-blue, large, good substance, splendid spike and good form.

5715 Marmora A most intriguing gladiolus. It is large, stately, and most unusual in colors which are lavender-gray with petunia colored blotch. Heavy substance and perfect placement. 8 flowers open at once.

5542 Caruso

The earliest of all red Glads. Produces a large flower of orange-red and is one of the finest bright reds. You'll like its color.

5838 Ruth Huntington Beautiful violet-blue with deeper lilac markings on lower petals. Large flowers on tall, strong spikes. A lovely flower of dainty color.

5602 Fay Lanphier A rich coral with large fine formed flower. Produces fine spikes with many flowers open at the same time. An unusual shade.

5796 Purple Glory This variety is unequalled with its dark amaranth-purple, lower petals deep purple. Throat speckled white and purple.

5737 Mrs. Leon Douglas Begonia-rose striped with flame and brilliant scarlet and speckled with ruby-red Extra strong spikes with many flowers open at a time

You are offered in this Collection, the leading show winning varieties of carefully grown, clean, healthy, blooming size bulbs. Not sold separately. ⁵⁹⁹¹ 10 Bulbs each above 10 kinds for only \$2.00.

Gladiolus Mixtures

Each year we received many letters telling of the great pleasure and satisfaction our customers have had from our Gladiolus Mixtures. These letters praise the very high quality and splendid assortment, the health, vigor and free blooming of the Gladiolus bulbs. We are justly proud of the mixtures we offer you here.

Templin-Bradley's Glory Mixture
A fine mixture of selected varieties of recent origin
which have proven themselves most desirable and
satisfactory for general garden use.
This Glory Mixture has brought immense pleasure to
thousands of our customers during the past few years.
You will like these for cut-flowers.

5981 Templin-Bradley's Glory Mixture. 12 for 50c; 25 for 90c; 50 for \$1.75; 100 for \$3.00.

Superfine Gladiolus Mixture

This excellent mixture is made from the popular well known varieties. They are all large blooming size bulbs equal to those in the above mixture, except that the varieties are not quite as new.

Garden Beautiful Mixture

This mixture is made for those who wish the very best available in Gladiolus Mixtures. The color array will please you and you will be delighted with the varieties we give you. If sold separately by name, you would have to pay many times the price we ask in mixture.

5985 Garden Beautiful Mixture. 12 for 70c; 25 for \$1.25; 50 for \$2.25; 100 for \$4.00.

Tuberous Begonias

Single and Double in Many Colors For The Garden or Window Boxes

If you long for a beautifully colored flower which is different from any other class. Tuberous Rooted Begonias will please you. There are two classes—singles which often grow six inches or more across and doubles up to five inches.

The rich, velvety, crinkled foliage is prettier than any other begonia. They do best when direct sun does not hit them from ten to three in mid-summer. But they should not be grown in total shade. Colors are variations in pink, yellow, orange, red, crimson and white. You will seldom find two of exactly the same shade if you plant a hundred bulbs so the more you plant the more interesting they become.

LONG LIFE

Every year, customers tell us of having kept their Begonia bulbs for many years by digging them in the fall and storing them in fruit or potato cellars.

EASY TO GROW

Tuberous Begonias are easy for the home gardener to handle and florists make big money in growing them. I start mine in shallow boxes of soil in the house about a month before time to set them out in the garden. This permits about three leaves to get fully formed by the time danger from frost has passed. I should hate to have to do without Tuberous Begonias and I know you will feel the same way after you have tried them. You can plant them in the garden or in porch and window boxes.

Single Begonias

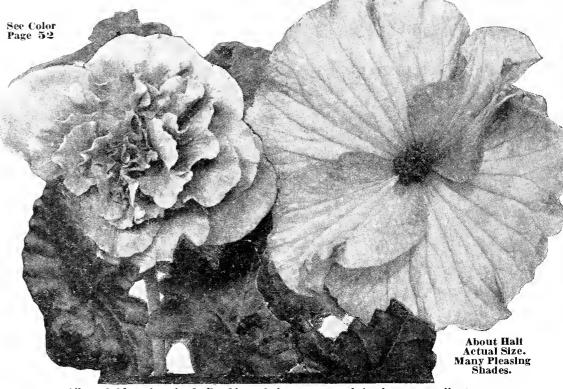

We have seen many flowers over 6 inches in diameter. The texture of the petals is not like any other Begonia flower, waxy, yet looks like velvet.

5001 Pure White 5004 Orange, Salmon 5002 Rose or Pink 5005 Red and Scarlet 5003 Shades of Yellow 5006 Dark Crimson Price any color. Each 25c; 3 for 65c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

5063 Set of 6 for 75c; 3 sets for\$2.00
The 6 bulbs in these sets will be all of different colors.
Some will be singles and some doubles.

Plant Hardy Native Ferns

Hardy Native Ferns are rapidly growing in popularity as their value is becoming better known. They are easily grown, and so well adapted for shady locations where little else will succeed. There are usually nooks and corners around the home grounds where the sun seldom strikes, just the place for assorted clumps of Hardy Ferns. The illustration below is from an assorted planting in front of a north porch. Our plants come from northern New England where the temperature often registers away below zero, a guarantee of their hardiness.

Christmann of the control of the control

6165 Ostrich Plume Fern G. Very handsome fern, as graceful as a palm, and one of the most satisfactory to grow. Makes a most effective background for other ferns. The fronds reach a height of two to three feet, with a width of six to eight inches. Sometimes called "The Palm of the North." In the illustration below the tall ferns in the background are of this variation of the North.

riety. One of the most satisfactory ferns for the amateur to grow, always giving satisfaction. Grows in beautiful crowns, requiring considerable room. For a back-ground plant two feet apart, or as single specimens, in partial shade.

6155 Evergreen Wood Fern
(Aspidium Marignale) R. G. A desirable evergreen variety. Its large green fronds have a bluish tinge and are very durable. Cut fronds will keep a long time. It is easily grown and can be adapted to varying conditions. A desirable variety for general use.

for general use.

6153 Christmas or Dagger Fern
(Polystichum) R. G. A widely known evergreen
species, the fronds being largely used by florists.
One of the easiest to grow and about the best
evergreen, hardy fern we know. Fine for forming
an undergrowth among shrubbery. A good fern to
plant with other varieties.

Price of all Ferns, Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60

6158 Hayscented or Gossamer Fern

(Dicksonia) R. G. One of the varieties that will grow in either sun or shade. It propagates itself by undeground root stalks, and if planted in rich, porous soil, will soon form masses. This is the best variety to plant where a mass of from 15 to 18 inches high is desired,

Soil for Ferns

Ferns succeed best in a rich, light, loose, fibrous soil, with good drainage. If the soil is inclined to be soggy, raise the fern bed two or three inches above the surrounding surface. Before planting make the soil fine, and if possible incorporate some leaf mould from the woods, Peat Moss or soil from around some old building, but never use fresh manure of any kind.

A touch of the woods, right at your door step.

6171—Set of 4 Hardy Ferns 1 each of 4 varieties Only 50c

Chrlstmas

6173 Special Collection 40 Ferns 10 each of 4 varieties Only \$3.50

To help you reproduce a corner of nature's woodland right in your own home grounds.

City of ortland Canna

Dazzling Cannas See Color Page 52

What could be more charming than a nice bed of Cannas against a green lawn? These stately, dazzling colored, giant flowers, are so inexpensive that you can afford all you have room for. The luxuriant foliage would be worth the effort even if they bore no flowers. But they do bear flowers in profusion from July until frost. Perhaps it is the tropical effect which makes them such great favorities.

Easy to grow in any garden soil. Work the soil up well and keep them watered. Plant about 12 inches to 18 inches apart to allow plenty of room. We give you average height of each variety, color of flower and color of foliage. With this information, you can work out a color scheme which will suit your individual taste. Order your Canna Roots early so you can start them indoors for later transplanting.

Cannas are fine for shielding unsightly house foundations, fences, garages, etc. Make nice beds in the middle of your lawn.

Price of all Cannas, Each 20c; 3 for 55c; 12 for \$1.50

5178 Color Plate Cannas Varieties below 60c

5136 City of Portland Warm rose pink, holding its tone through both hot and cool weather. The great, full-petaled trusses are borne very freely. Green foliage. Height 3½ ft. See Color Plate.

5155 King Humbert Orange-scarlet. Orchid flowering. Its flowers measure six inches in diameter, gigantic trusses, a brilliant orange-scarlet with bright red markings, foliage rich coppery bronze. Height 4½ to 5 ft. See Color Plate.

5163 Queen Helen The flowers of rich gold-blotched red, form grand clusters of bloom of very attractive coloring. Green foliage. 4 ft. See Color Plate.

5160 The President "Fiery Cross" The flowering red Canna to date. The immense flowers 6 to 7 inches across in mammoth clusters are of the most intense penetrating fiery-scarlet. Green foliage. 4 to 5 ft. See Color Plate.

5179 Six Choice Cannas

5126 Apricot Broad compact trusses freely produced. Strong rich apricot passing to silvery-pink with gold and coral center. Green foliage. Height 4 ft.

5135 Canary Bird Pure canary-yellow, exceedingly attractive, fine size and substance, good sized trusses. Habit of growth and fine foliage makes it fine for mass planting. Foliage green. $3\frac{1}{2}$ to 4 ft.

5137 Crimson Bedder Very desirable blooms good quality and substance. A mass of clear green foliage. Good bedding variety. Flowers are produced in great trusses on strong stems. Height 3½ ft.

5145 Eureka By far the best white Canna flower large with a slight creamy tint when opening, but gradually becoming whiter. Vigorous grower and free bloomer. Height 4 to 4½ ft.

5150 Golden Gate Beautiful blooms opening gradually becoming richly rayed with orange-crimson and apricot centering at the throat. Green foliage, thick and heavy. Height 4 ft.

5170 Venus A truly beautiful and distinct variety, with a well defined border of creamy yellow. The immense blooms are borne in grand clusters above the rich green foliage, Height 4 ft.

5179 Set of 6 One each of preceding Cannas for 85c.

5180 Set of 10 One each of all Cannas on this page for \$1.25.

Tritoma Pfitzeri

Elephant's Ear, Caladlum

Summer Flowering Bulbs Amaryllis

5112 Tritoma Pfitzer Red Hot Poker.
Flame Flower or Torch Lily. Most handsome and showy plants for the border or for bedding. Surpassing all others in brilliancy of color, which is a rich orange-scarlet. Blooms continuously from July to October. The flower spikes are made up of a multitude of small tubular flowerettes and are borne on strong tall stems often 3 to 4 feet high. Unless in a very warm protected location where they may be mulched well they should be lifted in the late fall and packed in sand. Each 30c; 3 for \$0c; 6 for \$1.50; 12 for \$2.50. See Color Plate Page 52.

6379 Yellow Calla Lily

Golden Yellow. Calla Elllottlana. The best wellow Calla. The flowers are as large as the White Calla. The foliage is a deep green with cream-white spots which makes it showy in your garden. Flowers have a lustrous, velvety texture. This variety does well in the garden. Each 35c; 3 for 90c; 12 for \$2.80.

5085 Elephant's Ear, Caladium

Escultentum. One of the most effective tropical-like plants. Beautiful for lawn decoration, whether planted singly, in clumps, or for borders of subtropical groups. Especially nice when planted with Cannas. They like a rich deep soil and plenty of water. A single plant will often grow six feet tall with leaves four feet long and three feet wide. Each plant should have at least a pail of water every day that it does not rain. Plant Caladiums as a background for shorter growing annual flowers in your garden and you will like the effect. Each 20c; 3 for 50c; 12 for \$1.50.

5077 Giant Hybrid These are the finest of all the Amaryllis for pot growing. They come in many rich colors from rose and come in many rich colors from rose and white to deep maroon both self colors and variegations. The large lily like flowers are very beautiful. We cannot separate the colors, so if a variety is wanted the more you order the greater variety you will get. The Amaryllis is fast becoming one of the most appreciated flowering bulbous plants, producing gorgeous showy blooms with a minimum of care. They

bulbous plants, producing gorgeous showy blooms with a minimum of care. They give universal satisfaction when their requirements are understood. Strong bulbs Each 35c; 3 for 90c; 6 for \$1.60. Culture—Pot Amaryllis bulbs in 6 or 7 inch pots filled with good garden soil. Add a bit of bone meal. Keep in a dark, warm place 4 to 5 weeks for rooting. Then to a sunny window for flowering period. Give plenty of water from the beginning.

Amaryllls

5116 Double Dwarf Pearl Tuberose

One of the most delightfully fragrant and beautiful of the summer flowering bulbs. A long succession of bloom may be secured by starting them in pots early in the greenhouse or hot bed and setting them in the garden as soon as weather permits and also planting other bulbs directly in the garden at the same time. The Pearl is a distinct type of dwarf habit and much larger flowers. It is of strong growth with dark broad foliage. Each bulb produces a spike of beautiful waxy white flowers. If planted in the garden in May they will produce their delightful bloom in August and September, but started in pots as above suggested they will bloom considerably earlier. Strong bulbs, 3 for 25c; 6 for 40c; 12 for 75c.

5115 Single Albino Tuberose white variety begins to flower in July and continues thru season. Not so fragrant as double but has 2 to 5 flower spikes per bulb. Store inside over winter. Price 3 for 25c; 6 for 10c; Doz. 75c.

Double Tuberose

German Iris

Very popular old-fashloned, hardy garden favorites, requiring little attention. Splendld for permanent borders along the drive-way or edge of shrubbery, where they furnish an immense amount of brilliant color in early spring.

The letter S. means standing petals, F. means drooping petals.
6279 Ambassadeur F., purple-maroon. Beards and style, yellow. Magnificent and regal flower.

6563 Vivid Bright pink with fiery red eye. Said to be the finest free-flowering dwarf Phlox in existence.

Prices on Subulata Phlox. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6564 Set of 6 Subulata Phlox 85c.

Hardy Lilies

See Lilies On Color Plate On Page 62

Everyone wants some of the Hardy Lilies in the garden. Their stately loveliness, rich colors, and delightful fragrance place them among the most popular of hardy garden flowers. They succeed best in the hardy border where the soil is well drained and where other foliage shades the soil from the hot sum of midsummer.

6415 Tenuifolium Lily No. 1 Color lovely little Lily growing only 12 to 18 inches tall and producing an abundance of bright scarlet flowers with much recurved petals. Blooming in June, this pretty little Lily is well adapted to almost any position in the garden. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6381 Chinese Regal No. 2 Color Plate. Lily comes from Northwestern China, which is a guarantee of its hardiness. The exquisite blending of tints and colors form a charming contrast with the rich, deep green foliage. The large trumpet-shaped, fragrant flowers are pure, transparent white, with a distinct, rich canary-yellow throat and orange stamens. The buds and outside of petals are delicate pink which is often reflected through the petals. Height 3 to 4 ft.; mature bulbs producing 5 to 10 flowers in June and July, Blooming size. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6409 Rubrum Lily No. 3 Color Plate. of August; ruby spots informally distributed over a broad expanse of white. Many consider this the most beautiful of all Lillies, Each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

6377 Auratum Lily (The Gold Banded 1, Color Plate. Excellent for cut flowers, blooming in July and August. Flowers pure white, background dotted with crimson spots, while through the center of each petal runs a golden band. Flowers immense, sometimes 6 inches across, of delicious fragrance. Plant grows 3 to 5 feet tall and will bear up to 20 flowers. Large builds, each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

6416 New Cernum Lily No. 5 Color rare and beautiful new lily comes from Northeast China, so it is perfectly hardy. It has the habit of Tenuifolium Lily but is a pleasing shade of salmon with orange shadings and occasionally, deep wine colored spots. Blooms freely, often ten or more flowers on a single stem. Makes a nice companion to the Tenuifolium, which is a deep red. This is a stem-rooting lily which grows to a height of about two feet. A distinct Novelty which you can show to your friends with pride. Each 50c; 3 for \$1.25; 12 for \$1.00.

Note Both common and Botanical names of all seeds and plants appear in the Index on page 5.

Hardy Perennial Plants

In talking and writing to us, a great many people each year, say something like this—"I want flowers in my garden but I don't want to have to replant completely every year." That must be why our Hardy Perennial Plant Department has grown so large and remained large

must be why our Hardy Perennial Plant Department has grown so large and remained large even during the depression years.

A garden of Hardy Perennial Plants may be added to from year to year. Plant enough this spring to make a reasonable showing, then round out the planting as time goes on. No liome is complete without a well selected assortment of Hardy Perennial Plants. They require little attention, get bigger and better as time goes ou and provide an abundance of color in your garden and eut-flowers for your home. They fit into borders, make nice beds by themselves, look well along the foundation of your liouse, are a necessity for Rock Gardens and round out plantings of flowering shrubbery and roses. Our Hardy Perennial Plants have been earcfully grown for you by our own skilled nurserymen. Prices are so low that you cannot afford to omit what you need when you send us your order. Remember, these prices include delivery. include delivery.

Hardy Perennial Plants such as we produce for you, are the types which will do well under the widest range of climatic and soil conditions.

Study carefully the five pages devoted to these Hardy Perennial Plants. Remember, the index in the front of this catalog gives both the common and the botanical names of all plants, so that you can easily locate varieties.

Note! Rock Garden Plants, "RG"

Not every plant is suitable for rock gardens. Some are too large, others require a better foot-hold than the small amount of soil between the rocks or over them provides. For this reason and to help you in making your selection if you have a Rock Garden, those Hardy Perennial Plants in the following five pages, which are suitable for Rock Gardens, are indicated by the letters, 'RG' after the name. We were just about the first firm in this country to encourage the making of Rock Gardens and you will find our assortment for this purpose is unexcelled.

6004 Achillea (Yarrow). A choice variety of Achillea (Yarrow). A choice variety of Achillea. Snow-white flowers, an outstanding favorite for a filler in mixed bouquets for mid-summer use. It blooms from June to August on plants about two feet tall. Easy to grow, prefers a sunny location and good garden soil. Showy for Rock Garden and border plantings. Each 20c; 3 for 50c; 6 for 90c.

6007 Aconitum FISCHERI.
(Monkshood)
This beautiful perennial should be in every garden. Its blue flowers and dark glossy foliage will add attraction and charm to any foliage will add attraction and charm to any part of your garden. They bloom at a time when color is needed and continue for a long period. They will succeed in any good garden soil. A dwarf variety, growing to 30 inches high, producing very large pale blue flowers in September and October. Foliage is very decorative. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6036 SET OF THREE ABOVE ASTILBES. Value 90c, for only 75c.

Anemone Windflower

Seeds

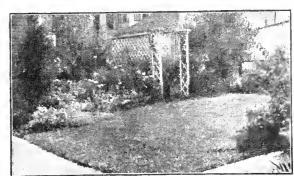

We offer a complete assortment of the world's best per-ennial seeds on pages 31 to 41.

As beautiful decorative foliage plants for the hardy border or perennial garden, the Artemisias are without equal. They produce an abundance of light airy foliage that is equally as fine for bouquet use as it is decorative in the garden. Useful as winter bouquets when dried. They will succeed in any good garden soil that is well drained.

6015 Silver King Amost beautiful silvery white foliage is produced in long slender sprays, making Silver King the most decorative plant in the entire garden list. When combined with cut flowers it adds a beauty to the bouquet that is amazing. Wherever Silver King is grown it at once makes many enthusiastic friends, you too will like it. Grows to 24 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

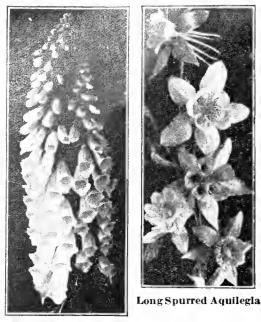

6016 Lactiflora A most desirable and effective to plant among shrubbery. Of strong, free growth, with erect stems 3 to 4 feet high, terminated with great panicles of fragrant, creamy-white flowers from late August to October. Quite distinct and desirable. This variety is not hard to grow, thriving best in moist rather rich soil and full sun. Water the plants freely. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.6045 Set of 2 Artemisias Only 35c.

6184 Hardy Aster Michaelmas Dalsyshowiest of our late flowering hardy plants, producing an abundance of flowers during September and October, when most other hardy flowers are past. They grow freely in any soil and require very little care. Sold only in sets of three colors; white, piuk, lavender. Set of 3 for 40c; 3 sets for \$1.00.

Perennial plants are useful in odd corners.

All Hardy Plants on pages 60, 64, 66 to 77 will be shipped direct from our Painesville Nursery at planting time.

Digitalis, Foxglove

Hardy Perennials Long Spurred Columbine, Aquilegia

Long Spurred Columbine, Aquilegia The popular old-fashioned Columbine, that everybody knows and loves, but greatly improved in form and color. See Color Plate, Page 51.

6019 MRS. SCOTT ELLIOTT HYBRIDS. It is quite generally agreed that there is no better strain of Aquilegia grown than this. Its vigorous growing plants produce a marvelous amount of lovely blooms for a long season. The colors are marvelous and the long graceful spurs add much charm and interest to the blooms. They grow to 2½ feet. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6022 BEE'S HYBRIDS. An unusually fine strain producing large long-spurred flowers in a very beautiful color mixture. Vigorous healthy plants that succeed in almost any location. A fine cut flower variety. 2½ ft. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Latisquama. Among the showiest hardy plants with large single Aster-like flowers. The plant is in bloom from July through September, with its thousands of flowers open at one time, producing a very striking effect. The flowers are a pleasing shade of pink. Clumps of Boltonia are effective in the rear of the hardy border, as they reach up to a height of 4 to 5 ft. They are excellent also for cutting. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

forming a dense circular cushion 12 to 15 inches across, 9 inches high at the center tapering to 3 to 4 inches at the edge and completely covered with silvery-mauve daisy like flowers during late fall until killed by freezing. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60 daisy like flowers during late for 90c; 12 for \$1.60.

garden should have a number of these plants with their beautiful blue flowers.

6106 BELLADONNA. The beautiful "Belladonna" with its large spikes of clear sky-blue flowers always attracts attention. They bloom continually from July to frost, in delicacy and beauty. Perfectly hardy everywhere. 1 year blooming size 20c; 3 for 50c; 6 for 90c; doz. \$1.60.

6107 BELLAMOSUM. This is a dark blue form of the popular light blue Belladonna, with which it is identical in habit of growth, freedom of bloom and other good qualities, but with intensely rich, deep blue flowers. 1 year blooming size 20c; 3 for 50c; 6 for 90c; doz. \$1.60.

6108 Blackmore & Langdon's GOLD MEDAL HYBRIDS. Unquestionably the finest strain of mixed hybrids offered. The plants are of strong, vigorous habit, with large flowers on spikes two feet and over long; a grand assortment of colors from delicate sky-blue to deep purple. 1 year blooming size 25c; 3 for 65c; 6 for \$1.15; doz. \$2.00.

6128 Set of 3 Delphiniums, 50c; 2 Sets 90c.

Campanula, Canterbury Bells
See Color Plate Page 51
These beautiful hardy plants are a beautiful addition to the garden and add much color and charm to the border in late June and July with their masses of beautifully colored bell-shaped flowers.
6056 CAMPANULA BLUE. A beautiful blue.

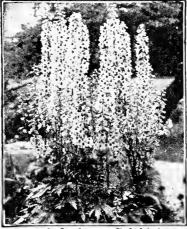

Campanula

6057 CAMPANULA PINK. Delicate pink.

Either color, Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6058 SET OF TWO CANTERBURY BELLS FOR 45c.

G059 ROTUNDI-FOLIA SUPERBA. R. G. Blue Bells of Scot-land. A fine border or rock garden Campanula about 1 foot tall. Flow-ers of pendant nature borne from June to August. Superba has deen blue flowers. Fach August, Superba has deep blue flowers, Each 30c; 3 for 75c; 6 for \$1.35.

Hardy Larkspur, Delphinium

6090 Chinese Lantern Plant

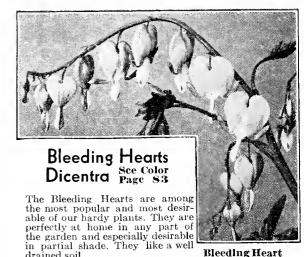

Physalis Franchetti. A very delightful and popular hardy perennial useful for its bright colored seed pods which are produced in the fall and with the first frosts turn to a brilliant orange red. These pods are quite freely produced at intervals along the branches and when colored resemble a string of fantastic Chinese Lanterns. The stems with the seed pods on can be dried and kept for winter decorations by cutting them after they have turned color and hanging them to dry in a cool airy place that is not too light. As winter decorative bouncets they are unexcelled; they

is not too light. As winter decorative bouquets they are unexcelled; they mix well with any of the other dried flowers. Plants grow to 3 feet and should be planted in a location somewhat sheltered from wind. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6100 Digitalis, Foxglove

SHIRLEY. A grand display of thimble-shaped flowers in immense spikes during June and July. Tall growing with large rough foliage. Ohincse Lantern Very showy in the garden. They are of extraordinary size and vigor, growing 5 to 6 ft. tall. The flower heads are over 3 feet long crowded with big, bell shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted with crimson or chocolate. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60. with crimson or chocolate. Ea 6 for 90c; 12 for \$1.60.

Bleeding Heart

GO 47 SPECTABILIS. The old fashioned garden favorite of our grandmothers gardens. Its long graceful racemes of heart shaped flowers of beautiful pink and white are very attractive in April and May. The foliage is fern like and very decorative. This variety is used for forcing in pots with good success. 2 to 3 feet. Each 50c. 3 for \$1.25; 6 for \$2.25; 12 for \$4.00. 6102 FXIMA (Plumy Bleeding Heart.) Somewhat more dwarf with more finely cut foliage. Produces an abundance of pink and white heart shaped flowers in graceful racemes in April and May and often at intervals throughout the season. 1½ to 2 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40. 6103 SFT OF TWO BLEEDING HEARTS—For only 65c.

All of these Hardy Per-your Rock Rock Garden Plants ennial Plants suitable for Garden arc marked "R. G."

cut flower. They bloom from July to September growing about 18 inches tall. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

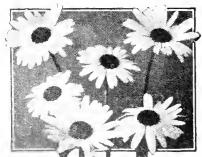

Ranuculus, Buttercup Dalsy

6088 Chinese Corydalis CHEILAN-

G. A lovely little plant with beautiful fern-like foliage bearing long racemes of rich yellow blooms somewhat resembling the bleeding heart. Of Chinese origin this plant is very hardy and of easy culture in any well drained soil. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6357 Hardy Candytuft Iberls, Glbral-tarica. R. G. Desirable dwarf plants 8 to 10 inches high with evergreen foliage that is completely covered with dense heads of white flowers in early spring. The hardy Candytufts are very useful and pretty plants for edging the hardy border or for use in the rockery. They are fine also for carpeting among shrubs, tulips or any other similar location. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

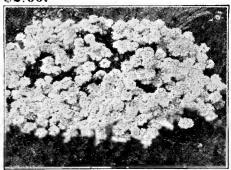

Burbanks Shasta Dalsy

Daisies Chrysanthemum Maximum. The Daisies are always welcome additions to the garden; their decorative effect in the garden is pronounced because of their free flowering habits and good foliage, and as cut flowers they are always useful.

6053 BURBANKS SHASTA. An improved type, having immense single glistening pure white flowers 3 to 4 inches across on tall stems. Hardy and of easy culture. A wonderfully profuse bloomer, giving you great quantities of good long stemmed flowers. Starts to flower in June and continues more or less freely all summer and fall. 2 to 2½ feet tall. Scc Color Plate Page 51. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6122 KOREAN DAISY. A lovely new daisy from Korea, bearing large white flowers with golden centers somewhat resembling a glorified Shasta. Extremely hardy, blooming from early October to December. 30 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Hardy Candytuft

makes a very attractive border for beds. Funkias do well in shady corners or under overhanging shrubs. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Gaillardia, Blanket Flower

Geum, Avens Sce Color Plate, Page 51

6176 Grandiflora. One of the showiest hardy plants growing about 2 ft, high and beginning to

flower in June, they continue the entire season. The large flowers are of

orgeous coloring. The center is dark red-brown, while the petals are marked with rings of brilliant crimson, orange and vermilion. Each 20c; 3 for 50c; 6 for 50c; 12 for 51 60

90c; 12 for \$1.60. 6351 Magnificent. A tall strong growing va-riety with immense flow-

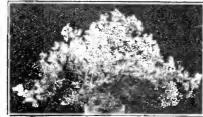

Hardy Perennial Plants Continued 6130 Doronicum (Leopardbane Excelsum.

6133 Echinops Globe Thistle

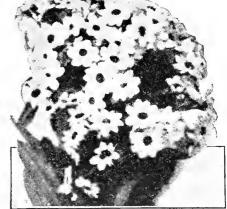

Wonderfully interesting hardy perennial plants 3 to 4 feet tall, having handsome, silvery, thistle-like foliage, and very attractive globe-shaped steel blue flowers 1 to 2 inches in diameter. The flower heads if cut when first open and hung in a dark closet to dry, make very attractive winter bouquets. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6183 Eupatorium tum. Coelestinum. A useful hardy perennial resembling Ageratum and perennial resembling Ageratum and bearing clusters of lovely lavender-blue flowers from August to frost. Height 12 to 24 inches. Fine for perennial border and makes adorable bouquets because of its delicate form and unusual color. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Gypsophila Paniculata

Hardy Forget-Me-Not

Hardy Gypsophila

A class of hardy plants that is almost indispensable to the garden from which cut flowers are gathered. Gypsophila is one of the finest bouquet trims, being equally good with any flowers.

6181 PANICULATA. (Baby's Breath). Perhaps the best of the hardy Gypsophilas for producing that "mist" effect when used in bouquets. Its numerous tiny white flowers are produced in light feathery panicles with delicate foliage from July to September. Each 20c: 3 for 50c; 6 for 90e: 12 for \$1.60.

6182 BRISTOL FAIRY. A double flowered form of this beautiful flower, with greater vigor and more continuous blooming habit. The tiny double white flowers are produced almost continuously as cut. These are grafted plants and will give you the best results. Each 10c; 3 for \$1.00; 6 for \$1.80; 12 for \$3.20. 6174 SET OF 2 GYPSOPHILAS ONLY 50c.

Helianthemum, Sun Rose

A very delightful little plant having evergreen foliage and forming dense clumps of rich green from which during July and August, spring a multitude of bright colored blooms borne on stems six to eight inches tall, fairly hiding the plant itself. They especially delight in a sunny Rock Garden location.

6195 The Fireball Bright scarlet, double 6354 Sudbury Gcm Crimson bronze, single. Prices on either variety of Helianthemum. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00. 6444 Hardy Forget-Me-Not Myosotis,

The true "Forget-Me-Not" appealing in its modest azure beauty and cherished for its sentiment. Bushes up to 12 inches high and blooms profusely during early summer. Few spring flowers are more admired than the lovely Forget-Me-Not, and few flowers are so well adapted to so many uses and locations. For low borders or mass bedding they are invaluable, and for Rock Garden work they are unexcelled. Succeeds best in deep, rich soil and partial shade. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Double Hollyhocks

Stately, majestic hardy plants, from 6 to 8 feet high, which are a necessary part of every old-fashioned garden, and should also find a place interspersed with shrubbery, as clumps on the lawn or in the mixed border, where their colossal spikes of bloom produce bold and showy effects, which cannot be secured with any other flowering plant. The Hollyhock requires a deeply dug, well drained soil. We offer an exceptionally fine strain of Double Hollyhocks in the following colors: White, Newport, Pink, Sunset, Crinison, Lilac and Yellow, Sold only in sets of six, one of each color as above.

6192 Set of six colors, not separately labeled, \$1.00. Stately, majestic hardy plants, from 6 to 8 feet high,

Penstemon Sec Color Page 70

Hardy Pinks, Dianthus Plumarius

A great deal of the charm of the old fashioned gardens of our grandmothers day was due to the Hardy Sweet or Spice Pinks that were then
so popular and held a prominent place. The pinks we offer are improved
varieties of this same delightful species.

6111 PRINCE BISMARK. R. G. A lovely new Dianthus producing its bloom in good sized clusters on upright stems eight to ten inches tall. The flowers are a beautiful bright rosy pink. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6110 IPSWICH CRIMSON. A beautiful new variety of deep crimson with sweet-scented flowers. 6 to 8 inches. Each 25c; 3 for 65c.

6116 MARGARET MARTIN. R. G. A new introduction by our perennial grower who has thought so well of this variety that he named it for his little daughter. It is a beautiful flower of rich mahogany crimson, very sweetly scented and a continuous beautiful flower of rich mahogany crimson, very sweetly scented and a contin bloomer. 6 to 8 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6120 Set of 1 Hardy Garden Pinks Only 90c.

Hardy Perennial Plants

Ocnothera

Platycodon

Oenothera, Evening Primrose
The Evening Primroses are among the most interesting plants for the garden. They are especially fine in a sunny location where their brilliant yellows glisten in the sun light with a brilliancy of gold.
6156 MISSOURIENSIS. R. G. A delightful variety of dwarf habit producing rich yellow flowers often 3 to 4 inches across from early June to August. 8 to 10 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Oriental Poppy

Hardy Primrose, Perfection

Oriental Poppy

soften 3 to
st. 8 to 10

15: 12

Papaver Orientale. These are the royal representatives
of this popular genus, growing about 3 feet high and far
surpassing in magnificence of bloom all the other types.
For a display of brilliant coloring nothing equals them during their
time of flowering, May and June, whether planted singly or in masses.
Almost any kind of soil suits them.
6458 ORIENTAL SCARLET. Large cup shaped blooms of
brightest crimson-scarlet with large purplish-black blotch at base of
petals.

petais.
6468 ORIENTAL MRS. PERRY. A very fine variety of orange-

apricot.
6467 SET OF TWO ORIENTAL POPPIES FOR 45c.
Prices on Oriental Poppies. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6465 Platycodon, Chinese Bellflower

Balloon Flower. A splendid hardy perennial, having tuberous roots and forming bushes 2 feet high, with profusion of pretty five petaled bell-shaped, star-like flowers, 1½ to 2 inches across. The flower buds before opening resemble small balloons. A very desirable plant for every garden. The color varies from dark blue to white. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6466 Plumbago Larpentae R. G.

One of the most desirable border and rock plants, and a very persistent bloomer from July until freezing weather. It grows 6 to 8 inches high and of very spreading habit. During blooming season it is fairly covered with lovely dark blue flowers. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Hardy Primrose, Primula Elatior
While the Primulas are among the most beautiful and interesting of all early blooming plants for the border and rock garden they are still little known and appreciated in American gardens. Give them partial shade and a moist but well drained soil.

6567 MUNSTEAD RED. R. G. Rich mahogany-red flowers often gold laced and borne in elustered heads.

6568 MUNSTEAD YELLOW. R. G. Beautiful large flowered yellow shading darker. Very good bloomer.

6470 POLYANTHUS PERFECTION. R. G. The pretty flowers of yellow, crimson, red and brown are borne in clusters 8 to 10 inches above the fine foliage. In a sunny spot they are among the first to bloom in spring.

Price any of above Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.6582 Set of 3 above Primulas Only 60c.

Hardy Pinks

6460 Pachysandra Terminalis

Japanese Spurge. Low trailing plants growing 6 to 8 inches high Japanese Spurge. Low trailing plants growing 6 to 8 inches high and forming dense mats of practically evergreen foliage. A very desirable ground cover. Pachysandra thrives under trees, under shrubs, even in the densest shade it produces an abundance of its bright glossy green foliage. Strong 2 year field grown plants. Each 20c; 6 for 90c; 12 for \$1.60; 50 for \$5.00; 100 for \$8.00; 1000 for \$60.00.

Penstemon, Beards-longue

Beautiful border plants with bright attractive foliage and brilliant showy blooms. Very hardy and free-blooming adding much color to the perennial border planting during mid-summer. The tall slender spikes bear many trumpet shaped blooms with hairy-throat, hence the name. See Color Plate, Page 51.

6154 SHELL PINK. Flowers of a delicate shell pink on tall graceful spikes. Very beautiful and bright colored. 30 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Physostegia, Dragon Head

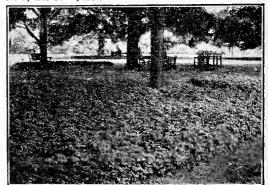

One of the most beautiful of our midsummer hardy perennials, producing its spikes of colorful bloom in July and almost continuously until frost.

6164 VIRGINICA VIVID. R. G. A dwarf compact type producing flowers of deep pink. Free blooming, continuing until frost. A fine rock garden plant. 18 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6469 Pyrethrum, Painted Daisy

See Color Plate Page 70.

Of low compact growth with feathery fernlike foliage of bright green. During June and July they bear multitudes of long stemmed daisy-like flowers in shades of pink, rose and white. Excellent subjects for the hardy border or for bedding. 15 to 18 inches. This is the plant from which many Insecticides derive their most important ingredient. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Pachysandra Terminalis

Trollius, Globe Flower

Perennial Plants (Continued)

⁶⁵⁸⁶ Hardy Salvia, Meadow Sage

Azurea Grandissora. A variety of great beauty bearing high azure colored bloom in great profusion upon tall slender spikes. The plants grow from 3 to 4 feet tall and bloom from August until killed by frost. Spreading plants, with swaying flower wands which arch gracefully clear from the crown. Salvia Azurea is an excellent border plant and its graceful form of growth fits well in any planting. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6579 Saxifraga CrassIfolia. (Rockfoil) R. G. dense racemes of deep pink flowers borne well above the foliage. Blooms profusely from April to June. 12 to 15 inches. A most desirable class of plants for rock garden use, having attractive deep green foliage which takes on most beautiful tints in the fall. They are at their best when growing among rocks. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

Hardy Sweet Peas

6588 Sidalcea, Rose Queen

A desirable hardy perennial that is very little known. Well worth a place in every garden, Produces spikes 2½ to 3 ft. in height, densely covered from July to September with pretty single rosy-pink flowers. Each flower about an inch across. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6593 Hardy Sweet Peas

SET OF THREE NOT SEPARATELY LABELLED FOR ONLY 50c; 3 sets for \$1.25.

Sidalcca-Rose Queen

Statice, Sea Lavender

6591 LATIFOLIA. Low clumps of thick leathery foliage forming a rosette from which rise the flower stems to a height of 15 to 18 inches bearing large loose panicles of pretty little purplish blue flowers. Fine for bouquet use or for drying. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6595 DUMOSA. A new variety forming busby plants and bearing large heads or closely arranged silvery gray flowers. The finest for drying, Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Rock Gardens

All plants suitable for Rock Gardens have R. G. after the

Veronica, Speedwell
6614 LONGIFOLIA. One of the most attractive of all the blue flowers for the border or perennial garden. Violet-blue flowers are produced in spikes 6 to 12 inches long on graceful stems from July to September. 2 feet.

6613 ELEGANS. R. G. A semi-dwarf variety producing large pink flowers. May be used to fine advantage in the Rock Garden. Blooms July to Sept. 12

Viola Cornutas

Sce Color Plate Page 51

6616 JERSEY GEM. R. G. Not only a gem for the Rock Garden, but also one of the most valuable hardy bedding plants of recent introductions. The plant is of compact sturdy habit, forming neat clumps. It is in bloom continually from May to October. The flowers are pure violet-purple, and borne on stems 5 to 6 inches long. Each 20c; 3 for 50c; 6 for 90c; 12 for \$81.60. long, Eac \$1.60.

6618 APRICOT. R. G. The plants are small and of compact growth but very colorful with their large blossoms of various shades of apricot-yellow. They bloom almost continuously from May until frosts. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6619 SET OF TWO VIOLAS FOR 35c.

6601 Teucrium Chamaedrys. Germander R. G. A handsome little plant with shrub like habit, having glossy green foliage. The flowers are produced in loose whorls on spikes which rise above the foliage, they are reddish-purple produced in July and August. Excellent in the Rock Garden or as an edging. 12 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Statlee

6602 Thymus, Sweet Thyme

Cltriodorus. R. G. A delightful little plant or subshrub with fragrant lemon scented foliage. Rarely grows over eight inches tall making a delightful Rock Garden plant. The flowers are filac or purphish and produced in May and June. 6 to 8 inches. Each 25c; 3 for 63c; 6 for \$1.15; 12 for \$2.00.

Trollius, Globe Flower Plate Page 83.

The large richly colored Globe Flowers are indeed beautiful and charming. When in full bloom, a group of them with their large nodding heads in rich yellows and orange is a wonderful sight. They grow to 2 feet, begin blooming in May and continue until August. Their foliage is a beautiful dark green witb palm-like leaves making very attractive plants for the garden even when out of bloom. Trollius seems to delight in a moist but well drained soil blooming more profusely and continuously with a regular supply of moisture. They are lovely in the Rock Garden where their height is not too great. We are offering five of the finest colors.

6604 SALAMANDER. Large richly colored flowers

6604 SALAMANDER. Large richly colored flowers of a lively rich orange. Very free flowering.

6605 METEOR. Heavy dark orange, several shades darker than Salamander. The richest color of all. 6606 EMPIRE DAY. A lighter shade of orange of great lustre. A very popular and beautiful variety.

6607 GOLDQUELLA. A very rich yellow-orange. Bright and clear. This variety was recently voted an Award of Merit by the R. H. S. of England.

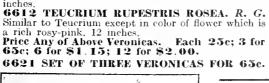

6608 EUROPIUS SUPERBUS. A light lemon yellow, soft and pleasing. Europius Superbus was also voted an award of Merit by the R. H. S. of England. Price Any of Above Trollius. Each 40c; 3 for \$1.00; 6 for \$1.80; 12 for \$3.20. 6609 Set of 5 Above Trollius for \$1.75.

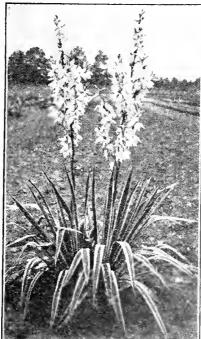

6611 Valeriana, Centranthus

Coccinea rubra. R. G. This beautiful and useful perennial plant produces an abundance of showy flower heads of a delicate old-rose shade from June to October. Its foliage is excellent, lacy and rich colored making it adaptable to any location in the rockery or garden. 2 feet. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6620 Myrtle, Vinca or Periwinkle

Mlnor. R. G. A beautiful and useful trailing evergreen MInor. R. G. A beautiful and useful trailing evergreen plant, excellent for carpeting the ground under shrubs or trees, on a terrace or embankment or in any location where it is not desirable to maintain a mown lawn. Especially well adapted to cemetery use, and in Rock Gardens about the larger rocks. The flowers are blue and produced at intervals throughout the season. Strong nursery grown clumps. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60; 25 for \$2.65.

Variegated Yucca

6649 100 Rock Garden Plants our selection, all from this list. A well balanced Rock Garden For ONLY \$10.00

6617 Violet, Prince of Wales, R. G.

These are the popular English Violets, with their fragrant blooms of rich violet-purple produced very profusely on long stems. They are perfectly hardy everywhere, prefer a rich moist soil and partial shade. They bloom in April and May. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6641 New Variegated Yucca

Adam's Needle. Among stately hardy ornamental foliage and flowering plants, there is nothing more effective and striking for isolated positions on the lawn than this splendid type of YUCCA. Its broad sword-like evergreen foliage and immense branching spike of drooping, creamy-white flowers during June and July make an attractive plant for any position. This valuable new variety is identical with the popular old variety, except that each sword-like leaf is broadly margined creamy white, adding much to its beauty, EXTRA STRONG PLANTS, Each 10c; 3 for \$1.00; 6 for \$1.80.

Hardy Flowering Shrubs

Double Althea

Add Beauty To Your Home

Permanent and increasingly beautiful results are more easily obtained from plantings of hardy flowering shrubs and vines than from any other sort. The small cost in time and money necessary, is well spent in securing a well-kept and attractive home grounds, adding to the beauty and comfort of home and increasing the value of property. Plantings of hardy shrubs once established become an established part of your property almost as permanent as your house and lend that beauty and harmony to the house and surrounding landscape necessary to produce the complete picture of beauty and comfort, interesting and inviting to all who pass by.

Quick results and low cost are two features of the shrubs that we list in the following pages. Strong, healthy roots direct from our nursery that will quickly grow into plants of beauty and at a price that is only possible because of the great number of them that we grow and sell. Just a small amount invested in hardy flowering shrubs, vines or hedge plants will give you results far beyond your expectations and add more in beauty and satisfying comfort to your home than any investment of

equal amount. To start right, buy the best.

Very attractive hardy shrubs or small trees, very easily grown and forming very symmetrical plants whether grown as a shrub or to tree form. The Altheas are a very fine hedge subject and with their large gay flowers from July to October are very attractive.

6701. Double White (Jeanne de Arc). The best of the pure white double flowering Altheas and very fine for any location. 1 year size. Each 20c; 3 for 50c; 6 for 90c.

6702 Double Double White (Sould de Feu).

6702 Double Red (Boule de Feu). Very beautiful, and the freest blooming of all the double Altheas. Excellent for hedge or group use.

1 year size. Each 20c; 3 for 50c; 6 for 90c.

6708 Set of Two Altheas White and Double Red for 35c.

6740 Buddeia or Butterfly Bush variabilis Magnifica

One of the most desirable summer flowering shrubs, beginning to bloom in July, it continues until cut by severe frost. The flowers are of a pleasing shade of violet mauve. Succeeds everywhere and blooms freely the first season. In the North it dies down to the ground in winter, forming a new bush each year, 5 to 6 ft. high. In August and September every branch carries a beautiful spike of fragrant flowers that attracts many butterflies, hence the name "Butterfly Bush." See Color Plate Page 83.

6749 Strong blooming slze plants. Each 30c; 3 for 75c; 6 for \$1.35.

6739 "Ile de France" New Improved Buddleia

This wonderful new French introduction is a thrilling beauty with its brilliant, rich, rosy-purple flowers of such fragrance that it attracts bevies of beautiful Butterflies. The plant grows 3 or 4 feet in height, forming a symmetrical, bushy shrub, every growth of which is terminated by a graceful spike of the lovely flowers, 9 to 12 inches long. Blooms from late July to the end of autumn. Strong blooming size plants. Each 50c; 3 for \$1.25.

7056 Cornus, Florida Rubra

Flowering Dogwood. This very desirable variety of flowering Dogwood bears a mass of deep pink blooms in early Spring before the foliage appears. The foliage throughout ot deep pink blooms in early Spring before the foliage appears. The foliage throughout the Summer is a very handsome rich green, in the Autumn turning to a bright crimson. They grow into tree form reaching the height of 20 to 30 feet with very graceful and attractive branches. Their bright flowers, handsome foliage and crimson coloring in the Autumn make them very ornamental and attractive throughout a long season. They are an especially attractive tree for the lawn or yard creating much attention. The Cornus likes a moist but well drained soil and does well in either sun or semishade. We are offering them this year at very reasonable prices. Strong. Each \$1.00; 3 for \$2.50; 6 for \$4.50.

7022 New Red Barberry
See This Barberry in Full Color on Page S3
The foliage is rich bronzy reddish, purple. This new Barberry will form neat, symmetrical clumps 'that will be an ornament to any lawn. To produce the most brilliant colors it should be planted in full sunshine. As autumn approaches, it becomes more brilliant in color. Perfectly bardy and easy to grow hardy and easy to grow.

Price 2 year, 12 to 18 inch, each 35c; 3 for 90c; 6 for \$1.60.

Japanese Barberry

Berberis Thunbergl. One of the most useful and desirable of all shrubs. Equally as well adapted to border or group planting either mixed with other shrubs or by themselves. And especially valuable as a hedge subject. Their thick luxuriant foliage graceful and informal and the bright red berries carried through the winter make this a very attractive shrub.

7020 JAPANESE BARBERRY. 12 to 18 Inch. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60; 25 or more at 12c each.

7021 JAPANESE BARBERRY. 18 to 24 Inch. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40; 25 or more at 18c each.

7014 Double Pink Flowering Almond

Amygdalus. Very desirable and attractive. Extra early flowering shrubs of rather dwarf habit. Usually 3 to 4 ft. in height. The branches are completely covered with pretty little double pink flowers in early spring before the leaves appear. This is an unusually valuable shrub but not grown as widely as it should be. Adapts itself well to any location but is probably best as a single specimen in a position where it may develop to its fullest beauty. See Color Plate Page S3.

7014, 2 yr. 2 to 3 ft. Each 50c; 3 for S1.25; 6 for S2.25.

7029 Bechtel's Double Flowering Crab
This is not a shrub, but rather develops into a small tree. It is perfectly hardy everywhere, succeeding nicely in all soils and climates. It would be difficult to describe its wonderful beauty when in bloom, the branches bending under a profusion of delicate pink delightfully fragrant rose-like flowers. The only sweet scented double flowering crab. It will require a little more room than the ordinary flowering shrubs on account of its tree-like habit of growth, and its full beauty can only be known and appreciated when it has plenty of room to develop. It is very often used as a single specimen plant for lawn planting and in this location during its blooming period in May and June presents one of the most gorgeous sights imaginable. See Color Plate Page S3.
Our price, 2 year, only 60c; 3 for \$1.50.

Our Garden "How" Book is free with orders of \$2.00 or more

Chiucse Azalea, Mollis

Calycanthus, Sweet Scented Shrub

A universal favorite for a hundred years or more. Also called "Spice Bush" as the bark is quite fragrant. Blooms in June and intermittently throughout the Summer. Delightfully fragrant, chocolate-brown flowers. Height 5 to 6 feet.

7012 2 year, well branched, 15 to 18 inch. Each 10c; 3 for \$1.00; 6 for \$1.80.

7016 Hardy Chinese Azalea Mollis

See Azalea Mollis In Color on Page 83

The Azaleas are one of the most beautiful and popular families of hardy flowering shrubs in cultivation, and the Chinese Mollis is perhaps the most satisfactory and most easily grown of all. Their great charm is in their wonderful array of color, they vary from light yellow to salmon and dark orange, scarcely two plants exactly alike in color. For best effect we suggest planting in groups as the yellow, orange and salmon blend beautifully together. They are perfectly hardy thriving under ordinary garden conditions but do best in a protected location where they will be in partial shade. For best success, prepare the soil to the depth of 15 to 18 inches, using 50 per cent of well rotted leaf-mold from the woods or decayed peat from a swamp or both. Be careful that there is no lime in the soil. Water freely. The plants we offer are strong healthy plants that will give you lovely flowers the following spring.

following spring.
7016 Strong 12 to 15 Inch size. Each \$1.25; 3 for \$3.15; 6 for

Deutzia, Pride of Rochester

Hardy Flowering Shrubs, Cont. Bush Honeysuckle, Lonicera

The upright Honeysuckles have bright pretty llowers followed by showy berries that last through the fall. Make very desirable bushy screening hedges, and the nucleus of tall shrub groups. These shrubs are not particular as to soil or conditions. They always seem to do well. They will also do well in the shade.

Tatarica Rosea 6-8 feet. This is very attractive when in blossom, being one of the few early pink-flowering shrubs, followed by bright red berries that stay on all summer.

6737 1 year size, Each 20c; 3 for 50c; 6 for 90.

7037 2 year size, Each 35c; 3 for 90c; 6 for \$1.60.

Deutzia, Pride of Rochester

The Deutzia is a fine showy shrub of great ornamental value coming to us from Japan. Their luxuriant foliage and profusion of attractive flowers have given them a front rank among flowering shrubs. Pride of Rochester is a very profuse bloomer bearing pretty double flowers of pinkish white. The flowers are produced in May and June and frequently to a smaller extent at later intervals.

7065 Heavy 2 year, Each 30c; 3 for 75c; 6 for \$1.35.

Bush Honeysuckle

7108 Hypericum, Goldflower Moserianum A very desirable shrubby perennial for the border or lawn, producing long, slender, much branched stems, which are of free, graceful and pendulous habit. The flowers are borne freely from July to late September and are a rich golden yellow, 2 inches or more in diameter, resembling immense single buttercups. The numerous yellow stamens and crimson anthers add much to the attractiveness of the flowers. Of very easy culture and especially useful and desirable for a sunny location. Hypericum is herbaceous dying to the ground each year. 2½ ft. tall. One year, 12 to 18 inches. Each 30c; 3 for 75c; 6 for \$1.35.

Scarlet Japanese Quince

Cydonia Japonica Wery popular and desirable shrub completely covered with dazzling scarlet flowers in early spring, May, before the leaves appear, followed by small fruits which are quite fragrant when ripe. The plants have protecting thorns and are very desirable grown as hedges, producing a most brilliant effect when in bloom. The plants grow to a height of 5 to 6 ft. The foliage is dark glossy green. One very nice feature of this shrub is the fact that the branches can be cut any time after the first of the year and brought indoors for branches can be cut any time after the first of the year and brought indoors for 7193 1 year, heavy plants, Each 30e; 3 for 75c.

Hardy Hibiseus

Hardy Hibiscus Mallow Marvels

The most valuable acquisition in hardy herbaceous plants introduced in recent years. Forms large plants or clumps 5 to 6 feet high, and 3 to 4 feet across which produce their many large blooms in the most beautiful colors from white through various shades of pink and red to brilliant crimson. We cannot offer in separate colors.

7103 Strong 2 year plants, 18 to 24 inch. Each 25c; 3 for 65c; 6 for \$1.15.

Hydrangeas

These magnificent hardy American strubs are of outstanding merit among all flowering shrubs. Their beautiful invariant foliage and their attractive massive clusters of bloom, their case of culture and their adaptability to any use are only part of their valuable characteristics.

Japanese Rose-

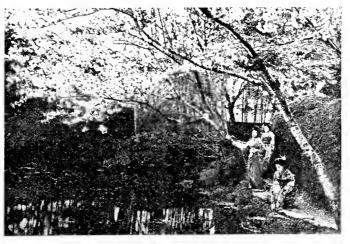

Flowering Cherries
Tokio presented Mrs. Taft with 3,000 of these beautiful trees which bloom each spring on the banks of the Potomac in Washington. The fame of these Flowering Cherries has spread all over our country and we know you will be glad to see that we have listed three of the best varieties here and at a price which makes it have listed three of the best varieties here and at a price which makes it possible for you to plant several of them and make your home grounds attractive like Japan and Washington in "Cherry Time."

Price any variety, Strong 1 year, Each 50e; 3 for \$1.25; 6 for \$2.25.

68 18 Set of 3 Double Lilacs, One of each variety for \$1.25.

Hydrangea, Paniculata

Rhus, Smoketree

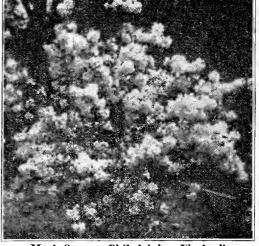

Hardy Flowering Shrubs, Cont. Rhus, Purple Smoketree

Purple Fringe. A curious large growing shrub forming a broad round-headed bush. Delicate fringe like or featbered flowers in early summer very freely produced. Leaves are a bright pea-green. When in full bloom the appearance is like a cloud of smoke. Very novel and decorative. 6896 One year. Each 30c; 3 for 75c; 6 for \$1.35.

Kolkwitzia or Beautybush

Amabilis. A handsome new sbrub which has been introduced to American gardens from Cbina, becoming at once most popular. Will grow 5 to 7 feet tall, very dense and bushy with long arching branches which are densely covered in May with the beautiful lively pink bell shaped flowers. Has all the merits of one of the best decorative ornamentals, excellent form and habits, beautiful profusion of bloom and finest foliage. Will succeed in smaller than the continuous statements and the statement location. nearly any location.

6831 Strong plants. Each 50c; 3 for \$1.25.

Mock Orange, Philadelphus Virginalis

Snowberry Symphoricarpos Racemosus

3 to 4 ft. Neat shrubs of slender, graceful medium growth, having pretty small pink flowers in June or July, followed by large clusters of waxy-like snow white borries throughout the late summer, autumn and early winter. A very effective shrub for masses in the shrub border, or for foundation planting. Does well under most soil conditions and stands the smoke and dirt of

6915 Strong one year size, 12 to 18 inch. Each $25\,c;\,3$ for $65\,c.$

7215 Two year, 2 to 3 ft. Each 35c; 3 for 90c; 6 for \$1.60.

Coral Berry Indian Currant

Although related to Snowberry and similar to it in many ways, Coral Berry is not so upright in growth, and the branches sweep gracefully to the ground, almost trailing in habit. An excellent subject for planting on dry terraces and banks where it thrives in spite of dry and adverse conditions. It also makes a pretty hedge or border. Grows about 4 ft. tall and bears pink flowers in July. The beauty, however, is in the racemes of currant-like scarlet berries which follow the flowers during the fall and winter. during the fall and winter.

7055 Two year heavy, 2 to 3 feet. Each 30c; 3

African Tamarix

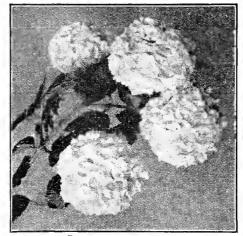

Strong slender shrubs, growing to a height of 8 to 10 feet. Strong stender shrubs, growing to a height of 8 to 10 feet. Sprays of delicate pink flowers appear in early spring, April and May, before the leaves appear. Blooms at intervals throughout the summer. The foliage is light green, fine and feathery. Very attractive. Excellent in masses with tall shrubs.

6912 One year strong plants, 12 to 18 inch. Each 25c; 3 for 65c.

3 for 65c.

Snowball, Viburnum

SnowballorViburnum

Opulus Sterilis. The well known and always popuopillus Sterilis. The well known and always popular snowball or sometimes called the Guelder Rose. Its large globular clusters of snow white flowers in May and June and its rich dark green foliage bave made it one of the most attractive and conspicuous shrubs in the gardens for many generations. They do well in nearly any location even in very dry soil, sun or semi-shade and will often develop to 8 to 10 feet in beight and very symmetrical in shape.

7213 Strong Two Year, Each 50c; 3 for \$1.25.

7253 Vitex Large Leaved Large Leaved

Macrophylla. An interesting flowering shrub. Forms graceful, shapely attractive plants 3 to 4 feet high with nicely divided foliage with aromatic odor. The pretty lavender-blue flowers on long terminal spikes or racemes, begin blooming in July, continuing without interruption until frost.

If you want a really pretty shrub that your neigh bors do not have, try this, as we feel sure you will like it. The shrub will bloom better if the tops are cut back to within about 6 inches of the ground each spring.

Price, Strong 2 year Plants 50c; 3 for \$1.25.

Send 25c for How to Landscape copyour Garden How Book. It will belp you.

Mock Orange, Virginalis
One of the most popular of our larger growing shrubs for background to other lower growing varieties blooming freely in May and June.

A magnificent new variety that is sure to become popular. The flowers are large usually semi-double; very fragrant and produced in profusion. Decidedly one of the best varieties of Mock Orange.

6857 One year. Each 20c; 3 for 50c.

7157 Strong two year. Each 30c; 3 for 75c.

Weigelas The beautiful trumpet shaped flowers appear in May and June in such profusion as to almost completely bide the

Weigela Rosea
Pink. May. The most popular
Weigela sold today. Its delicate
pink bell-shaped blossoms are borne in great profusion along
great arching canes. Tall variety.
6956 One year. Each 25c; 3 for 65c.

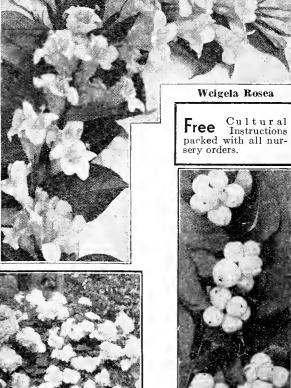

7256 Two year. Each 40c; 3 for \$1.00.

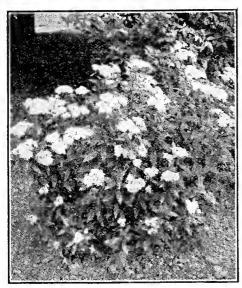

For real beauty of plant and flower few shrubs excel the Hydrangeas—See Page 73.

Snowberry

Anthony Waterer Spirea

Hardy Flowering Shrubs, Cont. Spireas

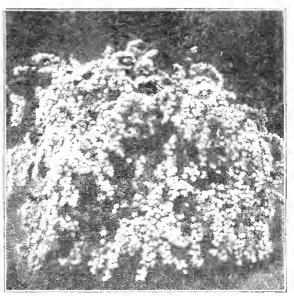

The Spireas are among our most useful and popular shrubs. They are all perfectly hardy and do well under any fair condition. You will find them satisfactory for specimen planting or massing. We offer several of the best varieties as described below.

Van Houtte Bridal Wreath. 4 to 8 ft. White, May. This is the most useful hardy shrub. The flowers are in flat clusters, usually an inch or more across, produced on spreading, pendent branches often drooping to the ground. In full bloom they are a mass of white and never fail to attract attention. See Color Plate Page 83. 6937 One year, Each 20c; 3 for 50c; 6 for 90c. 7237 Two year, heavy. Each 40c; 3 for \$1.00; 6 for \$1.80.

Anthony Waterer Desirable dwarf growing, profuse blooming shrub, forming neat, round bushes two feet high. Large, flat sprays of rosy crimson flowers from June to September. Useful for bordering porches or clumps of large shruhs.

6921 One year. Each 25c; 3 for 65c; 6 for \$1.15.7221 Two year. Each 35c; 3 for 90c; 6 for \$1.60.

Thunbergii A dense fluffy bush, 3 to 5 ft. One of the earliest. A mass of snow white flowers in early May. 6935 1 year. Each 20c; 3 for 50e; 6 for 90c.

Spirea Van Houtte or Bridal Wreath

Hardy Climbing Vines

The attractive beauty that may be added to a home by planting a few hardy climbing vines around the porch or on a trellis, arbor or fence is unsurpassed by any other plantings. Their usefulness in covering unsightly fences and buildings and turning them into objects of beauty is far in excess of their small cost. They fit in and grow well in locations where no other plants will grow with success. Every home should have a few, and our list includes only those which will succeed in nearly any location.

8003 Boston Lyy Ampelopsis Veitchii
Once it is established it grows rapidly and will stay indefinitely needing only an occasional trimming to keep it within hounds. It is not attacked hy disease or insects and the foliage is not injured by smoke and dirt of cities. The glossy leaves turn to a hrilliant orange scarlet in the fall. Its greatest value is in its elinging to any brick or stone wall, and will completely cover any house or other huilding even to the height of 30 to 40 ft, or more. Two year size 35c; 3 for 90c; 6 for \$1.60.

Boston Ivy
7907 Bignonia Radicans A robust elimbing vine. Its orange searlet trumpets. Blooms in July. Produces an abundance of beautiful dark green foliage which makes it very desirable for covering summer houses, arhors or rustic fences. It clings tightly with its twining tendrils, which are horne at intervals along the branches. Easily established and grows luxuriantly. Grows to a height of 15 to 20 ft. Strong one year plants 30e; 3 for 75c; 6 for \$1.35.

A very popular hardy deciduous climbing vine unsurpassed for use in shading porches or on arhors. They quickly cover any unsightly object over which they may elimb. The flowers are delightfully fragrant.

8030 Hall's Japan an abundance of rich green foliage, which in mild locations is evergreen. Its creamy-white flowers are produced from June to Augustand are very fragrant. Each 25c; 3 for 65c; 12 for \$2.00.

8031 Coral A distinct variety which produces large trumpet shaped flowers in elusters. The flowers are a coral scarlet of mild fragrance and very showy. The foliage is rich and glaucous, making a beautiful covering wherever used. Strong, 2 year plants cach 30e; 3 for 75c; 6 for \$1.35.

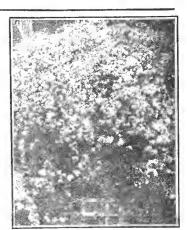

8033 Set of 2 Varieties, 1 root each for 50c.

8014 Paniculata or Snowbank

Sweet-scented Japanese Clematis. Completely covered in September with a mantle of puresnow-white fragrant flowers. Strong Plants, each 25c; 3 for 65c; 6 for \$1.15.

7911Coral Coccinea An interesting species producing very hall-shaped, coral-red flowers from early June until late fall. Strong roots, each 35c; 3 for 90c; 12 for \$2.80.

Clematis, Paniculata

Large Flowering Clematis

These desirable large flowering Clematis require more careful culture than the small flowered varieties. They require rich deep soit, good drainage, and an abundance of water. They should he planted with the crown 2 to 3 inches below the surface and spread the roots out horizontally.

8012 Jackmanii The best of the purple flowered varieties. Flower large 4 to 5 inches across and of rich velvety purple, produced more or less through July to September. Each 75e;3 for \$1.90.

8013 Madame Ed. Andre Large flowers of rich erimson.

Chinese Wisteria Large pendulous clusters of pea-shaped blossoms of rich purple, which fairly laden the vine in May and early June. They are most beautiful when covering the porch or a large arbor where they will climb higher and higher seemingly with no limit. We are offering grafted roots from hlooming vines which are much quicker to establish themselves and bloom than seedling plants.

7975 Strong plants, Each 40c; 3 for \$1.00; 6 or \$1.80.

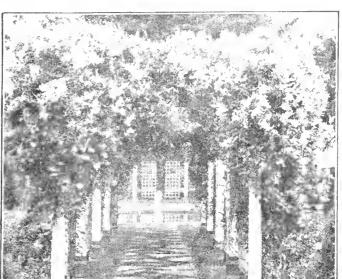

Wisteria

7966 Silver Lace Vine

Polygonum Auberti and valuable rapid climbing, hardy vines introduced in many years. The plant is a quick growing vine of twining habit, often attaining a height of 25 to 30 ft. in a season, producing more flowers than any other hardy vine we know, throughout the summer and fall months, literally covered with silvery-white foamy sprays. The illustration from a photograph gives a very goodidea of the great beauty. This splendid vine is usually offered in growing plants, which are rather difficult to transplant. We are fortunate in having a supply of heavy, dormant pot plants, which are 2 year field grown plants, guaranteed to give you satisfaction. If you have a place for a beautiful permanent hardy vine, you will be delighted with this variety. Strong vines 50c; 3 for \$1.25.

Climbing Bitter-Sweet

8009 Celastrus Scandens Handsome glossy folters of beautiful orange crimson fruits retained all winter. Its graceful sprays of berries make charming winter house decorporate the state of ations. A popular vine for covering rough fences, or other unsightly places. 2 year roots. Each 25c; 3 for 65c; 12 for \$2.00.

Beautiful effect obtained with Silver Lace Vines.

Hall's Japan Honeysuckle

Frau Karl Drusehki Rose

Hardy Hybrid Perpetual Roses

The plants we offer are all strong, healthy, two year old, field grown, budded stock.

These are the beautiful "June Roscs" so universally popular. They are the largest and richest in colors of all Roses, and are perfectly hardy everywhere. In accordance with our established policy, we have selected only six of the best varieties.

8211 Frau Karl Druschki (P. Lambert 1900.) A recent referendum among the members of the American Rose Society brought out the information that this is the most popular Rose in America. Its pure, snowy-white, unshaded blooms are of immense size, sometimes reaching almost 6 inches in diameter and they are of lasting quality, on fine stems, though without fragrance. In addition to its abundant bloom in June, will, if kept growing, produce many flowers throughout the summer and in the autumn. No substitute for "Druschki" has yet appeared.

8213 General Jacqueminot Arich velvety crimson, changing to a scarlet-crimson. This is the best known of all hybrid perpetuals, and is without rival in fragrance and richness of color. Blooms freely,

8221 Magna Charta Flowers are very large pink, suffused with carmine. Deliciously fragrant, growth is strong and erect, foliage good.

8222 Mrs. John Laing Large flowers of clear pink, cupshaped, fragrant and double. Strong growth, healthy foliage and free flowering. One of the best Hybrid Perpetual Roses, giving some flowers in the autumn.

8230 Paul Neyron The largest Rose in cultivation, sometimes called the Peony Rose. Color bright, fresh clear pink. Flowers are very double and full, delightfully fragrant. Blooms almost continuously June to October.

8243 Ulrich Brunner Large, full flowers of grant. Strong, erect growth, large foliage. Flowers freely in early summer. An old and well known variety, almost

Prices on the above Hardy Perpetual Roses. Each 60e; 3 for \$1.50; 6 for \$2.70.

8248 Rose Collection 6 Roses 6 Hybrid Perpetual Total Value \$3.60 for \$2.75

Everblooming Hybrid Tea Roses

The Hybrid Tea or Monthly Roses produce their beautiful bloom almost continuously from June until frost. They are the popular roses so much used for bedding and as cut flowers. Our list below includes some of the finest varletles known.

See page 33. The big number after the name refers to the color plate. These are all hardy, field-grown right here in Northern Ohlo and number one grade, which is the finest rose produced. Do not confuse this with cheap, department store roses which are largely produced in the south and not strong enough to stand our Northern winters. They are well worth the price we ask for you eannot buy better roses anywhere, at any price.

8261 Columbia Lively Plnk. Large, fully maturity. Fragrant and free blooming. Each 75c; 3 for \$1.90.

8263 Dame Edith Helen Blooms are very large, pure glowing pink, intensely fragrant and lasting. Each 75e; 3 for \$1.90.

8266 Duchess of Wellington (4) Yellow. Opens a rich orange yellow and turns to reddish-gold and lemon. Each 65e; 3 for \$1.65.

8276 Gen. MacArthur Crim son. Large, fine flowers, free blooming and fragrant. Each 75e; 3 for \$1.90.

8275 Gruss an Teplitz $_{\mathrm{from}}^{\mathrm{Crlmson.}}$ Blooms until frost in great clusters, Each 75e; 3 for \$1,90.

8318 Herbert Hoover (9) Pink and Yellow. Beautiful pointed buds opening to large flowers of cerise pink, flame, scarlet and yellow. The most dazzling color effect. Each 65c; 3 for \$1.65.

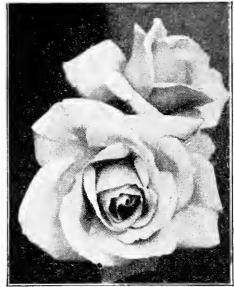

8296 Lady Hillington Beautiful slender semi-double flowers of deep apricot-yellow, slightly fragrant. Free flowering but needs thorough protection in winter. Especially fine in autumn. Each 75e; 3 for \$1.90 in winter, Es for \$1.90.

8299 Los Angeles (5) Coral Pink. Produces continuous bloom on long-stemmed, luminous flame-pink flowers toned with coral and shaded translucent gold. Each 65e; 3 for \$1.65.

8302 Madame Butterfly (10) Light Pink. A symphony of bright pink, apricot, gold and white Full-petalled, prolific and great color-appeal. Each 65e; 3 for \$1.65.

8304 Mme. Edouard Herriot

Coral Red. A beautiful variety. Large flowers of coral red, shaded with yellow and bright, rosy-scarlet. Large, long, pointed buds. Each 75e; 3 for \$1.90.

Lady Hillington Rose

8306 Mrs. Aaron Ward Orange-yellow. Long, shapely buds opening into semi-double, cup-shaped flowers of deep Indian yellow, varied and shaded. Each 75e; 3 for \$1.90.

8326 Red Radiance (8) Crimson.
Blooms globe shaped, very full and almost continuously. Each 65e; 3 for \$1.65.

8328 Rev. F. Page-Roberts Long buds, varying in color from deep coppery-pink to orange and red. Petals of open blooms are golden yellow on the inside and stained with copper and red on the outside. Long stemmed flowers, dwarf plants. Each 75c; 3 for \$1.90.

8330 Souv. de Claudius Pernet

Clear yellow. A clear, untinted, sunflower yellow. Holds color well in bud and full bloom in brightest sun. Each 75e; 3 for \$1.90.

8333 Talisman Coppery Yellow. Richly colored flowers, extremely fragrant, of golden yellow and copper. One of the most popular of the new roses. Each 75c; 3 for \$1.90.

8339 Wilhelm Kordes Long pointed buds of oriental red and gold. Fully double, high-centered blooms are of rich goldensalmon tinged with copper. A sensational new variety. Each 75c; 3 for \$1.90.

8355 Set of 5 See Color Page 33. My Favorite Roses Total \$3.25 for \$2.75

Climbing Roses Beautiful Hardy

No other class of Roses is so easily grown and adds so much to the beauty of the home grounds. Whether it be on a trellis or arbor or at a porch pillar they so quickly make a fine growth and give such a great quantity of delightful bloom, that the place is transformed to a spot of beauty. Our list below includes only those that we know will give you the best results and the greatest beauty.

8505 Climbing American Beauty Color rosy crimpopular parent, and with same exquisite fragrance, a quality rarely found in climbing roses. Strong growth, Flowers from 3 to 4 inches in diameter, of fine form, and produced in great profusion in May and June. Each 40c; 3 for \$1.00; 6 for \$1.80.

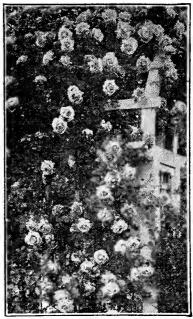

8523 Gardenia Hardy Marechal NIel. A delightfully beautiful variety of very vigorous growth and with rich dark green foliage. Produces an abundance of fine flowers which are a bright yellow in the bud opening to a creamy white with a yellow center. Each 40c; 3 for \$1.00; 6 for \$1.80.

8526 Mary Wallace Introduced by the late Dr. Van Fleet and highly indorsed by The American Rose Society. A strong rapid climber of the Pillar-rose type, and a wonderfully free bloomer. Beautiful pointed buds, and large semi-double flowers 4 inches across. Color clear bright rose pink. Each 40e; 3 for \$1.00; 6 for \$1.80.

8535 Silver Moon Different from all other Roses with beautiful semi-double flowers, pure white in color, petals of great substance and beautifully cupped. The large bunch of yellow stamens in the center add to its attractiveness. Each 40c; 3 for \$1.00; 6 for \$1.80.

8508 Doctor Van Fleet A climber which combines abso-as the tender sorts of Tea and Noisette classes. This variety shows a mass of beautiful clustered buds, which open out into large, shapely flowers delicate flesh white. Fine for cutting, stems 12 to 18 inches long. Each 40c; 3 for \$1.00; 6 for \$1.80.

8528 Mme. Gregoire Staechelin A new climbing rose of very vigorous habit. Flowers are very large moderately fragrant and of a delicate pink with attractively curled petals and, borne on long strong stems. The vigorous foliage of this new variety makes it a very fine subject for trellis or arbor. Each 50e; 3 for \$1.25; 6 for \$2.25.

The Climbing American Beauty

Hardy Climbing Roses

8530 Paul's Scarlet Most dazzling scarlet rose ever grown. Winner of the gold medal at the National Rose Society Exhibition. Semi-double flowers, in clusters of 3 to 20 Roses each Perfectly hardy, continues to bloom long after many other Roses have disappeared. Startingly attractive. Each 40c; 3 for \$1.00.

Insecticides and Fungicides Our Prices Include Delivery To Your Door

Kill Ants in the Nest!

Antrol is the simplest method for getting rid of Ants. It kills them in the nest, destroying the queen and the entire colony. It is easy to use, controls the sweet and the grease eating Ants, is safe to use and is the most economical and permanent Ant protection to your home. Price Antrol Sets, 4 glass containers and one 4 oz. bottle of Antrol Syrup for S5c.

Antrol Syrup Separately. 4 oz. Bottle 40c; Pint 95c.

Antrol Powder. Shaker twist-top can, Each $2\frac{1}{2}$ oz. can 30c; 3 cans for 75c.

"Dust Away Your Weeds"

Atlacide is a NON-POISONOUS Weed Killer in dry powder form used to dust on vegetation. The moisture from the air and weeds dissolves the chemical and produces a highly concentrated weed killing solution directly on the weeds. For use in paths, driveways, tennis courts, brick walks, gutters, etc.

Price 1 lb. Sifter Can 55c; 3½ lb. \$1.65; 15 lb. \$3.80.

"BlackLeaf 40"

Safeguard Your Lovely Flowers

Safeguard Your Lovely Flowers
Tiny green, red or black Aphis feed upon the tender foliage in your garden and rob your flowers of their beauty.

Have on hand some "Black Leaf 40," the spray that kills Aphis, Thrip, Leaf-Hopper and similar insects.

"Black Leaf 40" is a concentrated solution of Nicotine Sulphate. Mixing 1 part of it with 800 to 1000 parts of water, makes an excellent contact spray. Directions on each container. Price 1 oz. 35c; 5 oz. \$1.05; 1 lb. \$2.35; 2 lbs. \$3.40; 5 lbs. \$6.00.

Improved CERESAN for

Wheat, Oats, Barley

If your seed is smutty, treat it with Ceresan to control the smut, if it is clean, treat it anyway and increase the yield. One-Half Ounce Treats a Bushel. Price 1 lb. can 85c; 5 lb. can \$3.25.

COLLOIDAL SULPHUR

A General Fungicide and Contact Insecticide For Fruits, Vegetables, Flowers, Shrubs, Trees

The most effective Sulphur Fungicide known. It is not an ordinary ground sulphur, but a true colloid, chemically made. A widely usable spray. Price ½ lb. tube 95c; 3 lb. jar \$2.25.

If you are bothered with dogs, cats or rabbits, "Dogzoff" is the spray you need. A most efficient animal repellant, non-poisonous to plants and animals and not offensive to humans.

"Dogzoff' is applied with any small insect sprayer and one application lasts three to four weeks. It will save its cost many times over around the garden and home.

Price Season's Supply 69c

EVERGREEN

Non-poisonous Insecticide

New Ever Green Spray will protect the beauty of your garden. It will kill chewing and sucking insects, is approved by noted scientists and is used by leading florists.

Ever Green contains pyrethrum which is fatal to destructive insects but is not injurious to man, pets and

Price 1 oz. 40c; 6 oz. \$1.10; 1 qt. \$2.15; 1 gal. \$12.50. TREE DAGGE

FRAIM'S

Treatment of cuts and injuries are far more important than the use of fertilizers on trees.

PEVENTS DE Use Fraim's Tree Dressing and give your trees a chance to live their normal life.

A tree's bark is to it the same as the skin to the human body. Save this bark with Fraim's Tree Dressing. Price I qt. 60c; I gal. \$1.75.

FORMALDEHYDE

A very simple, effective control for "Damping off" in flower and vegetable seedlings. The dust is mixed with soil at the rate of 1½ oz. per sq. ft. of area when the soil is approximately 3 inches deep. Price 1 lb. can 85c; 5 lbs. \$2.15.

Fungtrogen For Mildew or Black Spot

Fungtrogen is a complete spray when mixed with 60 times its volume of water. It is a highly concentrated fungicide, invisible on the foliage or blooms, fertilizing the plant through the leaves. A wonderfully spray for ROSES. Price 4 oz. 50e; ½ pt. 80c; pt. \$1.35; qt. \$2.20.

GRAPE **ROSE DUST** Controls Fungus Diseases

A fine greenish fungicide dust for control of Mildews, Black Spot and other fungus growths, widely used by Rose and Grape growers every-

Easy to use and is non-poisonous to children, pets or birds. Try it this year. Price 1 lb. 45c; 5 lbs. \$1.65; 25 lbs. \$6.85.

NITRAGIN INOCULATE ALL LEGUMES

Inoculator

Sce Page 55

Inoculate your Garden Peas, Beans, Sweet Peas and Lupines with Nitragin. They need Bacteria Fertilizer. Nitragin is an old reliable Inoculator, well known and widely used by Agricultural Colleges. It is highly recommended for Lupine seed and for use in watering the soil around the roots of Hardy Lupines. Price Garden Pkg. 25c; Large size 50c.

Perfected ARROW Pyrethrum

Red Arrow is a perfected Pyrethrum contact spray that gives a complete kill, destroying every insect it strikes. It is fatal to both chewing and sucking insects.

Red Arrow is absolutely non-poisonous to children, poultry or pets. It will not burn the tenderest leaf flower or pets! May be

leaf, flower or petal. May be sprayed on vegetables before eating. Red Arrow will kill fleas on dogs

ned Arrow will kill fleas on dogs and cats. Use at rate of two teas spoons to one gallon of water.

Price 1 oz. 35c; ¼ pt. \$1.05; pt. \$2.25; qt. \$4.00; gal. \$12.25.

ROSE AID

The most efficient dusting com-pound ever developed for the control of Black Spot, Mildew and Chew-

of Black Spot, Mildew and Chewing Insects.
Rose Aid is a combination of fine Sulphur, Dry Lime, Sulphur-Bentonite and Arsenate of Calcium.
Everyone loves healthy, vigorous Roses, You can grow them if you use Rose Aid. The results will be satisfactory for Hybrid Teas, Hybrid Perpetuals or Climbers, just dust them with Rose Aid. Price 2 lb. can 60c.

ROTECIDE The Standard Rotenone Spray

Non-Poisonous

Economical

Rotecide is a complete spray, No soap or spreader is needed. Contains an excellent penetrant which spreads each drop of spray over a maximum area. This feature insures a complete kill. Price 1 oz. 35c; 8 oz. \$1.10; pt. \$1.85; qt. \$3.15; gal. \$8.25.

SELOCIDE Kills Red Spider

Selocide kills 90% to 100% of Red Spiders in just one application. It also kills the eggs and does not harm the tender plants

does not harm the tender plants when properly used.
Selocide contains Selenium, the only material yet found that is a sure kill for Red Spider.
Selocide contains a spreader and is to be sprayed thoroughly on upper and lower sides of the leaves to kill Red Spider only.
Price 1 qt. \$1.40; 1 gal. \$3.50.

SEMESAN

A Superior Disinfectant Authorities stress the importance of planting clean seeds, free from disease and infection. Semesan is highly recommended as a disinfectant and can be used as a DUST or in LIQUID form.

Why not lay the foundation for a heavy-yielding, healthy and profitable crop this year by using Semesan on all seeds, bulbs, roots and potatoes?

SEMESAN comes under three formulas and we list them $% \left\{ \mathbf{n}\right\} =\left\{ \mathbf{n}\right\} =\left\{ \mathbf{n}\right\}$

SEMESAN Regular, for Vegetable Seeds. Price 2 oz. 55c; 1 lb. \$2.60; 5 lbs. \$12.00.

SEMESAN JR. for Seed Corn. Price 4 oz. 55c; I lb. \$1.60; 5 lbs. \$7.50.

SEMESAN BEL, for Seed Potatoes. Price 4 oz. 55c; 1 lb. \$1.85; 5 lbs. \$8.25.

TREE TANGLEFOOT

Safe, Dependable, Long Lasting

Tree Tanglefoot is a sticky material for applying in bands around the trunks of trees and vines to combat the climbing and creeping type of destructive insect pests. It remains three to four months, outlasting ten to twenty times any other material Price 1 lb. can 70c; 5 lbs. \$2.95; 10 lbs.

VOLCK A Powerful Spray

for Insect Pests

Volck is a spray for Scale Insects, Mealy Bugs, White Flies, Red Spiders, Rust Mites and similar insects. It is suitable for all kinds of plants, flowers, vegetables, berries, shrubs, ornamental trees, deciduous and citrus fruits. Price ½ pt. 40c; pt. 60c; qt. 90c; gal. \$2.80.
